Raman Amplifiers for Telecommunications 2 Mohammad N. Islam, 2007-06-04 I remember vividly the first time that I heard about the fiber amplifier At that time of course it was the erbium doped fiber amplifier the predecessor of the Raman amplifier

that is the subject of this book It was an early morning in a forgotten year in Murray Hill New Jersey at one of our Bell Labs monthly research staff meetings About twenty directors and executive directors of research organizations clustered around a long table in the imposing executive conference room Arno Penzias the vice president of research presided at the foot of the table Everyone who participated in those research staff meetings will long remember their culture and atmosphere Arno would pick an arbitrary starting point somewhere around the table and the designated person would head to the front of the table to give a short talk on something new in his or her research area This first speaker would invariably fiddle helplessly with the controls embedded in the podium that controlled the viewgraph projector but eventually we would hear machinery grinding in the back room as a large hidden mirror moved into place We would all wait quietly arranging and choosing our own viewgraphs from the piles that lay on the table in front of every participant

Xenobiotics and Inflammation

Schook,Lashkin,2012-12-02 The affect of xenobiotics on host resistance in general and specific immune functions has become the focus of much current research This book synthesises current information on how chemicals xenobiotics can affect the immune system to cause dysfunction focusing on the process of inflammation It provides a much needed single source reference for researchers investigating the mechanisms responsible for altered host resistance following exposure to xenobiotics Emphasis is placed on the roles of cytokines and growth factors in the inflammatory process and how such processes are altered and modulated by xenobiotics This volume contains information pertinent to those exploring cell growth angiogenesis hematopoietic differentiation and recruitment to and proliferation of cells in various tissue sites This volume brings together experts in inflammation cytokines cell growth immunology and toxicology to provide a highly useful volume modulated by chemicals Divided into three sections the book offers an organ system approach to understanding inflammation and xenobiotics

History of Nordic Computing 2

John Impagliazzo,Timo Järvi,Petri Paju,2009-09-19 The First Conference on the History of Nordic Computing HiNC1 was organized in Trondheim in June 2003 The HiNC1 event focused on the early years of computing that is the years from the 1940s through the 1960s although it formally extended to year 1985 In the preface of the proceedings of HiNC1 Janis Bubenko Jr John Impagliazzo and Arne S Iyberg describe well the peculiarities of early Nordic computing 1 While developing hardware was a necessity for the first professionals quite soon the computer became an industrial product Computer scientists among others grew increasingly interested in programming and application software Progress in these areas from the 1960s to the 1980s was experienced as astonishing The developments during these decades were taken as the focus of HiNC2 During those decades computers arrived to every branch of large and medium sized businesses and the users of the computer systems were no longer only computer specialists but also people with other main duties Compared to the early years of computing before 1960 where the number of computer projects and applications was small capturing a holistic view of the history between the 1960s and the 1980s is considerably more difficult The HiNC2 conference attempted to help in this endeavor
