Books in Series , 1985 Vols for 1980 issued in three parts Series Authors and Titles **Psychology of System Design** D. Meister, 2014-06-28 This is a book about systems including systems in which humans control machines systems in which humans interact with humans and the machine component is relatively unimportant systems which are heavily computerized and those that are not and governmental industrial military and social systems The book deals with both traditional systems like farming fishing and the military and with systems just now tentatively emerging like the expert and the interactive computer system The emphasis is on the system concept and its implications for analysis design and evaluation of these many different types of systems The book attempts to make three major points 1 System design and particularly computer system design must fit into and be directed by a comprehensive theory of system functioning 2 Interactive computer design models itself upon our knowledge of how humans function 3 Highly sophisticated interactive computer systems are presently mostly

research vehicles they are vastly different to general purpose commercially available word processors and personal computers The book represents an interdisciplinary approach the author has used psychological organizational human factors and engineering sources The book is not a how to do it book but it is intended to stimulate thinking about the larger context in which systems particularly computer systems of the future should be designed and used **Monographic Series** Library of Congress, **Systems Programmer's Problem Solver** William S. Mosteller,1989 **Subject Catalog, 1981** Library of Congress,1981 **Books in Print** ,1981 **Books in Print Supplement** ,1982 *The Publishers' Trade List Annual* ,1981 **Subject Catalog, 1979** Library of Congress,1979 **American Book Publishing Record** ,1984-04 *Computing Newsletter for Schools of Business* ,1982 **Human-Computer Interaction - INTERACT '87** H.-J. Bullinger,B. Shackel,2014-05-21 Since the first INTERACT Conference in September 1984 the field of Human Computer Interaction has received increasing attention from researchers and industrial practitioners the importance of the topic now being widely recognized Technological developments have made it possible to seek new solutions to the problem of supporting work processes by information technology and for designing the interface between user and the machine Computers have become an everyday and common tool in the work of many people This has motivated the development of an interdisciplinary field of research which now appears much more established than it was a few years ago The INTERACT forums provide the opportunity for regular presentation and discussion of new results from research and application by bringing together the various disciplines and research approaches on a worldwide basis *Directions* ,1981
