Systame Et Ravalation La Philosophie De Franz Rosenzweig:

Legacy Of Franz Rosenzweig Luc Anckaert, Martin Brasser, Norbert Max Samuelson, 2004 A representative survey of the contemporary Rosenzweig research gathering the state of affairs of the main spearheads of the research and it highlights the incentives for the programs to come *Yale Companion to Jewish Writing and Thought in German Culture, 1096-1996* Sander L. Gilman, 1997-01-01 This work provides a history of Jewish writing and thought in the German speaking world Written by 118 scholars in the field the book is arranged chronologically moving from the 11th century to the present Throughout it depicts the contribution that Jewish writers have made to German culture and at the same time explores what it means to the other within that mainstream culture *A Critique of Infinity* Luc Anckaert, 2006 Levinas writes that Rosenzweig is too present in his work to be cited This cryptic suggestion is unfolded into an in depth confrontation Both philosophers implement the same speculative gesture Rosenzweig writes in post Hegelian times Levinas's thinking is enriched by phenomenology and marked by the Holocaust Their critical exploration of the relationship to the infinite offers radically new perspectives on the language the time and the other The confrontation raises serious questions How is a concept of alterity possible without accepting an identity What are the concealed presuppositions The questions lead to a critical analysis that cautiously explores the boundaries of dialogical thinking But it is also the expression of the esteem held for the strong power of inspiration As such this book is both a critique and a tribute to Rosenzweig and Levinas The book contains an exhaustive bibliography of the comparative studies The manuscript was gold awarded by the Teylers Fellowship of Haarlem the Netherlands *Biographical Dictionary of Twentieth-Century Philosophers* Stuart Brown, Diane Collinson, Robert Wilkinson, 2012-09-10 This Biographical Dictionary provides detailed accounts of the lives works influence and reception of thinkers from all the major philosophical schools and traditions of the twentieth century This unique volume covers the lives and careers of thinkers from all areas of philosophy from analytic philosophy to Zen and from formal logic to aesthetics All the major figures of philosophy such as Nietzsche Wittgenstein and Russell are examined and analysed The scope of the work is not merely restricted to the major figures in western philosophy but also covers in depth a significant number of thinkers from the near and far east and from the non European Hispanic language communities The Biographical Dictionary also includes a number of general entries dealing with important schools of philosophy such as the Vienna Circle or currents of thought such as vitalism These allow the reader to set the individual biographies in the context of the philosophical history of the period With entries written by over 100 leading philosophy scholars the Biographical Dictionary is the most comprehensive survey of twentieth century thinkers to date Structure The book is structured alphabetically by philosopher Each entry is identically structured for ease of access and covers nationality dates and places of birth and death philosophical style or school areas of interest higher education significant influences main appointments main publications secondary literature account of intellectual development and main ideas critical reception and impact At the end of the book

a glossary gives accounts of the schools movements and traditions to which these philosophers belonged and thorough indexes enable the reader to access the information in several ways by nationality by major areas of contribution to philosophy e g aesthetics by major influences on the thinker concerned e g Plato Kant Wittgenstein

Idolatry and Representation Leora Batnitzky, 2009-07-06 Although Franz Rosenzweig is arguably the most important Jewish philosopher of the twentieth century his thought remains little understood Here Leora Batnitzky argues that Rosenzweig s redirection of German Jewish ethical monotheism anticipates and challenges contemporary trends in religious studies ethics philosophy anthropology theology and biblical studies This text which captures the hermeneutical movement of Rosenzweig s corpus is the first to consider the full import of the cultural criticism articulated in his writings on the modern meanings of art language ethics and national identity In the process the book solves significant conundrums about Rosenzweig s relation to German idealism to other major Jewish thinkers to Jewish political life and to Christianity and brings Rosenzweig into conversation with key contemporary thinkers Drawing on Rosenzweig s view that Judaism s ban on idolatry is the crucial intellectual and spiritual resource available to respond to the social implications of human finitude Batnitzky interrogates idolatry as a modern possibility Her analysis speaks not only to the question of Judaism s relationship to modernity and vice versa but also to the generic question of the present s relationship to the past a subject of great importance to anyone contemplating the modern statuses of religious tradition reason science and historical inquiry By way of Rosenzweig Batnitzky argues that contemporary philosophers and ethicists must relearn their approaches to religious traditions and texts to address today s central ethical problems

A Companion to Continental Philosophy Simon Critchley, William R. Schroeder, 1998-06-08 Covering the complete development of post Kantian Continental philosophy this volume serves as an essential reference work for philosophers and those engaged in the many disciplines that are integrally related to Continental and European Philosophy

Leo Strauss and the Crisis of Rationalism Corine Pelluchon, 2014-02-01 Examines the German and Jewish sources of Strauss s thought and the extent to which his philosophy can shed light on the crisis of liberal democracy How can Leo Strauss s critique of modernity and his return to tradition especially Maimonides help us to save democracy from its inner dangers In this book Corine Pelluchon examines Strauss s provocative claim that the conception of man and reason in the thought of the Enlightenment is self destructive and leads to a new tyranny Writing in a direct and lucid style Pelluchon avoids the polemics that have characterized recent debates concerning the links between Strauss and neoconservatives particularly concerns over Strauss s relation to the extreme right in Germany Instead she aims to demystify the origins of Strauss s thought and present his relationship to German and Jewish thought in the early twentieth century in a manner accessible not just to the small circles devoted to the study of Strauss but to a larger public Strauss s critique of modernity is she argues constructive he neither condemns modernity as a whole nor does he desire a retreat back to the Ancients where slaves existed and women were not considered citizens The question is to know whether we can learn

something from the Ancients and from Maimonides and not merely about them **FRANZ ROSENZWEIG e o Pensamento Dialógico** Mendo Castro Henriques, 2017-07-01 A presente monografia é um passo decisivo para a reconstituição em Portugal de Franz Rosenzweig 1886 1929 autor cuja profundidade originalidade e compaixão têm vindo a ser reconhecidas granjeando-lhe um lugar cimeiro entre os filósofos contemporâneos No seu livro de 1921 *A Estrela da Redenção* Rosenzweig propõe o que chamou um *A sua rejeição do pensamento monológico rejeição tão veemente como em Schopenhauer Kierkegaard e Nietzsche obrigou a olhar de outro modo para os filósofos a sua visão da revelação como apelo do outro ajudou a moldar o curso da filosofia e da teologia no século XX as suas reflexões sobre a finitude e os contornos temporais da experiência humana antecipam as reflexões de Martin Heidegger e Jean Paul Sartre a importância que atribuiu a linguagem promoveu esta área de estudos depois cultivada por Walter Benjamin Paul Ricoeur e Jacques Derrida Finalmente o destaque atribuído a relação entre o eu e o tu originou os estudos dialógicos em que se salientaram Martin Buber e Emmanuel Levinas **Levinas, Messianism and Parody** Terence Holden, 2011-09-22 Analysis of messianism in Continental philosophy using a case study of Levinas to uncover its underlying philosophical intelligibility **Minimal Theologies** Hent de Vries, 2019-12-01 Originally published in 2004 What at this historical moment after Auschwitz still remains of the questions traditionally asked by theology What now is theology's minimal degree This magisterial study the first extended comparison of the writings of Theodor W Adorno and Emmanuel Levinas explores remnants and echoes of religious forms in these thinkers critiques of secular reason finding in the work of both a theology in pianissimo constituted by the trace of a transcendent other The author analyzes systematizes and formalizes this idea of an other of reason In addition he frames these thinkers innovative projects within the arguments of such intellectual heirs as Jürgen Habermas and Jacques Derrida defending their work against later accusations of performative contradiction by Habermas or empiricism by Derrida and in the process casting important new light on those later writers as well Attentive to rhetorical and rational features of Adorno's and Levinas's texts his investigations of the concepts of history subjectivity and language in their writings provide a radical interpretation of their paradoxical modes of thought and reveal remarkable and hitherto unsuspected parallels between their philosophical methods parallels that amount to a plausible way of overcoming certain impasses in contemporary philosophical thinking In Adorno this takes the form of a dialectical critique of dialectics in Levinas that of a phenomenological critique of phenomenology each of which sheds new light on ancient and modern questions of metaphysics ethics and aesthetics For the English language publication the author has extensively revised and updated the prize winning German version *Art and Responsibility* Jules Simon, 2011-03-24 Two German philosophers working during the Weimar Republic in Germany between the two World Wars produced seminal texts that continue to resonate almost a hundred years later Franz Rosenzweig a Jewish philosopher and Martin Heidegger a philosopher who at one time was studying to become a Catholic priest each in their own particular way include in their writings powerful philosophies of art that if approached phenomenologically and*

ethically provide keys to understanding their radically divergent trajectories both biographically and for their philosophical heritage Simon provides a close reading of some of their essential texts *The Star of Redemption* for Rosenzweig and *Being and Time* and *The Origin of the Work of Art* for Heidegger in order to draw attention to how their philosophies of art can be understood to provide significant ethical directives

Correlations in Rosenzweig and Levinas Robert Gibbs, 1994-10-03 Robert Gibbs radically revises standard interpretations of the two key figures of modern Jewish philosophy Franz Rosenzweig author of the monumental *Star of Redemption* and Emmanuel Levinas a major voice in contemporary intellectual life who has inspired such thinkers as Derrida Lyotard Irigaray and Blanchot Rosenzweig and Levinas thought in relation to different philosophical schools and wrote in disparate styles Their personal relations to Judaism and Christianity were markedly dissimilar To Gibbs however the two thinkers possess basic affinities with each other The book offers important insights into how philosophy is continually being altered by its encounter with other traditions

Religion and Violence Hent de Vries, 2003-05-01 Chosen as an Outstanding Academic Title for 2003 by Choice Magazine Originally published in 2002 Does violence inevitably shadow our ethico political engagements and decisions including our understandings of identity whether collective or individual Questions that touch upon ethics and politics can greatly benefit from being rephrased in terms borrowed from the arsenal of religious and theological figures because the association of such figures with a certain violence keeps moralism whether in the form of fideism or humanism at bay Religion and Violence Philosophical Perspectives from Kant to Derrida s careful posing of such questions and rearticulations pioneers new modalities for systematic engagement with religion and philosophy alike

The Politics of Praise William W. Young, 2007 The Politics of Praise argues that the redemptive potential of naming God lies in how this event transforms friendship It breaks new ground by tracing the connections between naming God and friendship in the work of Thomas Aquinas and Jacques Derrida Advancing an innovative reading of Aquinas on the divine names the book explores how Dionysius mysticism shapes Aquinas appropriation of Aristotle s ethics then retraces how Derrida s reading of religion renders possible an alternative conception of friendship These explorations lead to a surprising convergence between Aquinas and Derrida on the conditions of friendship

Judaism and Modernity Gillian Rose, 2017-03-28 A reinterpretation of thinkers from Benjamin and Rosenzweig to Simone Weil and Derrida *Judaism and Modernity Philosophical Essays* challenges the philosophical presentation of Judaism as the sublime other of modernity Here Gillian Rose develops a philosophical alternative to deconstruction and post modernism by critically re engaging the social and political issues at stake in every reconstruction

Dream Cultures David Dean Shulman, Guy G. Stroumsa, 1999 This work offers a comparative cross cultural history of dreams The authors examine a range of texts concerning dreams from a variety of religious contexts including China the Americas and Greek and Roman antiquity to explore the ways in which different cultures experience the world of dreams

The Jew, the Arab Gil Anidjar, 2003 This book argues that in Christian Europe the question of the enemy has for millennia been structured by the historical relation of

Europe to both Arab and Jew It provides a philosophical understanding of the background of the current conflict in the Middle East

The Burnt Book Marc-Alain Ouaknin, 2024-05-14 A profound look at what it means for new generations to read and interpret ancient religious texts In this book rabbi and philosopher Marc Alain Ouaknin offers a postmodern reading of the Talmud Combining traditional learning and contemporary thought Ouaknin dovetails discussions of spirituality and religious practice with such concepts as deconstruction intertextuality undecidability multiple voicing and eroticism in the Talmud On a broader level he establishes a dialogue between Hebrew tradition and the social sciences which draws for example on the works of L vinas Blanchot and Jab s as well as Derrida *The Burnt Book* represents the innovative thinking that has come to be associated with a school of French Jewish studies headed by L vinas and dedicated to new readings of traditional texts The Talmud transcribed in 500 C E is shown to be a text that refrains from dogma and instead encourages the exploration of its meanings A vast compilation of Jewish oral law the Talmud also contains rabbinical commentaries that touch on everything from astronomy to household life Examining its literary methods and internal logic Ouaknin explains how this text allows readers to transcend its authority in that it invites them to interpret discuss and recreate their religious tradition An in depth treatment of selected texts from the oral law and commentary goes on to provide a model for secular study of the Talmud in light of contemporary philosophical issues Throughout the author emphasizes the self effacing quality of a text whose worth can be measured by the insights that live on in the minds of its interpreters long after they have closed the book He points out that the burning of the Talmud in anti Judaic campaigns throughout history has in fact been an unwitting act of complicity with Talmudic philosophy and the practice of self effacement Ouaknin concludes his discussion with the story of the Hasidic master Rabbi Nahman of Bratslav who himself burned his life achievement a work known by his students as the *Burnt Book* This story leaves us with the question should all books be destroyed in order to give birth to thought and renew meaning

Futures of Critical Theory Michael A. Peters, Mark Olssen, Colin Lankshear, 2003

Reinvigorating critical theory by extending its range and its intellectual trajectories through strategies of inclusiveness that respect and build on parallel traditions the authors reinterpret Nietzsche Wittgenstein and Heidegger in relation to central figures and themes of critical theory

Divided Passions Paul R. Mendes-Flohr, 1991 Paul Mendes Flohr is emerging as the leading Jewish intellectual historian of the present generation In particular he is responsible for a significant amount of the important and pertinent scholarship in the field of German Jewish intellectual history No one else is quite as intimately knowledgeable with this material the ambiguous legacy of one of the most inventive and poignant episodes of creativity in the life of the Diaspora *Divided Passions* is a collection of published and unpublished essays and articles by Paul Mendes Flohr from the past decade In a manner that underscores their continued relevance and significance Mendes Flohr writes about the problems that Buber Rosenzweig Bloch Simon Scholem and others tried to crystallize and resolve Mendes Flohr moves with effortless authority among the disciplines of theology philosophy literature history and sociology Fitted with

these interdisciplinary resources he enriches his treatment of themes and figures in ways that exceed the scope to say nothing of the execution found in other literature The book conveys a rare metaphysical depth for questions of faith identity and Dasein explored by the intellectual figures of the past are also personal ones for the author as well Mendes Flohr s exceptional ability to keep this body of work alive and available provides an outstanding source of commentary on the subjects that dominate the agenda of modern Jewish studies
