*Climate Variability and Ecosystem Response at Long-Term Ecological Research Sites* David Greenland, Douglas G. Goodin, Raymond C. Smith, 2003-10-09 This volume in the Long Term Ecological Research Network Series would present the work that has been done and the understanding and database that have been developed by work on climate change done at all the LTER sites Global climate change is a central issue facing the world which is being worked on by a very large number of scientists across a wide range of fields The LTER sites hold some of the best available data measuring long term impacts and changes in the environment and the research done at these sites has not previously been made widely available to the broader climate change research community This book should appeal reasonably widely outside the ecological community and because it pulls together information from all 20 research sites it should capture the interest of virtually the entire LTER research community

*Permafrost Ecosystems* Akira Osawa, Olga A. Zyryanova, Yojiro Matsuura, Takuya Kajimoto, Ross W. Wein, 2010-01-04 Drawing from a decade long collaboration between Japan and Russia this important volume presents the first major synthesis of current knowledge on the ecophysiology of the coniferous forests growing on permafrost at high latitudes It presents ecological data for a region long inaccessible to most scientists and raises important questions about the global carbon balance as these systems are affected by the changing climate Making up around 20% of the entire boreal forests of the northern hemisphere these permafrost forest ecosystems are subject to particular constraints in terms of temperature nutrient availability and root space creating exceptional ecosystem characteristics not known elsewhere This authoritative text explores their diversity structure dynamics and physiology It provides a comparison of these forests in relation to boreal forests elsewhere and concludes with an assessment of the potential responses of this unique biome to climate change The book will be invaluable to advanced students and researchers interested in boreal vegetation forest ecology silviculture and forest soils as well as to researchers into climate change and the global carbon balance

**Reintroduction Biology** John G. Ewen, Doug P. Armstrong, Kevin A. Parker, Philip J. Seddon, 2012-01-30 This book aims to further advance the field of reintroduction biology beyond the considerable progress made since the formation of the IUCN SSC Re introduction Specialist Group Using an issue based framework that purposely avoids a structure based on case studies the book s central theme is advocating a strategic approach to reintroduction where all actions are guided by explicit theoretical frameworks based on clearly defined objectives Issues covered include husbandry and intensive management monitoring and genetic and health management Although taxonomically neutral there is a recognised dominance of bird and mammal studies that reflects the published research in this field The structure and content are designed for use by people wanting to bridge the research management gap such as conservation managers wanting to expand their thinking about reintroduction related decisions or researchers who seek to make useful applied contributions to reintroduction

**Indigo Isle** T.I. Lowe, 2023-06-06 Storms show up and there ain t a thing we can do to stop them Sonny Bates left South Carolina fifteen years ago and never looked back Now she s

a successful Hollywood location scout who travels the world finding perfect places for movie shoots Home is wherever she lands and between her busy schedule and dealing with her boss's demands she has little time to think about the past until her latest gig lands her a stone's throw from everything she left behind Searching off the coast of Charleston for a secluded site to film a key scene Sonny wanders onto a private barrier island and encounters its reclusive owner known by locals as the Monster of Indigo Isle What she finds is a man much more complex than the myth Once a successful New York attorney Hudson Renfrow's grief has exiled him to his island for several years He spends his days alone tending his fields of indigo then making indigo dye and he has no interest in serving the intrusive needs of a film company or yielding to Sonny's determined curiosity But when a hurricane makes landfall on the Carolina coast stranding them together an unlikely friendship forms between the two damaged souls Soon the gruff exterior Hudson has long hidden behind crumbles exposing the tender part of him that's desperate for forgiveness and a second chance A story of hanging on and letting go of redemption and reconciliation and of a love that heals the deepest wounds from the author of the breakout Southern fiction bestseller Under the Magnolias This book offers these extra helpful and fun features Discussion questions we've got you covered for book club Recipes A playlist inspired by Sonny and Hudson's love story      **Timber Mountain Recreation Management Plan** ,2009
