**The Transnational History of a Chinese Family** Haiming Liu, 2005 Family and home are one word *jia* in the Chinese language Family can be separated and home may be relocated but *jia* remains intact It signifies a system of mutual obligation lasting responsibility and cultural values This strong yet flexible sense of kinship has enabled many Chinese immigrant families to endure long physical separation and accommodate continuities and discontinuities in the process of social mobility Based on an analysis of over three thousand family letters and other primary sources including recently released immigration files from the National Archives and Records Administration Haiming Liu presents a remarkable transnational history of a Chinese family from the late nineteenth century to the 1970s For three generations the family lived between the two worlds While the immigrant generation worked hard in an herbalist business and asparagus farming the younger generation crossed back and forth between China and America pursuing proper education good careers and a meaningful life during a difficult period of time for Chinese Americans When social instability in China and hostile racial environment in America prevented the family from being rooted in either side of the Pacific transnational family life became a focal point of their social existence This well documented and illustrated family history makes it clear that for many Chinese immigrant families migration does not mean a break from the past but the beginning of a new life that incorporates and transcends dual national boundaries It convincingly shows how transnationalism has become a way of life for Chinese American families

Representing a singular breadth of knowledge about the Chinese American past, the volume begins with an historical overview of Chinese migration to the United States, followed by critical discussion of the development of key community institutions: Chinese language schools, newspapers, and politics in early Chinese American life. Rather than emphasize experiences of discrimination, the collection focuses on Chinese American community formation that tested the racially imposed boundaries on their new lives in the United States. Wielding intellectual energy, critical acumen, and a sly sense of humor, Sucheng Chan discusses her experiences on three campuses within the University of California system as Asian American studies was first developed in response to vehement student demand under the rubric of ethnic studies. Chan speaks by turns as an advocate and an administrator striving to secure a place for Asian American studies as a teacher working to give Asian American students a voice and white students a perspective on race and racism, and as a scholar and researcher still asking her own questions. The essays span three decades and close with a piece on the new challenges facing Asian American studies. Eloquent, documenting a field of endeavor in which scholarship and identity define and strengthen each other. *In Defense of Asian American Studies* combines analysis, personal experience, and indispensable practical advice for those engaged in building and sustaining Asian American studies programs.

**From Canton Restaurant to Panda Express** Haiming Liu, 2015-09-09 The story of Chinese Americans through the lens of food From Canton Restaurant in 1849 to Panda Express today Chinese food history in America spans over 150 years Chinese Forty niners were mostly merchants and restaurateurs who migrated here not to dig gold but to do trade

Racism against the Chinese slowed down the growth of the Chinese restaurant business in the late 19th century but it made a rebound in the format of chop suey. From 1900 to the 1960s chop suey as imagined authentic Chinese food attracted numerous American customers including Jewish Americans as its collective fan. Then the real Chinese food such as Hunan, Sichuan or Shanghai cuisine replaced chop suey houses in the 1970s following the arrival of new Chinese immigrants after immigration reform in 1965. Those regional flavored Chinese restaurants were brought in and established by immigrants from Taiwan rather than mainland China. As Chinese restaurants in America turned Chinese in flavor, P.F. Chang's and Panda Express rose fast in the 1990s to meet the need of constantly changing and often multi ethnically blended eating habits of American customers. Chinese food in America is a fascinating history about both Chinese and Americans. Embedded in this history is the story of human migration, culinary tradition, racial politics, ethnic identity, cultural negotiation, Chinese Diaspora and transnational life, and Chinese cuisine as a global food. Though a scholarly work, this book aims at all readers who are interested in food history and culture. Provided by publisher

**Down by the Station** Roberta S. Greenwood, 1996-06-01 In 1933 the demolition of the thriving Los Angeles Chinatown for the construction of Union Station sealed the remains of this intact community 14 feet below the railroad tracks. The planning and construction of the Metro Rail subway system five decades later included efforts to preserve and protect cultural resources in the area detailed in this volume. The assemblage of excavated material objects reflects the import preparation and service of food, recreation, health practices, the presence of women and children, rubbish disposal practices and degree of participation in local social networks. The unprecedented numbers and densities of artifacts illuminate aspects of lifeways not previously recorded, revealing a rich picture of people and life in nineteenth and early twentieth century Los Angeles. Intensive historical research, oral history and laboratory analyses have been synthesized into a comprehensive reconstruction of a community that was isolated socially, economically and geographically.
