Tackling Inequalities Where Are We Now And What Can Be Done:

Tackling inequalities Pantazis, Christina, Gordon, David, 2000-01-12 The growing divide between the poor and the rich is the most significant social change to have occurred during the last few decades The new Labour government inherited a country more unequal than at any other time since the Second World War This book brings together a collection of contributions on inequalities in the main areas of British life income wealth standard of living employment education housing crime and health It charts the extent of the growth in inequalities and offers a coherent critique of the new Labour government's policies aimed at those tackling this crisis In particular the numerous area based anti poverty policies currently being pursued are unlikely to have a significant and long lasting effect since many lessons from the past have been ignored The contributors use and interpret official data to show how statistics are often misused to obscure or distort the reality of inequality A range of alternative policies for reducing inequalities in Britain are discussed and set within the global context of the need for international action *Tackling inequalities* is a valuable contribution to the emerging policy debate written by the leading researchers in the field It is essential reading for academics policy makers and students with an interest in inequalities poverty and social exclusion Studies in poverty inequality and social exclusion series Series Editor David Gordon Director Townsend Centre for International Poverty Research Poverty inequality and social exclusion remain the most fundamental problems that humanity faces in the 21st century This exciting series published in association with the Townsend Centre for International Poverty Research at the University of Bristol aims to make cutting edge poverty related research more widely available For other titles in this series please follow the series link from the main catalogue page

Tackling Inequalities Christina Pantazis, David Gordon, 2000-01-12 SUMMARY Focuses on Ken a dialysis patient Describes his peritoneal dialysis treatment and shows its effect on his life [Understanding Inequality, Poverty and Wealth](#) Ridge, Tess, Wright, Sharon, Sharon Elizabeth Wright, 2008-06-30 At a time when the divide between the wealthy and the disadvantaged is widening this major textbook provides students with a critical understanding of poverty and social exclusion in relation to wealth rather than as separate from it Raising fundamental questions about the organisation of society social structures and relationships and social justice the book is split into four main sections exploring key concepts and issues people and place poverty and wealth across different groups and situations the role of the state and prospects for the future This is the only textbook to focus on the links between wealth and poverty and contains an edited collection of chapters specially written by a distinguished panel of contributors including Pete Alcock Daniel Dorling Mary Shaw Gill Scott and Jay Ginn It is designed with the needs of students in mind and includes useful chapter summaries illustrative boxes and diagrams and pointers to relevant websites and other sources of further information This is an essential textbook for level 1 2 undergraduate students studying social policy either as a main subject or as part of their course It is a core text for level 3 4 specialist modules in this field **Tackling inequalities in life expectancy in areas with the worst health and**

deprivation Great Britain: Parliament: House of Commons: Committee of Public Accounts,2010-11-02 This report examines why the Department of Health had failed to meet its health inequalities target the role of GPs and the lessons of this for the new NHS Inequalities in health outcomes between the most affluent and disadvantaged members of society are longstanding deep seated and have proved difficult to change In 2004 the Government set the Department the target of reducing the gap in life expectancy between 70 spearhead local authorities with high deprivation and the population as a whole by 10 per cent by 2010 The Department has not met this target and has been exceptionally slow to tackle health inequalities It is of great concern that inequality in health has increased and that the Department took nine years to establish tackling inequalities as an NHS priority GPs are crucial to improving the health of people in the most deprived areas However in many of these areas the number of GPs per head of population is well below the number in more affluent areas The Department missed an opportunity to use the revised GP contract to ensure more doctors work in deprived areas and has not focused their attention sufficiently on implementing the key interventions that would make a difference Equity and Excellence Liberating the NHS Cm 7881 ISBN 9780101788120 set out the Government s long term vision for the NHS but it is important that tackling health inequalities does not slip down the Department s agenda whilst the proposed changes are introduced **Poverty and**

Development and Social Policy Christian Aspalter,Kenny Teguh Pribadi,2016-12-19 In recent years government and policymakers around the world have shifted their attention away from money oriented supply side economics to institutional economics and people oriented social and economic development Issues such as poverty reduction win win solutions and strategies in social policy and their implementation universalization and a variety of new large scale conditional cash transfers programs have become ever present in the global discussion about development and social policy This book provides win win strategies for social policies on the ground as developed and put forward by the normative theoretical paradigm of Developmental Social Policy DSP Taking the state of the art general development theory as a starting point of reference and discussion it goes on to discuss in detail the key win win strategies that form the basis and core of the DSP paradigm It examines key related issues such as the performance of provident fund systems the performance of conditional cash transfer systems especially their elements that are based on asset and means testing universalism and extension in social security provision in the context of especially developing countries and non economically targeted social welfare benefits and services Providing fully fledged theoretical guidance paired with key social policy strategies and solutions it will be highly valuable for students and scholars of social policy development studies and Asia Pacific studies **Financial Exclusion and the Poverty Trap** Pamela Lenton,Paul Mosley,2012-02-27 The persistence of poverty hurts us all and attacking poverty is a major policy objective everywhere In Britain the main political parties have an anti poverty mandate and in particular an agreed commitment to eliminate child poverty by 2020 but there is controversy over how this should be

done This book addresses one of the main causes of poverty financial exclusion the inability to access finance from the high street banks People on low or irregular incomes typically have to resort to loan sharks doorstep lenders and other informal credit sources a predicament which makes escape from the poverty trap doubly difficult Over the last fifteen years a strategy of breaking down the poverty trap has been implemented known in the UK as community development financial institutions CDFIs typically non profit lending institutions focussed on the financially excluded and seeking to learn from the achievements of microfinance around the world Focussing on the period 2007 09 during which the UK went into a global recession this book investigates how CDFIs work and how well they have helped low income people and businesses to weather that recession Based on a study of eight CDFIs in four UK cities we ask what ideas for overcoming financial exclusion have worked well and which have worked badly What can we learn from the experience of these CDFIs which can help reduce poverty in this country and globally We assess the impact of CDFIs using a range of indicators including income assets education health and ask what changes in policy by both CDFIs and government agencies for example benefits agencies might be able to increase impact Some of the key lessons are CDFIs need to work with appropriate partners to build up savings capacity in their clients the community environment is vital in determining who escapes from the poverty trap and CDFIs can never function properly unless they learn how to control their overdue debts This book will be vital reading for those concerned with social policy microfinance and anti poverty policies in industrialised countries and around the world

Evidence versus politics Monaghan, Mark,2011-01-26 The initial enthusiasm for the evidence based policy agenda has recently been replaced with increasing scepticism Critics point out that policy based evidence characterises the relationship more accurately Analysing the role and nature of evidence in the context of UK drug policy and drawing on a range of theories of the policy process and research utilisation this book pursues an alternative route for conceptualising the evidence and policy connection which moves beyond zero sum statements of evidence based policy and policy based evidence It will be essential reading for students and researchers in public policy and criminology

Town and Country Planning in the UK Barry Cullingworth,Vincent Nadin,2003-09-02 Town and Country Planning in the UK has become the Bible of British planning In this new edition detailed consideration is given to the nature of planning and its historical evolution central and local government the EU and other agencies the framework of plans and other instruments development control land policy and planning gain environmental and countryside planning sustainable development waste and pollution heritage and transport planning urban policies and regeneration This twelfth edition has been completely revised and expanded to cover the whole of the UK The new edition explains more fully the planning policies and actions of the European Union and takes into account the implications of local government reorganization the plan led system and the growing interest in promoting sustainable development

Building a World Community Jacques Baudot,2015-09-14 Building a World Community Globalisation and the

Common Good **Re-discovering Rural Development** Nanjunda Dc,2008 In Indian context *Greece's Horizons* Pantelis Sklias,Nikolaos Tzifakis,2013-04-12 The Greek economic crisis has imperilled the stability of the eurozone generating much global anxiety Policymakers analysts and the media have daily debated the course of the Greek economy prescribing ways to move forward This collection of essays progressively moves from an analysis of the causes of the crisis and the policy responses so far to a debate on some of the country s advantages and capabilities that should underpin its new development model and propel the return to growth The book analytically chooses to view the glass as half full and seeks to provide motivation and inspiration for change by indicating some of the economic sectors where Greece maintains a comparative advantage Therefore it challenges the emerging picture of Greece as a country doomed to failure where everything falls apart Radical Social Work in Practice Iain Ferguson,Rona Woodward,2009-05-14 APPROVED BY AUTHOR Radical social work is a tradition often identified exclusively with the movement which developed in the UK in the 1970s However this much needed new textbook the first student text devoted to radical social work demonstrates that the relevance of radical approaches to contemporary social work practice have never been stronger Challenges to a neoliberal approach to social work have been gaining ground academically and with practitioners This book provides a true vision of the radical tradition and shows how it can be developed in contemporary social work Using case studies and a problem based learning approach to illustrate the type of dilemmas faced by workers in their day to day practice the book sets out the ways in which a radical social work approach can inform constructive responses It emphasises the need to understand the diverse lives of service users encouraging readers to share experience and knowledge and to discuss past and present events to build confidence in tackling injustice at individual and societal levels As many social workers are becoming disillusioned and dissatisfied with the bureaucracy and regulation in the profession this book promotes a practice that is rooted in a commitment to positive change and to social justice that will offer a breath of fresh air to students and practitioners alike Breadline Europe Gordon, David,Townsend, Peter,2000-12-27 The governments of 117 countries agreed at the World Summit on Social Development to prepare annual national anti poverty plans Two measures in particular were recommended for absolute and overall poverty This book examines poverty in Europe within this agreed international framework **Poverty in Plenty** Jane Seymour,2013-12-19 Poverty in Plenty breaks new ground in two ways It is the first national Human Development Report to focus on an industrialised country and it is the first to be produced by a non governmental organisation While problems of poverty and deprivation are less extreme in countries such as the UK than in some other parts of the world the human development message is still highly relevant There are many people who suffer through inadequate housing insufficient means to guarantee a nutritious diet and the absence of secure rewarding and remunerative employment From the Foreward by Sakiko Fukuda Parr Human Development Report Office United Nations Development Programme The economics that dominates Britain loosely known as globalisation is a kind of religion which dictates that the worship of money should take

preference over common human values like the sharing of wealth and the right to a decent life This report reveals the power of traditional economics over our society and the way in which the lives of our grandmothers and grandfathers men and women girls and boys have been damaged and impoverished I highly recommend it Ann Pettifor Director Jubilee 2000 UK The UK's performance on poverty and deprivation ranks 16th out of 18 industrialised countries People living in Glasgow Shettleston are 3.8 times more likely to die before they are 65 years old than those living in Wokingham In industrialised countries wealth and affluence are widely perceived to be growing although not at the same rate for everyone But economic growth is not the same as genuine human development Poverty in Plenty applies accepted measures of human poverty education health and employment to the UK and assesses how our food and housing policies contribute to a sustainable way of life It draws on the work of leading research institutes and campaigning groups to determine the real state of society in the UK Using a range of indicators to measure livelihoods and well being the report shows how widespread poverty is and highlights the vast geographical disparities in levels of poverty that exist within the UK It goes on to set out what urgently needs to be done to address the sobering trends revealed and describes effective policies that will allow us to improve the current situation The findings are of vital importance to those working on social issues in the public and voluntary sectors and to students and general readers wanting the truth behind the public statistics Jane Seymour is an independent researcher and writer on health and environment issues Originally published in 2000 *Leading Works in Law and Social Justice* Faith Gordon, Daniel Newman, 2021-03-23 This book assesses the role of social justice in legal scholarship and its potential future development by focusing upon the leading works of the discipline The rise of socio legal studies over recent decades has led to a more interdisciplinary approach to the study of law which prioritises placing law into its wider social context Recognising the role that culture economics and politics play in the development of law is important in order to fully understand the position and impact of law in society Innovative and written in an engaging way this collection includes leading and emerging scholars from across the world Each contributor has been invited to select and analyse a leading work a publication which has for them shed light on the way that law and social justice are interlinked and has influenced their own understanding scholarship advocacy and in some instances activism The book also includes a specially written foreword and afterword which critically reflect upon the contributions of the leading works to consider the role that social justice has played in law and legal education and the likely future path for social justice in legal scholarship This book will be an essential resource for all those working in the areas of social justice socio legal studies and legal philosophy It will be of wider interest to the social sciences more generally *Town and Country Planning in the UK* J. B. Cullingworth, Vincent Nadin, 2002 Town and Country Planning in the UK has become the bible of British planning It provides an explanation of the nature of planning the institutions and organisations involved the plans and other tools used by planners planning policies and more *Town and Country Planning in the UK* Simin Davoudi, David Webb, Geoff Vigar, John Pendlebury, Tim

Townshend, Trevor Hart, Vincent Nadin, 2014-12-05 Town and country planning has never been more important to the UK nor more prominent in national debate Planning generates great controversy whether it's spending 80m and four years inquiry into Heathrow's Terminal 5 or the 200 proposed wind turbines in the Shetland Isles On a smaller scale telecoms masts take away house extensions and even fences are often the cause of local conflict Town and Country Planning in the UK has been extensively revised by a new author group This 15th Edition incorporates the major changes to planning introduced by the coalition government elected in 2010 particularly through the National Planning Policy Framework and associated practice guidance and the Localism Act It provides a critical discussion of the systems of planning the procedures for managing development and land use change and the mechanisms for implementing policy and proposals It reviews current policy for sustainable development and the associated economic social and environmental themes relevant to planning in both urban and rural contexts Contemporary arrangements are explained with reference to their historical development the influence of the European Union the roles of central and local government and developing social and economic demands for land use change Detailed consideration is given to the nature of planning and its historical evolution the role of the EU central regional and local government mechanisms for developing policy and managing these changes policies for guiding and delivering housing and economic development sustainable development principles for planning including pollution control the importance of design in planning conserving the heritage community engagement in planning The many recent changes to the system are explained in detail the new national planning policy framework the impact of the loss of the regional tier in planning and of the insertion of neighbourhood level planning the transition from development control to development management the continued and growing importance of environmental matters in planning community engagement partnership working changes to planning gain and the introduction of the Community Infrastructure Levy and new initiatives across a number of other themes Notes on further reading are provided and at the end of the book there is an extensive bibliography maintaining its reputation as the bible of British planning
