Phyllis Marie Terry Row, 2011-01-03 Phyllis Marie stood slim petite and pretty with stunning green eyes that became

more emerald with each passing year her porcelain white skin turned rosy cheeked from the cold Idaho wind She turned twenty four on the twelfth of September Six thousand miles away in England Perry received a brand new Boeing B 17 Flying Fortress wrapped like a birthday present her two tone fuselage in olive green above and drab gray below sporting the newly modified national insignia a white star and crossbar against a blue field On the tail above her serial number 230713 in yellow to match the rudder she carried the 390th insignia a black J against a white Square He named her the Phyllis Marie Guy Gibson Geoff Simpson,2013-08-19 A new assessment of the life of one of the most famous and controversial airmen of the Second World War this book covers Guy Gibson s sometimes troubled upbringing and the impact on him of his time at St Edward s School Oxford In particular the story of his career in the RAF is relayed including his stunning leadership achievement in creating No 617 Squadron and leading its attack on the dams of western Germany The much discussed circumstances of his unnecessary death and the theories which have grown up around it are examined as well as his legacy he remains a great British hero almost 70 years after his death in a world utterly different to the one he knew Ireland's Aviator Heroes of World War II John C. Hewitt,2016-04-08 Ireland s Aviator Heroes of World War II celebrates Irish aviators who served in the Royal Air Force during the dark days of the Second World War Individual stories have been painstakingly and extensively researched through interviews with the surviving subjects and their families and using the original log books and service records of the men Many of the stories contain details of the individuals participation in important wartime campaigns although others are limited to war service records due to a lack of surviving information Above all this book celebrates the great courage and sacrifice demonstrated by these Irishmen during their contribution to the Allied war effort against Nazi Germany her western allies and Japan Many of the men included paid the ultimate price for their participation The book is also well illustrated with many photographs some taken by the subjects themselves *The Berlin Blitz By Those Who Were There* Martin W. Bowman,2023-04-30 The Allied bombing of Berlin was the longest and most sustained bombing offensive against one target in the Second World War *The Berlin Blitz By Those Who Were There* is a compelling gripping and thought provoking story of the Allied bombing forces and the ordinary people on the ground told in their own tongue and with meticulous attention to detail The result is a coherent single story which unfolds in a straightforward and incisive narrative This work draws attention in some detail to the major raids on the Reich capital by RAF Bomber Command from the late summer of 1940 to September 1943 It begins with the reliable but largely ineffective twin engined Blenheims Hampdens Wellingtons and Whitleys through to the introduction into front line service of the four engined heavies the Stirling Manchester and Halifax which bore the brunt of the bomber offensive until the advent of the incomparable Avro Lancaster in 1942 and the superlative Mosquito On 30 January 1943 on the tenth anniversary of Hitler s usurpation of power two formations each of three Mosquitoes appeared over Berlin in daylight and interrupted large rallies being addressed by Goering and Goebbels Sir Arthur Harris Commander in Chief RAF Bomber Command hoped to wreck Berlin from end to end

and produce a state of devastation in which German surrender is inevitable But the Big City as it was known to his faithful old lags was never completely destroyed **The Bomber Command War Diaries** Martin Middlebrook,Chris Everitt,2014-04-02 The essential WWII historical reference detailing RAF Bomber Command s extensive campaign of strategic bombings across occupied Europe The Royal Air Force Bomber Command s strategic bombing campaign started on the first day of the Second World War and ended five and a half years later with the final victory in Europe It was a campaign of such enormous scale that historians have only recently begun to piece together the finer details of the individual raids Aviation historian Martin Middlebrook and his research colleague Chris Everitt were the first to compile a complete review of all the raids and their background stories The Bomber Command War Diaries not only documents every Bomber Command operation but also details their effects on the ground drawing on local archives from Germany Italy and the occupied countries It is a groundbreaking work on historical research bringing together the two sides of Bomber Command s war This edition includes retrospective observations and a new appendix *Female Secret Agents* Douglas Boyd,2016-10-03 Forget the adventure stories of James Bond Kim Philby Klaus Fuchs and co espionage is not just a boys game As long as there has been conflict there have been female agents behind the scenes In Belgium and northern France in 1914 18 there were several thousand women actively working against the Kaiser s forces occupying their homelands In the Second World War women of many nations opposed the Nazis risking the firing squad or decapitation by axe or guillotine Yet many of those women did not have the right to vote for a government or even open a bank account So why did they do it *Female Secret Agents* explores the lives and the motivations of the women of many races and social classes who have risked their lives as secret agents and celebrates their intelligence strength and courage **Air Battle for Arnhem** Alan W. Cooper,2012-11-26 Over sixty years ago a battle took place that if it had succeeded could have shortened the Second World war by six months The operation to take the bridges at Arnhem was given the code name Operation Market Garden Market being the air side of the operation and Garden the subsequent ground operation The main problem was communications between the ground forces and the re supply aircraft of the Royal Air Force Its their efforts and the courage on evident display at Arnhem that the book is based upon Over a period of seven days troops of the 1st Airborne were taken by the RAF in towed gliders and then in subsequent days showed courage of the highest order to make sure that the ground troops were supplied with ammunition and food to sustain them in their efforts to take the bridges at Arnhem Their efforts were costly 309 aircrew and 79 Air Dispatchers were killed and 107 aircraft which included the men and aircraft who supported the main re supply armada One of the re supply aircraft flown by F Lt David Lord DFC was shot down Lord was later awarded the Victoria Cross His courage and dedication are exemplary of the efforts of the men of Transport Command to make sure the men on the ground were re supplied The men of the Air Dispatchers or AD s as they were known must always be remembered when regarding Arnhem Their efforts to make sure the supplies were released from the aircraft and on to the besieged men on the ground was a vital

factor in getting vital supplies to the troops successfully This is their story vividly told and serves a commemorative purpose memorialising both the events and most importantly the men who participated

The Heavy Bomber Offensive of WWII
 Martin W. Bowman, 2015-05-31 This book contains fourteen stirring accounts each conveying an authentic sense of what it was really like to fly as a member of air crew during the various bombing operations of the Second World War The storytellers are an eclectic mix of pilots navigators bomb aimers wireless operators and gunners who flew on operations in heavy bombers It conveys the terror of being coned by German searchlights over the target attacks by Luftwaffe night fighters often catastrophic damage to aircraft and the ensuing struggle to keep the machine airborne on the return trip to base It tells of the comradeship between the crew and the humour between them often borne of fear The gentle and unassuming narratives include Millennium One of Our Aircraft Is Missing Bomber s Moon Bombing Berlin The Ordeal Of Pilot Officer Romans DFC Last Man Out operations on Whitleys and Halifaxes Flying Officer X Stirlings Rescue At Sea The Incendiary Load s Alight The Night Of The Bombs and The Kassel Raids of 1943 as well as BBC Broadcasts and stories by Allied war correspondents Each of these accounts conveys the sense of purpose that these men felt in doing one of the most dangerous jobs of the war It is a fitting tribute to those that survived and the many thousands who died in the struggle against Hitler s dreadful ambitions in Europe

The Flyer Martin Francis, 2011-05-19 Between 1939 and 1945 the British public was spellbound by the martial endeavours and dashing style of the young men of the RAF especially those with silvery fabric wings sewn above the breast pocket of their glamorous slate blue uniform Martin Francis provides the first scholarly study of the place of the flyer in British culture during the Second World War Examining the lives of RAF personnel and their popular representation in literary and cinematic texts he illuminates broader issues of gender social class national and racial identities emotional life and the creation of a national myth in twentieth century Britain In particular Francis argues that the flyer s relationship to fear aggression loss of his comrades bodily dismemberment and psychological breakdown reveals broader ambiguities surrounding the dominant understandings of masculinity in the middle decades of the century Despite his star appeal cultural representations of the flyer encompassed both the gentle chivalrous warrior and the uncompromising agent of destruction Paying particular attention to the romantic universe of wartime aircrew Francis reveals the extraordinary contrasts of their daily lives dicing with death in the sky one moment before sitting down to lunch with wives and children in the next Male and female

experiences during the war were not polarized and antithetical but were complementary and interrelated a conclusion which has implications for the history of gender in modern Britain that reach well beyond either the specialized military culture of the wartime RAF or the chronological parameters of the Second World War *Mosquito: Menacing the Reich* Martin W. Bowman,2009-04-21 On 15 November it came suddenly out of nowhere inches above the hangars with a crackling thunderclap of twin Merlins As we watched bewitched it was flung about the sky in a beyond belief display for a bomber that could out perform any fighter Well bred whisper of a touch down a door opened and down the ladder came suede shoes yellow socks and the rest of Geoffrey de Havilland The memories of Sergeant later Flight Lieutenant DFC Mike Carreck who was an observer with 105 Squadron when he first laid eyes on the new de Havilland Mosquito This was an aircraft that would prove itself to be one of the most versatile and revered aircraft to fly with the RAF in World War II This book is full of firsthand accounts from the crews that flew the Mossie in its roles as a bomber long range reconnaissance and low level strike aircraft The author has gathered together many of the most exciting operational reports that cover the period from the types introduction until the end of World War II The text is interwoven with the background history of the personnel and squadrons the purpose of the operations undertaken and their often devastating results **Battle of Britain Attack of the Eagles** Dilip Sarkar,2024-07-04 In this unprecedented series exploring the big story of the Battle of Britain renowned historian Dilip Sarkar investigates the wider context and intimate details of the epic aerial conflict in the summer of 1940 from all sides In so doing he gives due acknowledgement to the roles of Bomber and Coastal Commands in addition to the fabled Few of Fighter Command This unique narrative draws upon a lifetime of research the author having enjoyed a long relationship with survivors and the relatives of casualties his innumerable interviews and first hand accounts collated in addition to privileged access to personal papers providing essential human interest to this inspirational story In this the third volume Battle of Britain Attack of the Eagles Dilip continues to examine the fighting on a day by day combat by combat basis between 13 and 18 August 1940 This period began on Eagle Day and the start of the Luftwaffe s Eagle Attack on Fighter Command This period of intense fighting saw the defeat of the much vaunted Stuka dive bomber and the great attack on north east England on 15 August 1940 It was during the aerial combats the following day that Flight Lieutenant James Brindley Nicolson s Victoria Cross winning action took place over Southampton All of these actions and many others are critically analyzed Through diligent research combined with crucial official primary sources and personal papers Dilip unravels many myths often challenging the accepted narrative This is not simply another dull record of combat losses and claims far from it Drawing upon unique first hand accounts from a wide range of combatants and eyewitnesses along with Daily Home Intelligence Reports and numerous other primary sources this book forms part of what is likely to be the first and last such comprehensively woven account of this epic air battle **Eyewitness to History: World War II** Stephen W. Sears,2015-11-27 the greatest war of all time told as it is best told by the people who lived it The Washington Post All first

person accounts of great events have their own fascination but the editors of American Heritage have discovered that people writing about World War II seem to tell their own story with particular passion and eloquence That is one reason American Heritage has published so many of them and why noted military historian Stephen W Sears has selected the most compelling The result of his search is a uniquely moving and valuable anthology a series of personal histories that marshaled together become an intimate history of the Second World War Here is Edward Beach the highly decorated submarine skipper and author of *Run Silent Run Deep* recalling what it was like to be sent into hostile waters with torpedoes that didn't work Charles Cawthon recounts the landing at Normandy Beach in a restrained and poetic narrative whose quiet humor does nothing to blunt the savagery of the experience General James Gavin tells of the jump into Sicily and of a battle fought that never should have been fought Hughes Rudd watched the war from overhead in a flimsy spotter plane his Maytag Messerschmitt and William Manchester remembers a particularly audacious and hilarious scam that a reckless Marine buddy played on the entire army Some of the stories are heartbreaking some amusing some horrifying but every one of them whether told by the women who hammered fighter planes together or the men who flew them glows with hard won experience

Stafford at War, 1939-1945 Nick Thomas, 2009-06-18 Stafford at War is a vivid many sided portrait of a county town during one of the extraordinary periods in English history In his wide ranging narrative Nick Thomas looks at the impact of the Second World War on the townspeople how it affected their daily lives their work their families And he recalls the contribution Stafford made to the war effort at home and abroad The story he tells gives a fascinating insight into wartime life and it is a moving record of the sacrifices made by local people His detailed and fully illustrated account will be fascinating reading for everyone who knows Stafford and wants to find out about its history

The Breaking Storm Dilip Sarkar, 2023-11-09 In *The Breaking Storm* the first of Dilip Sarkar's unprecedented seven volume series exploring the Battle of Britain the events that led up to the outbreak of war in 1939 and which set the scene for the epic aerial conflict of summer 1940 are fully explored Continuing his examination of the events of the Spitfire Summer in *The Breaking Storm* Dilip provides a day by day chronicle of the Battle of Britain's first phase the so called Kanalkampf which was fought over the Channel bound convoys between 10 July and 12 August 1940 This account though does not simply concern RAF Fighter Command as the author recognizes the operations and efforts of the RAF's Bomber and Coastal commands the Royal Navy and mercantile marine making this book part of what he calls the Big story Hitler's actual policies and intentions towards the ongoing war with Britain are also explored If the Battle of Britain was fought to deny Germany the aerial superiority required to launch a seaborne invasion of southern England then the author argues the conflict could surely only have begun when the Germans committed to Operation Seelwe which was not in fact until 21 July 1940 It has previously been accepted that Hitler's War Directive of 16 July 1940 signaled the intention to invade but the author proves that this was no more than another example of the brinkmanship that Hitler was renowned for and the air attacks at that time little more than Air Fleet

Diplomacy all of which was intended to frighten Britain into accepting the Führer's last appeal to reason of 19 July 1940. In his broadcast of 22 July 1940 Lord Halifax made the nation's unbowed position quite clear. He called Hitler's bluff previously reluctant to fight Britain. Hitler's preferred policy in the ongoing war had been blockade and diplomacy but now he had no choice but to unleash the Luftwaffe against Britain. All of this is investigated in detail aligning these wider events and high decisions with action in the air. Through diligent research combined with crucial official primary sources and personal papers Dilip unravels many myths often challenging the accepted narrative. This is not simply another dull record of combat losses and claims far from it. Drawing upon unique first hand accounts from a wide range of combatants and eyewitnesses along with Daily Home Intelligence Reports and numerous other primary sources this book forms part of what is likely to be the first and last such comprehensively woven account of this epic air battle.

Stations Of Coastal Command David Smith, 2016-02-28 Coastal Command created in 1936 alongside Fighter and Bomber Commands in the reorganization of the RAF in its preparations for the coming war was Britain's mainstay in the battle against the German submarine. As more and more Allied merchantmen were sunk during the long voyage from North America the Mediterranean and points south tracking down the U Boats became a constant struggle against harsh weather on long distance patrols out over the Atlantic and Bay of Biscay. To counter the threat Coastal Command established a ring of bases stretching from Scotland and Northern Ireland to Iceland and from south Wales and south western Britain to Gibraltar and the Azores. All 53 of these stations are covered in this book.
