Fit for Life Harvey Diamond, 2010-01-01 There is only one concept to grasp and only one action to take Eat more living food than dead food The simplicity of this message has eluded people up to now In fact it may seem oversimplified Because of past frustrations and disappointments people have come to believe that losing weight is complicated difficult and expensive Truth be told all that is required to reap the myriad benefits of Harvey Diamond's program is to return to the fundamentals of life The human body is intelligent and capable beyond anyone's comprehension but in order to unleash this extraordinary intelligence including that which normalizes body weight the proper fuel is

required That fuel is living food But for some inexplicable reason people have allowed themselves to believe that they can give their bodies the wrong fuel and then have it operate at optimum efficiency And that is why most people become overweight This book offers not a diet but a lifelong way of eating that allows the eating experience to remain a joyous one rather than a clinical endeavor of measuring portions counting calories calculating grams of fat carbohydrates and protein or ingesting meal replacements It teaches readers how to eat any food in the most healthful way so there is no feeling of deprivation As readers embark on this life changing journey they will experience the surge of energy and well being that only comes as the automatic result of properly fueling their bodies Providing deliberate gentle and forgiving guidance every step of the way this book will become readers trusted source and companion as they create a new way of eating and living which will lead to both overweight and poor health becoming conditions of the past
