Taiwans Imagined Geography:

Taiwan's Imagined Geography Emma Jinhua Teng, 2020-03-23 Until 300 years ago the Chinese considered Taiwan a land beyond the seas a ball of mud inhabited by naked and tattooed savages The incorporation of this island into the Qing empire in the seventeenth century and its evolution into a province by the late nineteenth century involved not only a reconsideration of imperial geography but also a reconceptualization of the Chinese domain The annexation of Taiwan was only one incident in the much larger phenomenon of Qing expansionism into frontier areas that resulted in a doubling of the area controlled from Beijing and the creation of a multi ethnic polity The author argues that travelers accounts and pictures of frontiers such as Taiwan led to a change in the imagined geography of the empire In representing distant lands and ethnically diverse peoples of the frontiers to audiences in China proper these works transformed places once considered non Chinese into familiar parts of the empire and thereby helped to naturalize Qing expansionism By viewing Taiwan China relations as a product of the history of Qing expansionism the author contributes to our understanding of current political events in the region *Taiwan's Imagined Geography* Emma Teng, 2004

Why Taiwan? Geostrategic Rationales for China's Territorial Integrity Alan M. Wachman, 2008 Why has the PRC been so determined that Taiwan be part of China Why since the 1990s has Beijing been feverishly developing means to prevail in combat with the U S over Taiwan s status Why is Taiwan worth fighting for To answer this book focuses on the territorial dimension of the Taiwan issue and highlights arguments made by PRC analysts about the geostrategic significance of Taiwan rather than emphasizing the political dispute between Beijing and Taipei It considers Beijing s quest for Taiwan since 1949 against the backdrop of recurring Chinese anxieties about the island s status since the seventeenth century

The Authorship of Place Dennis Lo, 2020-09-14 The Authorship of Place is the first monograph dedicated to the study of the politics history aesthetics and practices of location shooting for Taiwanese Mainland Chinese and coproduced art cinemas shot in rural communities since the late 1970s Dennis Lo argues that rural location shooting beyond serving aesthetic and technical needs constitutes practices of cultural survival in a region beset with disruptive and disorienting social changes including rapid urbanization geopolitical shifts and ecological crises In response to these social changes auteurs like Hou Xiaoxian Jia Zhangke Chen Kaige and Li Xing engaged in location shooting to transform sites of film production into symbolically meaningful places of collective memories and aspirations These production practices ultimately enabled auteurs to experiment with imagining Taiwanese Mainland Chinese and cross strait communities in novel and contentious ways Deftly guiding readers on a cross strait tour of prominent shooting locations for the New Chinese Cinemas this book shows how auteurs sought out their disappearing cultural heritage by reenacting lived experiences of nation building homecoming and cultural salvage while shooting on location This was an especially daunting task when auteurs encountered the shooting locations as spaces of unresolved historical social and geopolitical contestations tensions which were only intensified by the impact of filmmaking on rural

communities This book demonstrates how these complex circumstances surrounding location shooting were pivotal in shaping both representations of the rural on screen as well as the production communities institutions and industries off screen Informed by cutting edge perspectives in cultural geography and media anthropology The Authorship of Place both revises Chinese language film history and theorizes groundbreaking approaches for investigating the cultural politics of film authorship and production This extraordinary book discusses the uses of location shooting in films by contemporary Taiwanese and Mainland Chinese directors ranging from Li Xing to Jia Zhangke It highlights the ways in which place memory and identity stances respond to social changes and geopolitical disparities In a world full of uncertainty the argument about the imaginary homeland as an experienced cinematic reality only renders it more urgent and universally relatable Ping hui Liao University of California San Diego The Authorship of Place is certainly a welcome intervention into the study of Chinese cinemas and their auteurs that further contributes to the wider study of location shooting as well as cultural geographies and place based imaginaries of film It is rare to find a book dealing with space place in and around cinema that is this inventive and nuanced in its methodologies Stephanie DeBoer Indiana University

Becoming Taiwan Ann Heylen, Scott Sommers, 2010 One of the most important aspects of democracy has been the transition from colonialism In Taiwan this discussion is typically framed in political discourse that focuses on theoretical issues *Becoming Taiwan* departs from this well traveled route to describe the cultural historical and social origins of Taiwan's thriving democracy Contributors were specifically chosen to represent both Taiwanese and non Taiwanese researchers as well as a diverse range of academic fields from Literature and Linguistics to History Archeology Sinology and Sociology The result represents a mixture of well known scholars and young researchers from outside the English speaking world The volume addresses three main issues in Taiwan Studies and attempts answers based in the historical record How Chinese is Taiwan Organizing a Taiwanese Society and Speaking about Taiwan Individual chapters are grouped around these three themes illustrating the internal dynamics that transformed Taiwan into its current manifestation as a thriving multiethnic democracy Our approach addresses these themes pointing out how Taiwan Studies provides a multidisciplinary answer to problems of the transformation from colonialism to democracy

Place, Identity, and National Imagination in Post-war Taiwan Bi-yu Chang, 2015-03-24 In the struggles for political and cultural hegemony that Taiwan has witnessed

since the 1980s the focal point in contesting narratives and the key battlefield in the political debates are primarily spatial and place based. The major fault line appears to be a split between an imposed identity emphasizing cultural origin China and an emphasis on the recovery of place identity of the local Taiwan. *Place Identity and National Imagination in Postwar Taiwan* explores the ever present issue of identity in Taiwan from a spatial perspective and focuses on the importance of and the relationship between state spatiality and identity formation. Taking postwar Taiwan as a case study, the book examines the ways in which the Kuomintang regime naturalized its political control, territorialized the island and created a nationalist geography. In so doing, it examines how, why and to what extent power is exercised through the place making process and considers the relationship between official versions of ROC geography and the islanders' shifting perceptions of the nation. In turn, by addressing the relationship between the state and the imagined community, Bi-yu Chang establishes a dialogue between place and cultural identity to analyse the constant changing and shaping of Chinese and Taiwanese identity. With a diverse selection of case studies including cartographical development, geography education, territorial declaration and urban planning, this interdisciplinary book will have a broad appeal across Taiwan studies, geography, cultural studies, history and politics.

Comparatizing Taiwan Shu-mei Shih, Ping-hui Liao, 2014-10-17. As the site of crossings of colonizers, settlers, merchants and goods, island nations such as Taiwan have seen a rich confluence of cultures where peoples and languages were either forced to mix or did so voluntarily due largely to colonial conquest and their crucial role in world economy. Through an examination of socio-cultural phenomena, *Comparatizing Taiwan* situates Taiwan globally, comparatively and relationally to bring out the nation's innate richness. This book examines Taiwan in relation to other islands, cultures or nations in terms of culture, geography, history, politics and economy. Comparisons include China, Korea, Canada, Hong Kong, Macau, Ireland, Malaysia, Japan, New Zealand, South Africa, the United States and the Caribbean, and these comparisons present a number of different issues alongside a range of sometimes divergent implications. By exploring Taiwan's many relationalities, material as well as symbolic, over a significant historical and geographical span, the contributors move to expand the horizons of Taiwan studies and reveal the valuable insights that can be obtained by viewing nations, societies and cultures in comparison. Through this process, the book offers crucial reflections on how to compare and how to study small nations. This truly interdisciplinary book will be welcomed by students and scholars interested in Taiwan studies, Sinophone studies, comparative cultural studies, postcolonial studies and literary studies.

Revolutionary Taiwan Catherine Lila Chou, Mark Harrison, 2024-09-03. This book is in the Cambria Sinophone World Series headed by Victor H. Mair, University of Pennsylvania. In the early 1990s, the people of Taiwan gained the right to vote for their executive and legislature. In building a democratic society, they transformed how they saw themselves and their homeland. The outcome of democratization was nothing less than revolutionary, producing a new de facto nation and people that can be justly called Taiwanese. Yet this revolution remains unfinished and incomplete. In an era of increasing US-China rivalry, the People's Republic of China (PRC)

claims sovereignty over Taiwan and insists that reunification is the historic mission of all peoples on both sides of the Taiwan Strait. The PRC threatens war with and over the island, inviting a crisis that would engulf the region and beyond. Common ideas about Taiwan that it split with China in 1949 or sees itself as the true China fail to explain why the Taiwanese withstand pressure from the PRC to relinquish their democratic self governance. Revolutionary Taiwan sheds light on this. Each chapter shows how democratization in Taiwan constituted a revolution changing not just the form of government but also how Taiwanese people conceptualized the island, coming to see it a complete nation unto itself. At the same time, however, Beijing has blocked the normal endpoint of this revolution: an open declaration of statehood and welcome into the global community. Revolutionary Taiwan: Making Nationhood in a Changing World Order brings the Taiwan story to a general audience. It will appeal to students and readers interested in international relations, contemporary geopolitics, and East Asian Studies. Informed by years of academic research and life in Taiwan, this book provides an entry point to a remarkable place and people.

Assessing the Landscape of Taiwan and Korean Studies in Comparison, 2021-04-19. In *Assessing the Landscape of Taiwan and Korean Studies in Comparison*, the chapters offer a reflection on the state of the field of Taiwan and Korea Studies. For the editors, the volume's purpose was to identify not just their similarities but also a reflection on their differences. Both have national identities formed in a colonial period. The surrender of Japan in 1945 ignited the light of independence for Korea, but this would be ideologically split within five years. For Taiwan, that end forced it into a born-again form of nationalism with the arrival of the Chinese Nationalists. Taiwan and South Korea's economic development illustrate a progressive transition, and key to understanding this is the relationship between modernization and democracy. By looking at Korea and Taiwan, the chapters in the volume broaden an understanding of the interconnectivity of the region.

The U.S.-Taiwan-China Relationship in International Law and Policy, Lung-chu Chen, 2016. This volume describes the central issues animating the dynamic U.S.-Taiwan-China relationship and the salient international and domestic legal issues shaping U.S. policy in the Asia Pacific region. Lung-chu Chen gives particular attention to Taiwan's status under international law and the role of the U.S. Taiwan Relations Act (TRA) in the formulation and execution of U.S. policy toward Taiwan.

Taipei, Joseph R. Allen, 2011-11-11. Winner of the Joseph Levenson Post 1900 Book Prize. This cultural study of public space examines the cityscape of Taipei, Taiwan, in rich descriptive prose. Contemplating a series of seemingly banal subjects—maps, public art, parks—Joseph Allen peels back layers of obscured history to reveal forces that caused cultural objects to be celebrated, despised, destroyed, or transformed as Taipei experienced successive regime changes and waves of displacement. In this thoughtful stroll through the city, we learn to look beyond surface ephemera, moving from the general to the particular, to see sociocultural phenomena in their historical and contemporary contexts. Tradition, Treaties, and Trade, Kirk W. Larsen, 2020-03-23. Relations between the Chosŏn and Qing states are often cited as the prime example of the operation of the traditional Chinese tribute system. In contrast, this work

contends that the motivations tactics and successes and failures of the late Qing Empire in Chos n Korea mirrored those of other nineteenth century imperialists Between 1850 and 1910 the Qing attempted to defend its informal empire in Korea by intervening directly not only to preserve its geopolitical position but also to promote its commercial interests And it utilized the technology of empire treaties international law the telegraph steamships and gunboats Although the transformation of Qing Chos n diplomacy was based on modern imperialism this work argues that it is more accurate to describe the dramatic shift in relations in terms of flexible adaptation by one of the world s major empires in response to new challenges Moreover the new modes of Qing imperialism were a hybrid of East Asian and Western mechanisms and institutions Through these means the Qing Empire played a fundamental role in Korea s integration into regional and global political and economic systems

Asian Expansions Geoff Wade,2014-10-17 Asia as we know it today is the product of a wide range of polity expansions over time Recognising the territorial expansions of Asian polities large and small through the last several millennia helps rectify the fallacy long held and deeply entrenched that Asian polities have been interested only in the control of populations not in expanding their command of territory In countering this misapprehension this book suggests that Asian polities have indeed been concerned with territorial control and expansion over time whether for political or strategic advantage trade purposes defence needs agricultural expansion or increased income through taxation The book explores the historical experiences of a set of polity expansions within Asia specifically in East and Southeast Asia and by examining the motivations mechanisms processes validations and limitations of these Asian territorial expansions reveals the diverse avenues by which Asian polities have grown The chapters draw on these historical examples to highlight the connections between Asian polity expansion and centralised political structures and this aids in a broader and more comprehensive understanding of Asian political practice both past and present Through these chapter studies and the integrative introduction the book interrogates key concepts such as imperialism and colonialism and the applicability and relevance of such terminology in Asian contexts both historical and contemporary Comparisons and contrasts with European historical expansions are also suggested This book will be welcomed by students and scholars of Asian history as well as by those with an interest in Asian interactions international relations polity expansion Asia Europe historical comparisons and globalisation Chapter 8 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
