Riot! Jake Frederick, 2016-08-01 An exploration of the Totonac native community of Papantla Veracruz during the last half of the eighteenth century Told through the lens of violent revolt this is the first book length study devoted to Papantla during the colonial era The book tells the story of a native community confronting significant disruption of its agricultural tradition and the violence that change provoked Papantla s story is told in the form of an investigation into the political social and ethnic experience of an agrarian community The Bourbon monopolisation of tobacco in 1764 disturbed a fragile balance and pushed long term native frustrations to the point of violence Through the stories of four uprisings Jake Frederick examines the Totonacs increasingly difficult economic environment their view of justice and their political tactics Riot argues that for the native community of Papantla the nature of colonial rule was even in the waning decades of the colonial era a process of negotiation rather than subjugation The second half of the eighteenth century saw an increase in collective violence across the Spanish American colonies as communities reacted to the strains imposed by the various Bourbon reforms Riot provides a much needed exploration of what the colony wide policy reforms of Bourbon Spain meant on the ground in rural communities in New Spain The narrative of each uprising draws the reader into the crisis as it unfolds providing an entree into an analysis of the event The focus on the community provides a new understanding of the demographics of this rural community including an account of the as yet unexamined black population of Papantla

Handbook of Middle American Indians, Volume 6 Robert Wauchope, 2014-01-07 Social Anthropology is the sixth volume in the Handbook of Middle American Indians published in cooperation with the Middle American Research Institute of Tulane University under the general editorship of Robert Wauchope 1909 1979 The volume editor is Manning Nash 1924 2001 Professor of Anthropology at the Center for Study of Economic Development and Cultural Change University of Chicago This volume provides a synthetic and comparative summary of native ethnography and ethnology of Mexico and Central America written by authorities in a number of broad fields the native population and its identification agricultural systems and food patterns economies crafts fine arts kinship and family compadrazgo local and territorial units political and religious organizations levels of communal relations annual and fiesta cycles sickness folklore religion mythology psychological orientations ethnic relationships and topics of especial modern significance such as acculturation nationalization directed change urbanization and industrialization The articles rely on the accumulated ethnography of the region but instead of being essentially historical in

treatment they aim toward generalizations about the uniformities and varieties of culture society and personality found in Middle America The collection is an invaluable reference work on Middle America and a provocative guide to scholars engaged in furthering understanding of humans and society The Handbook of Middle American Indians was assembled and edited at the Middle American Research Institute of Tulane University with the assistance of grants from the National Science Foundation and under the sponsorship of the National Research Council Committee on Latin American Anthropology

Trigger, Wilcomb E. Washburn, Richard E. W. Adams, Murdo J. MacLeod, Frank Salomon, Stuart B. Schwartz, 1996 Library holds volume 2 part 2 only *The Aztecs Under Spanish Rule* Charles Gibson, 1964 Here is the complete history of the Indians of the Valley of Mexico one of the two most important religious groups in the Spanish empire in America from the Conquest to Independence in the early nineteenth century Based upon ten years of research this study focuses on the effect of Spanish institutions on Indian life at the local level [Olmec to Aztec](#) Barbara L. Stark, Philip J. Arnold, 2022-09-06 Archaeological settlement patterns the ways in which ancient people distributed themselves across a natural and cultural landscape provide the central theme for this long overdue update to our understanding of the Mexican Gulf lowlands Olmec to Aztec offers the only recent treatment of the region that considers its entire prehistory from the second millennium B C to A D 1519 The editors have assembled a distinguished group of international scholars several of whom here provide the first widely available English language account of ongoing research Several studies present up to date syntheses of the archaeological record in their respective areas Other chapters provide exciting new data and innovative insights into future directions in Gulf lowland archaeology Olmec to Aztec is a crucial resource for archaeologists working in Mexico and other areas of Latin America Its contributions help dispel long standing misunderstandings about the prehistory of this region and also correct the sometimes overzealous manner in which cultural change within the Gulf lowlands has been attributed to external forces This important book clearly demonstrates that the Gulf lowlands played a critical role in ancient Mesoamerica throughout the entirety of pre Columbian history **Archaeology of Ancient Mexico and Central America** Susan Toby Evans, David L. Webster, 2001 This reference is devoted to the pre Columbian archaeology of the Mesoamerican culture area one of the six cradles of early

civilization It features in depth articles on the major cultural areas of ancient Mexico and Central America coverage of important sites including the world renowned discoveries as well as many lesser known locations articles on day to day life of ancient peoples in these regions and several bandw regional and site maps and photographs Entries are arranged alphabetically and cover introductory archaeological facts flora fauna human growth and development nonorganic resources chronologies of various periods Paleoindian Archaic Formative Classic and Postclassic and Colonial cultural features Maya regional summaries research methods and resources ethnohistorical methods and sources and scholars and research history Edited by archaeologists Evans and Webster both of whom are associated with Pennsylvania State University c Book News Inc

Histories of Maize John Staller,Robert Tykot,Bruce Benz,2016-12-05 Maize has been described as a primary catalyst to complex sociocultural development in the Americas State of the art research on maize chronology molecular biology and stable carbon isotope research on ancient human diets have provided additional lines of evidence on the changing role of maize through time and space and its spread throughout the Americas The multidisciplinary evidence from the social and biological sciences presented in this volume have generated a much more complex picture of the economic political and religious significance of maize The volume also includes ethnographic research on the uses and roles of maize in indigenous cultures and a linguistic section that includes chapters on indigenous folk taxonomies and the role and meaning of maize to the development of civilization Histories of Maize is the most comprehensive reference source on the botanical genetic archaeological and anthropological aspects of ancient maize published to date This book will appeal to a varied audience and have no titles competing with it because of its breadth and scope The volume offers a single source of high quality summary information unavailable elsewhere **Mesoamerican Writing Systems** Elizabeth P. Benson,1973 Prehistoric

Mesoamerica Richard E. W. Adams,1996 In this revised edition of Prehistoric Mesoamerica Richard E W Adams updates his widely adopted text with material from recent archaeological fieldwork to present a balanced summary and overview of the region that is today Mexico Guatemala Belize and Honduras Following an introduction to Mesoamerican studies a brief geographic sketch of the region and a summary of the major features of its civilizations Adams examines in detail each period of cultural history the first immigrants the Olmec and their contemporaries Maya beginnings and classic civilization the great cities of Teotihuacan and Monte Alban the rise and fall of the Toltec and the civilizations of the Tarascans Zapotecs Mixtecs Totonacs and Aztecs

The Fifteenth Month John F. Schwaller,2019-05-02 The Mexica Aztecs used a solar calendar made up of eighteen months with each month dedicated to a specific god in their pantheon and celebrated with a different set of rituals Panquetzaliztli the fifteenth month dedicated to the national god Huitzilopochtli Hummingbird on the Left was significant for its proximity to the winter solstice and for the fact that it marked the beginning of the season of warfare In The Fifteenth Month John F Schwaller offers a detailed look at how the celebrations of Panquetzaliztli changed over time and what these changes reveal about the history of the Aztecs Drawing on a variety of sources Schwaller deduces that prior to

the rise of the Mexica in 1427 an earlier version of the month was dedicated to the god Tezcatlipoca Smoking Mirror a war and trickster god The Mexica shifted the dedication to their god developed a series of ceremonies including long distance running and human sacrifice that would associate him with the sun and changed the emphasis of the celebration from warfare alone to a combination of trade and warfare since merchants played a significant role in Mexica statecraft Further investigation shows how the resulting festival commemorated several important moments in Mexica history how it came to include ceremonies associated with the winter solstice and how it reflected a calendar reform implemented shortly before the arrival of the Spanish Focused on one of the most important months in the Mexica year Schwaller s work marks a new methodology in which traditional sources for Mexica culture rather than being interrogated for their specific content are read for their insights into the historical development of the people Just as Christmas re creates the historic act of the birth of Jesus for Christians so The Fifteenth Month suggests Panquetzaliztli was a symbolic re creation of events from Mexica myths and history

Canal Irrigation in Prehistoric Mexico William E. Doolittle, 2014-07-03 Prehistoric farmers in Mexico invented irrigation developed it into a science and used it widely Indeed many of the canal systems still in use in Mexico today were originally begun well before the discovery of the New World In this comprehensive study William E Doolittle synthesizes and extensively analyzes all that is currently known about the development and use of irrigation technology in prehistoric Mexico from about 1200 B C until the Spanish conquest in the sixteenth century A D Unlike authors of previous studies who have focused on the political economic and social implications of irrigation Doolittle considers it in a developmental context He examines virtually all the known systems from small canals that diverted runoff from ephemeral mountain streams to elaborate networks that involved numerous large canals to irrigate broad valley floors with water from perennial rivers Throughout the discussion he gives special emphasis to the technological elaborations that distinguish each system from its predecessors He also traces the spread of canal technology into and through different ecological settings This research substantially clarifies the relationship between irrigation technology in Mexico and the American Southwest and argues persuasively that much of the technology that has been attributed to the Spaniards was actually developed in Mexico by indigenous people These findings will be important not only for archaeologists working in this area but also for geographers historians and engineers interested in agriculture technology and arid lands

Visible Ruins Mónica M. Salas Landa, 2024-05-07 An examination of the failures of the Mexican Revolution through the visual and material records The Mexican Revolution 1910 1920 introduced a series of state led initiatives promising modernity progress national grandeur and stability state surveyors assessed land for agrarian reform engineers used nationalized oil for industrialization archaeologists reconstructed pre Hispanic monuments for tourism and anthropologists studied and photographed Indigenous populations to achieve their acculturation Far from accomplishing their stated goals however these initiatives concealed violence and permitted land invasions forced displacement environmental damage loss of democratic freedom and mass

killings M nica M Salas Landa uses the history of northern Veracruz to demonstrate how these state led efforts reshaped the region s social and material landscapes affecting what was and is visible Relying on archival sources and ethnography she uncovers a visual order of ongoing significance that was established through postrevolutionary projects and that perpetuates inequality based on imperceptibility Handbook of Middle American Indians, Volumes 10 and 11 Robert
