Judith C. Enders, Moritz Remig

Systemic Competitiveness New Governance Patterns For Industrial Development:

Systemic Competitiveness Klaus Esser, Wolfgang Hillebrand, Dirk Messner, Jörg Meyer-Stamer, 2013-10-18 The authors emphasize that an economy's competitiveness relies on purposive and intermeshed measures at the meta macro meso and micro level and a multidimensional guidance concept consisting of competition dialogue and shared decision making which integrates the key groups of actors

Industrial Technology Development in Malaysia Greg Felker, K. S. Jomo, Rajah Rasiah, 2013-02-01 This book and its companion Technology Competitiveness and the State examine and evaluate Malaysian industrialization in terms of its experience of and prospects for industrial technology development The focus is on the development of Malaysia's technological industrial base from a sector and firm specific perspective including the role of foreign multinationals in this process Industrial Technology Development in Malaysia provides a valuable analysis of the technological development of a Newly Industrializing Country and reflects on whether existing development strategies can be maintained in the wake of the financial crises sweeping the East Asian economies

Shaping Competitive Advantages Wolfgang Hillebrand, 1996 This work takes a look at the governance patterns and management concepts adopted in leading OECD countries and advanced developing countries ADCs such as Korea

East Asian Development Yilmaz Akyuz, 2020-04-15 This collection of papers challenges the conventional view of East Asian development driven by open and efficient markets and suggests that considerable diversity both at the institutional level and in policy approaches lies behind the region's rapid economic growth

Development Centre Studies The Economics and Politics of Transition to an Open Market Economy Egypt Weiss Dieter, Wurzel Ulrich, 1998-09-30 This book explains why Egypt is lagging behind other countries in the Mediterranean region in reforming its economy

Integrative Systems Approaches to Natural and Social Dynamics M. Matthies, H. Malchow, J. Kriz, 2012-12-06 At the start of the new millennium mankind is challenged by a paradox the greater the apparent knowledge becomes the greater the uncertainty in understanding and predicting how the world works appears This book presents the outline of a new basis of Systems Science and a methodology for its applications in complex environmental economic social and technological systems

The Challenge of Late Industrialization S. Kimura, 2006-12-12

Globalization has created new opportunities and challenges for late industrialization This book identifies underlying factors for latecomer firms to catch up as system integrators or upgrade as suppliers in fast globalizing industries With in depth case studies several perspectives on firm growth are integrated into a comprehensive framework **Clusters of Innovation in the Age of Disruption** Engel, Jerome S.,2022-07-21 This book is about innovation ecosystems Clusters of Innovation COI and the Global Networks of Clusters of Innovation GNCOI they naturally form What is innovation and why is it important to us Innovation is nothing less than the ability for constructive response and adaptation to change The cause and catalyst for that change is frequently identified as technology and its unceasing pressure to improve on existing solutions and address unmet needs The last decade has painfully demonstrated that exogenous environmental shocks are also sources of change that call for innovative responses ranging from the obvious challenges such as global warming and Covid 19 to the more subtle social and political perturbations of our time **Handbook of Research on Museum Management in the Digital Era** Bifulco, Francesco,Tregua, Marco,2022-03-25 While digital tools are not new to museum management more activities are being performed through their use in order to attract visitors enrich the cultural experience vary the experience context and innovate the cultural industry However these tools need to be tested in order to understand the effects they have on both museum offerings and visitors Further perspectives and insights are needed on the implementation of these digital instruments in museums The Handbook of Research on Museum Management in the Digital Era combines theoretical efforts and empirical research to contribute to the debate on museum management in a digital context It further observes tracks and assesses the ongoing changes brought on by digital solutions Covering topics such as organizational change catalysts sustainability of cultural heritage and phygital experience this book is an excellent resource for museum managers museum curators computer specialists students and educators of higher education researchers and academicians Agricultural Marketing in Tropical Africa H. Laurens van der Laan,Tjalling Dijkstra,Aad van Tilburg,2018-08-09 First published in 1999 this volume explores how African agriculture has always had a strong appeal for the people of the Netherlands This is due to 1 a long established interest in tropical agriculture going back to the days when Indonesia was a Dutch colony 2 a broad based desire to help the Third World and 3 the view that Tropical Africa is highly dependent on agriculture As practical expertise in Africa and systematic research on African agriculture grew specialization became both possible and necessary This volume reflects the specialization in marketing which has been welcomed by economists geographers and scholars of agricultural marketing In addition to a general introductory chapter this book includes five contributions on staple food grains two on export crops two on cattle and one on horticulture Nine of the chapters are country specific covering Benin Burkina Faso Cameroon Cote d'Ivoire Ghana Kenya Sierra Leone Tanzania and Zambia **The Economic Consequences of Globalization on Thailand** Juthathip Jongwanich,2022-01-31 This book explores the impact of globalization especially in the context of trade and investment policies on the key economic outcomes including innovation productivity employment and

wages using Thai manufacturing as a case study The book looks at the impacts of the shift of manufacturing share from industrialized to emerging countries and emergence of global value chains GVCs as well as liberalization through the proliferation of free trade agreements FTAs on key economic outcomes The book highlights that globalization through trade including the parts and components trade and investment continues in Thailand amid the anti globalization sentiment since the onset of the new millennium especially the US China trade war and the COVID 19 pandemic Thailand has gained considerable benefit from trade and investment liberalization in various forms including innovation firm productivity improvements and workers skills enhancement Although the country has prospered in these areas several further enhancements are needed in order to effectively harness the benefits available from globalization including continued trade and investment policy reforms Key policy inferences are provided in the last chapter The book will appeal to those with an interest in international economics especially issues relating to the economic consequences of globalization It will also appeal to policymakers and practitioners responsible for international trade and investment regulations

Theories of Sustainable Development Judith C. Enders, Moritz Remig, 2014-10-24 While sustainability has become a buzzword in discussions about the environment and development work on theories of sustainable development has received much less attention However theory is vital as understanding the origins and development of the concept is the key to achieving successful implementation of sustainability This book offers an interdisciplinary collection of research articles on the theories of sustainable development drawing on a wide range of subjects including history politics governance complex systems economics and philosophy It advocates viewing sustainable development not only as the establishment of a permanent globally practicable and future capable mode of life and economics but as a complex array of problems involving a wide range of social scientific and humanistic disciplines This innovative approach means that the book is oriented toward current problems not toward the established academic boundaries and it draws out lessons that are relevant for those studying and working in sustainability across the world This book will be of great interest to researchers and students of sustainable development and environmental politics as well as practitioners working with sustainable development in politics business administration and civil society organizations
