## **Taiwan Yearbook 2004:**

Taiwan Yearbook, 2003, 2003      *Venture Capital and Private Equity Yearbook, 2004/05* Lisa Paul, 2004      **Taiwan's Security** Bernard Cole, 2006-06-19 This is the first explanation and evaluation of Taiwan's defence forces and infrastructure. It examines not only Taiwan's armed forces but also its Ministry of National Defence personnel issues and civil military relations. This book provides crucial base line data and evaluation of one of the major participants in an ongoing crisis across the Taiwan Strait that has the potential of involving China and the United States in armed conflict. It examines the danger of a possibly nuclear conflict between China and the United States which would seriously disrupt all of East Asia. It also shows how Taiwan's defence policies and actions do not match the threat Taipei needs to develop and pursue realistic policies. This is essential reading for all students of East Asian security and Sino American relations and of international and security studies in general.

Taiwan's Environmental Struggle Jack Williams, Ch'ang-yi David Chang, 2008-02-25 This book examines the causes of Taiwan's environmental predicament engaging in Taiwan's unique geological geographical demographical political industrial historical and economic circumstances with a view to what can be done to improve Taiwan's environmental future.

Buddhist Nuns in Taiwan and Sri Lanka Wei-Yi Cheng, 2007-01-24 Taking a comparative approach this fieldwork based study explores the lives and thoughts of Buddhist nuns in present day Taiwan and Sri Lanka. The author examines the postcolonial background and its influence on the modern situation as well as surveying the main historical economic and social factors which influence the position of nuns in society. Based on original research including interviews with nuns in both countries the book examines their perspectives on controversial issues and in particular those concerning the status of women in Buddhism. Concerns discussed include allegedly misogynist teachings relating to women's inferior karma that they cannot become Buddhas and that nuns have to follow additional rules that monks do not. Bridging the gap between feminist theory and the reality of women in religion the book makes a distinct contribution to the study of women in Buddhism by focusing on nuns from both of the main wings of Buddhism Theravada and Mahayana as well as furthering feminist studies of Buddhism and religion in general.

Rosecrance, Arthur A. Stein, 2006-08-04 The twentieth century witnessed an explosion of new nations carved out of existing ramshackle empires and multiethnic states Many observers contend that the creation of new states will continue indefinitely with the two hundred of today becoming the four hundred of tomorrow as more groups seek independence This provocative and compelling book explores the impact of globalization and terrorism on this trend arguing convincingly that the era of national self determination has finally come to an end Examining the forces that determine the emergence of new nation states the distinguished contributors consider a rich array of specific cases from the Middle East Asia North America Europe and Russia where new states could be created They contend that globalization rather than expanding such opportunities is not as friendly to new weak states with limited resources as it is to established rich nations Given the vast sums circulating in the world market few fledgling nations can be financially independent They find it more prudent to shelter within the protective embrace of existing federations Equally governments of federal states can induce restive petitioners\_ such as Quebec Scotland and the Basques\_ to remain inside the metropolitan boundary through a system of tangible restraints and rewards Those who reject the benefits such as rebels in Chechnya and Aceh will fail in their bids for independence Taiwan\_ poised on a knife edge between integration with China and independence\_ faces a series of costs and diminished returns if it seeks full statehood Finally terrorism has lost its legitimacy as a technique for gaining independence in the eyes of the international community Despite the stall in new state formation there has been no sign of successful military or imperial expansion by established countries toward consolidation into fewer larger national units Neither aggression by regional states\_ such as the Iraq invasion of Kuwait in 1990 nor intervention\_ such as the U S occupation of Iraq in 2003 are likely to succeed On balance the book concludes discontented national movements will have to find ways to exist within current geopolitical boundaries      **Chinese Economic Coercion Against Taiwan** Murray Scot Tanner, 2007 Since the early 1980s the cross strait relationship between Taiwan and mainland China has exploded driven by economic and political reforms As a result each would suffer great economic pain and dislocation in the event of a major disruption in that rapidly growing economic relationship This monograph analyzes the political impact of that relationship and evaluates the prospects for Beijing to exploit it by employing economic coercion against Taiwan      **Taiwan Yearbook** , 2006      Negotiating

Democracy Isaac A. Blankson, Patrick Murphy, 2012-02-01 Negotiating Democracy addresses issues that have defined the

challenges and consequences of media transformation faced by new and emerging democracies These issues include the dismantling of national broadcasting systems the promotion of private independent and pluralistic media the clash between liberal democratic and authoritarian political traditions negotiations about the appropriate broadcast language and the potential for free press and for freedom of speech The contributors use examples from countries such as Cambodia Bulgaria Iran Nigeria and Taiwan to not only provide detailed analysis of regional and or nation specific cases of media but also to identify transnational patterns that help deepen the understanding of the media s role in globalization

Housing and the New Welfare State Richard Groves, 2016-04-29 The changing nature and significance of housing provision within welfare states is considered in this timely book With housing playing an increasingly important role in welfare provision the new welfare state emerging in different parts of the world is being developed in the context of individual asset accumulation and the private ownership of housing Housing and the New Welfare State shows that housing is becoming critical to asset based welfare not only in Western Europe but also in the six East Asian housing systems that are a major focus of the book Chapters by leading East Asian scholars provide analysis of housing policies in Singapore Hong Kong Korea Japan China and Taiwan Also examined are the four worlds of welfare and housing the causes and consequences of the shift from tenants to home owners in the old welfare states of Britain and other parts of Western Europe and the growth of the property owning welfare state as a theme running through contemporary policy in both East Asia and Europe

Piracy and the State Martin Dimitrov, 2009-09-07 In this original study of intellectual property rights IPR in relation to state capacity Dimitrov analyzes this puzzle by offering the first systematic analysis of all IPR enforcement avenues in China across all IPR subtypes He shows that the extremely high volume of enforcement provided for copyrights and trademarks is unfortunately of a low quality and as such serves only to perpetuate IPR violations In the area of patents however he finds a low volume of high quality enforcement In light of these findings the book develops a theory of state capacity that conceptualizes the Chinese state as simultaneously weak and strong The book draws on extensive fieldwork in China and five other countries as well as on 10 unique IPR enforcement datasets that exploit previously unexplored sources including case files of private investigation firms

*Fragments of an Unfinished War* Françoise Mengin, 2015-01-09 The Republic of China that retreated to Taiwan in 1949 maintains its de facto if not de jure independence yet Beijing has consistently refused formally to abandon the idea of reunifying Taiwan with China As well as growing military pressure the PRC s irredentist policy is premised on encouraging cross Straits economic integration Responding to preferential measures Taiwanese industrialists have invested massively in the PRC often relocating their businesses there Fragments of a nation torn apart by contradictory claims these entrepreneurs are vectors of a new form of unification imposed by the main land promoted but postponed on the island by the Nationalist Party and rejected by Taiwanese pro independence parties Within what can be described as an unfinished civil war socio economic dynamics remain embedded in conflicts over sovereignty Trans national actors have freed themselves from security

constraints thereby benefiting economically from a reformist China and ultimately restructuring politics in Taiwan itself and in so doing relations between Beijing and Taipei. A fictitious depoliticization has governed the opening of the Sino Taiwanese border in order to postpone any resolution of the sovereignty issue. Mengin's startlingly original book highlights the competing and fragmented elements within one of the world's most intractable territorial disputes.

**Cinema Taiwan** Darrell William Davis, Ru-shou Robert Chen, 2007-05-07 This collection presents an exciting and ambitious foray into the cultural politics of contemporary Taiwan film that goes beyond the autocrat mode, the nation state argument and vestiges of the New Cinema.

**The First Decade** Yue-man Yeung, 2007 Many people have doubts about the return of sovereignty over Hong Kong to China in 1997. They were not optimistic about the one country two systems formula. How should Hong Kong be judged as a Special Administrative Region within China in the first decade of its existence? This book has set out to answer this question. Renowned scholars from outside Hong Kong, largely from countries with close links to Hong Kong's handover or other links, have addressed this question from their perspectives. These views are supplemented by introspective reviews by Hong Kong academics who examine different sectors that have undergone important changes during this period. It is a major contribution to the study of Hong Kong after its return to the motherland.

**The Greenwood Encyclopedia of Children's Issues Worldwide** Irving Epstein, 2007-12-30 From the skyrocketing AIDS rate in Haiti to the oppressive pollution in industrial China, from the violent street culture of Nigeria to the crippling poverty in Nicaragua, from child trafficking in Thailand to child marriages in India, this jam-packed six volume set explores all these issues and more in an unprecedented look at the world's children at the dawn of the 21st century. In recent years, while many countries have enjoyed a higher standard of living and improved working conditions, others have been torn apart by war and incapacitated by famine and are struggling to improve life for their children and their future. Recent concern over the world's children has resulted in a global attempt to define what constitutes an acceptable childhood. New attention has been paid not only to healthcare and secondary education but also to the right to play and increased access to technology. The UN's codification of children's rights has done much to expand our understanding of what is needed for healthy growth and development of children and youth. Organized by region, *The Greenwood Encyclopedia of Children's Issues Worldwide* is the first globally focused set of this magnitude offering extensive up to date coverage of these critical issues. Original chapters accessibly synthesize current data on key topics including education, play and recreation, child labor, family health, laws and legal status, religious life, abuse and neglect, and growing up in the 21st century.

**What Has Changed?** Dafydd Fell, Henning Klöter, Bi-yu Chang, 2006 In March 2000, for the first time in its history, Taiwan witnessed a democratic change in ruling parties. Given the contrasting stances on Taiwan's political and cultural belonging held by the defeated party, the KMT, and the new ruling party, the pro-independence DPP, the change was a historical turning point. Although there has been increasing interest in Taiwan Studies in the last decade, no single volume has yet addressed the complexity and impact of the change in ruling parties in Taiwan. This

book aims to fill that gap by comparing the years before and after the DPP's transition to power. Although the analytical starting point is the regime change of 2000, the scope of topics goes beyond party politics. Designed to provide an all-encompassing view, the thirteen chapters examine and evaluate the extent to which the change in Taiwan's ruling party has resulted in a political, social, economic, and cultural transformation of the island. They build a complex picture of the differences and the perhaps surprisingly high degree of continuities between the two regimes. The book addresses readers interested in interdisciplinary approaches to Taiwan's recent political, social, and cultural changes.

Foreign Policy Making in Taiwan Dennis V. Hickey, 2006-12-05 Following President Chen Shui-bian's victory in the controversial 2004 presidential election, this book examines the future direction of Taiwan's foreign policy, focusing on the internal and external forces that influence and shape the country's foreign policy decisions today. The author suggests that four levels of analysis—the international system, governmental structure, societal forces, and individual factors—pose some explanatory value when seeking to understand Taipei's foreign policy behaviour. Taiwan's foreign policy decision making remains an extremely complex process involving many important variables. However, the author's detailed analysis reveals that external factors, particularly seismic shifts in global politics and the role of China and the US, have had an extraordinary degree of influence over the island's foreign relations. This book highlights these factors as important considerations that continue to play a critical role in shaping Taiwan's foreign policy. Providing a clear analysis of the dynamics of Taiwan's foreign policy, Foreign Policy Making in Taiwan is an important addition to the literature on Taiwan and will be essential reading for followers of Chinese politics, comparative politics, and foreign policy analysis.
