Syriac Church And Fathers:

The Syriac Church and Fathers De Lacy O'Leary, 1909 *The Syriac Church and Fathers* , 2002 *The Syriac Fathers on Prayer and the Spiritual Life* Sebastian P. Brock, 1987 The aim of this selection of excerpts translated from Syriac writers mainly on the topic of prayer is to introduce this little known tradition of Eastern Christian spirituality to a wider audience For the reader who is unfamiliar with this tradition the General Introduction is intended to provide a brief orientation Some supplementary information on the individual authors will be found in the introductions to each chapter **Syriac Church & Fathers** , 1909 *The Third Lung: New Trajectories in Syriac Studies* , 2023-08-21 No one mentions Syriac a dialect of the Aramaic language Jesus spoke without referring to Sebastian P Brock the Oxford scholar and teacher who has written and taught about everything Syriac even reorienting the field as The Third Lung of early Christianity along with Greek and Latin In 2018 Syriac scholars world wide gathered in Sigtuna Sweden to celebrate with Sebastian his accomplishments and share new directions Through essays showing what Syriac studies have attained where they are going as well as some arenas and connections previously not imagined flavors of the fruits of laboring in the field are offered Contributors to this volume are Susan Ashbrook Harvey Shraga Bick Briouria Bitton Ashkelony Alberto Camplani Thomas A Carlson Jeff W Childers Muriel Debi Terry Falla George A Kiraz Sergey Minov Craig E Morrison István Perczel Anton Pritula Ilaria Ramelli Christine Shepardson Stephen J Shoemaker Herman G B Teule Kathleen E McVey Church History:) Attempts at regeneration in Germany Johann Heinrich Kurtz, 1889 *THE MAR THOMA STORY* John Thomas, 2020-12-02 The epic of the apostle St Thomas is reported in this treatise The traditional tale tells an unacceptable story without credibility and relevance to the reality of how Jesus and His apostles preached to whom when where and why hearers left their earlier faith to become the first believers in the faith which has since come to be known as Christianity in spite of all the resistance persecutions and tortures these believers had to endure suffer and die cruel deaths for Then there are the enduring unassailable facts a people on the west Malabar coast of Peninsular India the Syrian Christians claiming from the very beginning of their existence of having been Christianised only by the testimony and witness of the apostle to their ancestors and a tomb on the east Coromandel Coast of peninsular India at Mylapore forlorn and without any local devotees until the coming of the Portuguese that has always been known and claimed to be the only burial place of the apostle Then it has to be critically evaluated why among the apostles St Thomas alone travelled about 7000 km east and south of Palestine in a direction away from the travels and mission of all other apostles traversing desert and ocean to preach only to two similar communities at two seaports at Muziris and Mylapore on either side of peninsular India This is the enigmatic and perplexing matter thoroughly researched analysed evaluated and reported in this book and treatise The book finally arrives at the factors that led to the success of the apostle's mission at the seaport of Muziris The Oxford Handbook of Deification Paul L. Gavrilyuk, Andrew P. Hofer, Matthew Levering, 2024-06-03 Modern theological engagements on deification have undergone two major paradigm

shifts First the study of deification shifted from the periphery of theological discourse to its center For Adolf von Harnack deification was a pagan import that fatally corrupted and distorted the Gospel message of salvation In response the positive retrieval of the concept of deification belongs to the early years of the twentieth century By the 1910s in Russian religious thought and by the 1930s in much Roman Catholic theology deification had become a magnet concept attracting attention from many different viewpoints The second important shift relates to how deification is characterized Recent studies question the exclusively Eastern character of deification and draw attention to the engagements of this theme in Latin patristic and later Western Christian sources Reassessing the evidence for these two major shifts The Oxford Handbook of Deification comprehensively explores the points of convergence and difference on the constitutive elements of deification in different traditions and offers a foundation for ecumenical and interreligious dialogues The Handbook s first part analyzes the cultural and scriptural roots of deification the second part explores the most significant historical contributions to the understanding of deification in the early medieval and modern periods the third part develops systematic connections Readers will discover a surprising breadth depth and diversity of theologies of deification in Christian traditions Throughout the Handbook leading scholars in the field of Deification Studies propose vital new insights from a variety of perspectives for this central mystery at the heart of the Christian faith

The Qur'an and the Aramaic Gospel Traditions Emran El-Badawi, 2013-12-17 This book is a study of related passages found in the Arabic Qur'an and the Aramaic Gospels i.e. the Gospels preserved in the Syriac and Christian Palestinian Aramaic dialects It builds upon the work of traditional Muslim scholars including al-Biqd ca 808-1460 and al-Suyd 911-1505 who wrote books examining connections between the Qur'an on the one hand and Biblical passages and Aramaic terminology on the other as well as modern western scholars including Sidney Griffith who argue that pre-Islamic Arabs accessed the Bible in Aramaic The Qur'an and the Aramaic Gospel Traditions examines the history of religious movements in the Middle East from 180-632 CE explaining Islam as a response to the disunity of the Aramaic speaking churches It then compares the Arabic text of the Qur'an and the Aramaic text of the Gospels under four main themes: the prophets, the clergy, the divine, and the apocalypse Among the findings of this book are that the articulator as well as audience of the Qur'an were monotheistic in origin, probably bilingual, culturally sophisticated, and accustomed to the theological debates that raged between the Aramaic speaking churches Arguing that the Qur'an's teachings and ethics echo Jewish Christian conservatism, this book will be of interest to students and scholars of Religion History and Literature

[A General Introduction to the Bible](#) David Ewert, 2010-05-11 What does the word Bible mean? Who wrote the Bible? Has it changed over time? Why are there so many translations? A General Introduction to the Bible answers these questions and more Without becoming too technical for the average layperson, David Ewert surveys the history, formation, transmission, and translation of the Christian Bible in an informative and captivating way Topics include: Meaning of Bible and the naming of biblical books; Transmission of sacred scriptures; The thousand year story of the English Bible; Bible organization; Development of biblical

languages Canon of the testaments Extracanonical books Early versions of the Bible Choosing a translation Features include Photographs of ancient texts Bible pages key individuals and settings Maps and charts that show the development of languages textual families and the relationship of various translations and revisions Suggested readings and an extensive glossary and index From ancient tablets to modern translations God's Word to humanity has been profoundly impacting the world for several millennia And after learning about its fascinating history your appreciation for the Bible will surely increase even more

Revival and Awakening Adam H. Becker,2015-03-09 This volume examines how the presence of an American evangelical mission in the borderlands between Qajar Iran and the Ottoman Empire in the nineteenth century contributed to the development of a secular nationalism among the indigenous Neo Aramaic speaking Christian population of the region A particular evangelical configuration of modernity was cultivated at the mission in the antebellum period one belonging to a visceral realm often unrecognised in characterisations of secularism and the Enlightenment
