Sweet Anticipation:

Sweet Anticipation David Huron, 2008-01-25 The psychological theory of expectation that David Huron proposes in *Sweet Anticipation* grew out of the author's experimental efforts to understand how music evokes emotions. These efforts evolved into a general theory of expectation that will prove informative to readers interested in cognitive science and evolutionary psychology as well as those interested in music. The book describes a set of psychological mechanisms and illustrates how these mechanisms work in the case of music. All examples of notated music can be heard on the Web. Huron proposes that emotions evoked by expectation involve five functionally distinct response systems: reaction responses which engage defensive reflexes; tension responses where uncertainty leads to stress; prediction responses which reward accurate prediction; imagination responses which facilitate deferred gratification; and appraisal responses which occur after conscious thought is engaged. For real world events, these five response systems typically produce a complex mixture of feelings. The book identifies some of the aesthetic possibilities afforded by expectation and shows how common musical devices such as syncopation, cadence, meter, tonality, and climax exploit the psychological opportunities. The theory also provides new insights into the physiological psychology of awe, laughter, and spine-tingling chills. Huron traces the psychology of expectations from the patterns of the physical cultural world through imperfectly learned heuristics used to predict that world to the phenomenal qualia we experienced as we apprehend the world. *Sweet Anticipation* David Brian Huron, 2006 *Sermons*

That Sing Noel A. Snyder, 2021-08-17 Preaching and music are both regular elements of Christian worship yet they often don't interact or inform each other in meaningful ways. Theologian, pastor, and musician Noel A. Snyder considers how preaching that seeks to engage hearts and minds might be helpfully informed by musical theory so that preachers might craft sermons that sing. **Tete-A-Tete** Beverly Maitland, 2012-11 Where are you mentally? Are you comfortable with yourself? What

experiences brought you to this place and time? Perhaps you have a lot to share, as so many of us do. That is why we have heart-to-heart conversations: the essence of this collection. *Tete a Tete: Conversations about Our Experiences* offers the heartfelt, open, and honest conversations we need to have about the experiences that brought us to the place where we are right now, whether that is a comfortable place or not. In this her second poetry collection, author Beverly Maitland begins a new, thought-provoking conversation about our personal experiences and how they have shaped us. She uses poetry of all forms along with insightful conversations about our life experiences to explore the struggles we face, the emotions we feel, and the pleasures we encounter. *Tete a Tete: Conversations about Our Experiences* encourages intuitive reflection through engaging conversations, enabling us to analyze our lives and put into unique perspective our own paths of failure, success, or enlightenment. This collection, with powerful imagery and reflection, seeks to help you contextualize the past by accepting what was, sail enthusiastically with the waves of the present, and learn how to use those experiences to shape a future of growth, wisdom, and enlightenment. **5 Short Romance Stories Collection #1: Sweet and Clean & Wholesome, Easy to Read Fiction**

courtship in the nineteenth century

Introductory essays and extensive editorial apparatus offer historical and cultural contexts of the materials included Throughout the long nineteenth century a woman's life was commonly thought to fall into three discrete developmental stages personal formation and a gendered education a young woman's entrance onto the marriage market and finally her emergence at the apogee of normative femininity as wife and mother In all three stages of development there was an unspoken awareness of the duplicity at the heart of this carefully cultivated femininity What women were taught no matter their age was that if you desired anything in life it behooved you to perform indifference This meant that for women the art of flirtation and feigning indifference were viewed as essential survival skills that could guarantee success in life These three volumes document the many ways in which nineteenth century women were educated in this seemingly universal wisdom but just as frequently managed to manipulate subvert and navigate their way through such proscribed norms to achieve their own desires Presenting a wide range of documents from novels memoirs literary journals newspapers plays poetry songs parlour games and legal documents this collection will illuminate a far more diverse set of options available to women in their quest for happiness and a new understanding of the operations of courtship and flirtation the central concerns of a nineteenth century woman's life The volumes will be of interest to scholars of history literature gender and cultural studies with an interest in the nineteenth century

Buckley,1836 *Reflections on the Musical Mind* Jay Schulkin,2013-07-28 What s so special about music We experience it internally yet at the same time it is highly social Music engages our cognitive affective and sensory systems We use music to communicate with one another and even with other species the things that we cannot express through language Music is both ancient and ever evolving Without music our world is missing something essential In Reflections on the Musical Mind Jay Schulkin offers a social and behavioral neuroscientific explanation of why music matters His aim is not to provide a grand unifying theory Instead the book guides the reader through the relevant scientific evidence that links neuroscience music and meaning Schulkin considers how music evolved in humans and birds how music is experienced in relation to aesthetics and mathematics the role of memory in musical expression the role of music in child and social development and the embodied experience of music through dance He concludes with reflections on music and well being Reflections on the Musical Mind is a unique and valuable tour through the current research on the neuroscience of music Stravinsky and the Russian Period

Pieter C. van den Toorn,John McGinness,2012-05-10 Van den Toorn and McGinness take a fresh look at the dynamics of Stravinsky s musical style from a variety of analytical critical and aesthetic angles Starting with processes of juxtaposition and stratification the book offers an in depth analysis of works such as The Rite of Spring Les Noces and Renard Characteristic features of style melody and harmony are traced to rhythmic forces including those of metrical displacement Along with Stravinsky s formalist aesthetics the strict performing style he favoured is also traced to rhythmic factors thus reversing the direction of the traditional causal relationship Here aesthetic belief and performance practice are seen as flowing directly from the musical invention The book provides a counter argument to the criticism and aesthetics of T W

Movies, Songs, and Electric Sound Charles O'Brien, 2019-02-08 How did the introduction of recorded music affect the production viewing experience and global export of movies In Movies Songs and Electric Sound Charles O'Brien examines American and European musical films created circa 1930 when the world's sound equipped theaters screened movies featuring recorded songs and filmmakers in the United States and Europe struggled to meet the artistic and technical challenges of sound production and distribution The presence of singers in films exerted special pressures on film technique lending a distinct look and sound to the films musical sequences Rather than advancing a film's plot songs in these films were staged filmed and cut to facilitate the singer's engagement with her or his public Through an examination of the export market for sound films in the early 1930s when German and American companies used musical films as a vehicle for competing to control the world film trade this book delineates a new transnational context for understanding the Hollywood musical Combining archival research with the cinemetric analysis of hundreds of American German French and British films made between 1927 and 1934 O'Brien provides the historical context necessary for making sense of the aesthetic impact of changes in film technology from the past to the present

Hearing Homophony Megan Kaes Long, 2020-04-28 The question of tonality's origins in music's pitch content has long vexed many scholars of music theory However tonality is not ultimately defined by pitch alone but rather by pitch's interaction with elements like rhythm meter phrase structure and form *Hearing Homophony* investigates the elusive early history of tonality by examining a constellation of late Renaissance popular songs which flourished throughout Western Europe at the turn of the seventeenth century Megan Kaes Long argues that it is in these songs rather than in more ambitious secular and sacred works that the foundations of eighteenth century style are found Arguing that tonality emerges from features of modal counterpoint in particular the rhythmic phrase structural and formal processes that govern it and drawing on the arguments of theorists such as Dahlhaus Powers and Barnett she asserts that modality and tonality are different in kind and not mutually exclusive Using several hundred homophonic partsongs from Italy Germany England and France Long addresses a historical question of critical importance to music theory musicology and music performance *Hearing Homophony* presents not only a new model of tonality's origins but also a more comprehensive understanding of what tonality is providing novel insight into the challenging world of seventeenth century music
