Tackling Alcohol Together The Evidence Base For A Uk Alcohol Policy:

Tackling Alcohol Together Duncan Raistrick, Ray J. Hodgson, Bruce Ritson, 1999 Tackling Alcohol Together provides an authoritative independent analysis of the British experience with alcohol. Written by a team of nationally and internationally distinguished experts, the book examines alcohol problems, alcohol policy, and makes specific policy recommendations. A wealth of data is provided on drinking problems and policy initiatives, all of which have been critically scrutinized and where appropriate re-analyzed. This is an important book that will be essential reading for all who work in this area.

Tackling alcohol together Society for the Study of Addiction, 1999 The Essential Handbook of Treatment and Prevention of Alcohol Problems Nick Heather, Tim Stockwell, 2004-02-06 The last three decades have seen an explosion of social psychological and clinical research to identify effective strategies to prevent and treat alcohol-related problems. This Essential Handbook contains an updated selection of reviews of what works, drawn from the critically acclaimed International Handbook of Alcohol Dependence and Problems. Selected specifically for health and other professionals who need to provide effective responses in their work, these authoritative science-based reviews are a distillation of the more practical elements designed to save time for the busy practitioner. Alcohol Advertising and Young People's Drinking B. Gunter, A. Hansen, M. Touri, 2010-10-13 There is widespread and growing concern about the use of alcohol in society, especially by young people. Although overall volumes of alcohol consumption may be levelling off, the occurrences of excessive or binge drinking, especially among teenagers and young adults, are increasingly commonplace. Tackling irresponsible drinking, which is linked to other antisocial behaviour and health problems, has focused attention on the promotion of alcohol by its producers as an important causal factor. This has led to calls for tougher regulation of alcohol marketing, including restrictions on where it can occur and the form it is allowed to take. Empirical research evidence, often emanating from government-funded enquiries and endorsed by health lobbies, has been cited in support of an allegedly primary role played by advertising in triggering interest in and the onset of alcohol consumption among young people and in encouraging regular and heavy drinking. Close examination of this evidence, however, reveals that the research is not always as cut and dried as it may first appear. Methodological weaknesses abound in studies of the purported effects of alcohol advertising and other forms of marketing, and the significance specifically of advertising as an agent that shapes young people's alcohol consumption could be weaker than often thought. This book sets out a review and critique of the evidence on alcohol advertising and marketing effects on young people and considers this evidence in relation to codes of advertising and marketing practice. Public Health Mini-Guides: Alcohol Misuse E-book Ken Barrie, Angela Scriven, 2014-06-14 The Hot Topics in Public Health series. Hot Topics in Public Health consists of a series of small pocketbooks focussing on the key public health issues identified by the UK government priorities. The books will be of use to a wide audience of students and practitioners in the Nursing and Allied Health areas, as all students in these areas do modules on Public Health and Health Promotion, as well as those doing a

diploma or degree in PH HP Students will find the books useful to cover assignments and on the ward and practitioners will love the quick reference format for use on the ward and in giving patient advice and running clinics on these topics There will be a title providing essential information on the priority areas of Obesity Smoking Alcohol misuse Sexual health Mental health Diabetes Non communicable diseases Exercise Drug misuse Health inequalities Boxes Thinking points will be of interest to practitioners Key debates Case studies Current strategies Gov targets Further Reading Useful web links

Treating Drinkers and Drug Users in the Community Tom Waller, Daphne Rumball,2008-04-15 Treating Drinkers and Drug Users in the Community is the second book in a new collection from Addiction Press Addiction Press was set up with the express purpose of communicating current ideas and evidence in this expanding field not only to researchers and practising health professionals but also to policy makers students and interested non specialists These publications are designed to address the significant challenges that addiction presents to modern society The drugs field has undergone a phase of rapid change in recent years and all the non medical treatment interventions for those with alcohol problems and dependence can be equally helpful for drug users This has opened the way for unification of alcohol and drug treatment services at a clinical level with potential for more efficient service provision and for effective interventions which can be readily adopted in a wide range of settings Modern drug and alcohol services and all professionals working with substance users will benefit from the initiatives and procedures discussed in this book Key features Describes a wide range of treatments for young people and adults with drug and alcohol dependence Integrates alcohol and drug prevention and treatment Provides an invaluable and accessible guide for many different professionals Sets out assessment criteria questionnaires and a joint treatment framework **Mapping the Social Consequences of Alcohol Consumption** Harald Klingemann, G. Gmel,2013-03-14 Research on alcohol related consequences has traditionally focused mainly on health aspects of alcohol consumption or effects which can be more easily quantified or measured It is evident that alcohol has many consequences which can be characterised as social in nature and which are not or not only medical and are directly

health related Such consequences include violence crime and psychosocial factors The increasing relevance of consequences of alcohol consumption other than medical is also reflected in the second European Action Plan 2000 2004 of WHO aiming at the prevention and reduction of harm done by alcohol to the health and wellbeing of individuals families and communities This book attempts to provide a comprehensive overview of social consequences of alcohol consumption on the individual group organisational and societal level It is a result of a two year collaborative study under the leadership of WHO Euro with the participation of alcohol researchers from Finland Germany Norway Scotland and Switzerland Although the book was written by experts in the field it is targeted not only at scientists but at all people dealing with alcohol related problems in practice

Ethics in the Alcohol Industry S. Robinson,A. Kenyon,2009-07-30 A close look at the ethical and social responsibilities of the alcohol industry in the 21st Century It begins with a whistle stop tour of the historical developments of alcohol It then critiques the legislative and voluntary codes surrounding the advertising industry popular culture religious groups Government and local authorities

Social Work with Drug, Alcohol and Substance Misusers Anthony Goodman,2013-10-14 It has long been recognised that clients with addiction problems need a skilled and thoughtful response when they come into contact with social services However students often find that policy and the law surrounding working with drug alcohol and substance misusers can be complex and often unclear This fully revised third edition will help students cultivate the skills required to work effectively with clients and service users who misuse drugs and alcohol There are clear introductions to the law and to social policy in this area while the author considers how a holistic approach can be effective when working with this particular client group Case studies and reflective exercises are used to draw out these key skills The book also features sections on anti oppressive practice with a focus on service user empowerment With this third edition comes new material on social work practice with alcohol misusers making this book even more essential reading for students and practitioners who want to engage with clients who struggle with addiction

Alcohol, Power and Public Health Shane Butler,Karen Elmeland,Betsy Thom,James Nicholls,2017-03-16 In recent years the reduction of alcohol related harm has emerged as a major policy issue across Europe Public health advocates supported by the World Health Organisation have challenged an approach that targets problem drinking individuals calling instead for governments to control consumption across whole populations through a combination of pricing strategies restrictions on retail availability and marketing regulations Alcohol Power and Public Health explores the emergence of the public health perspective on alcohol policy in Europe the strategies alcohol control policy advocates have adopted and the challenges they have faced in the political context of both individual states and the European Union The book provides a historical perspective on the development of alcohol policy in Europe using four case studies Denmark England Scotland and Ireland It explores the relationship between evidence values and power in a key area of political decision making and considers what conditions create or prevent policy change The case studies raise questions as to who sets policy agendas how social problems are framed and defined and how

governments can balance public health promotion against both commercial interests and established cultural practices This book will be of interest to academics and researchers in policy studies public health social science and European Union studies

ABC of Alcohol Alexander Paton, Robin Touquet, 2009-04-13 Although doctors are mainly concerned with the physical or psychological problems of individual drinkers the wider social consequences of alcohol misuse are just as important Fully revised and updated this fourth edition of the ABC of alcohol contains new sections on the impact of alcohol on Accident and Emergency departments and surgical practice as well as the potential dangers of the interaction of alcohol and legal and illegal drugs This practical well illustrated guide is an ideal reference for general practitioners and all health and social professionals who deal with people who have alcohol problems

Alcohol: No Ordinary Commodity Thomas Babor, 2010-02-25 From a public health perspective alcohol is a major contributor to morbidity and mortality and impacts on many aspects of social life This text describes advances in alcohol research with direct relevance to the development of effective policies at local national and international level

Alcohol guidelines Great Britain: Parliament: House of Commons: Science and Technology Committee, 2012-01-09 This report raises concerns about the Government's advice on sensible drinking and recommends that alcohol guidelines are reviewed In 1987 the sensible limits for drinking were defined as 21 units of alcohol a week for men and 14 for women By the early 1990s scientific evidence suggesting that alcohol consumption might reduce the risk of coronary heart disease prompted a review of the guidelines and the drinking guidelines were then couched in daily terms men should not regularly drink more than three to four units a day and women no more than two to three units a day The Committee is sceptical about using the purported health benefits of alcohol as a basis for daily guidelines for all the adult population particularly as any protective effects would only apply to men over 40 years and post menopausal women Evidence suggests that the guidelines should not be increased and that people should take at least two drink free days a week While public awareness of the existence of guidelines is high a deeper understanding of what the guidelines were and of what a unit of alcohol looked like is lacking Through the Public Health Responsibility Deal the Government is working with the drinks industry to ensure that over 80% of alcoholic products on shelf will have labels with alcoholic unit content and the drinking guidelines by 2013 But the Government should remain mindful that sensible drinking messages may conflict with the business objectives of drinks companies and exercise proper scrutiny and oversight

Binge!
