Control Aids Thru Homoeopathy R. K. Kapoor,2009-01-01 A case of AIDS is a war a fierce battle between HIV and the

treating physician a battle that he never dreamt of and one that he never witnessed This is manifested by the fact that though the Founder of Homoeopathy Dr Christian Friedrich Samuel Hahnemann wrote six volumes on Organon of Medicine and made various changes yet he did not give instructions to withdraw any of the volume or its section or its aphorism The author Dr R K Kapoor has tried to take advantage of his thought process He has endeavored to dig out his hidden treasure but has kept it flexible with the premonition that there may come a time when a disease like AIDS may manifest itself and wipe out a bulk of global population Homoeopathy has come to the rescue of people It does not claim at this point of time to provide a complete cure as it is in the process of development However it can pave the way to control AIDS and shower the boon of longevity on its sufferer The methodology evolves around the idea of how to stop the onward journey of the virus how to cage it and cripple it Once it is achieved the physician will have plenty of time for an onward journey to bring out a complete eradication of this deadly disease Dr Kapoor has a record of treating millions of acute chronic curable and incurables cases successfully in India and abroad He now desires to convey to the patients of HIV AIDS that it is unquestionably curable and can be controlled instantaneously with the help of homoeopathic therapeutics *Family Homeopathy and Survival Guide* ,
