Platonic ideal of a philosopher who founded a state *Elusive Equality* Melissa Feinberg, 2006-04-30 When Czechoslovakia became independent in 1918 Czechs embraced democracy which they saw as particularly suited to their national interests. Politicians enthusiastically supported a constitution that proclaimed all citizens women as well as men legally equal. But they soon found themselves split over how to implement this pledge. Some believed democracy required extensive egalitarian legislation. Others contended that any commitment to equality had to bow before other social interests such as preserving the traditional family. On the eve of World War II Czech leaders jettisoned the young republic for an authoritarian democracy that firmly placed their nation and not the individual citizen at the center of politics. In 1948 they turned to a Communist led people's democracy which also devalued individual rights. By examining specific policy issues including marriage and family law, civil service regulations, citizenship law and abortion statutes, *Elusive Equality* demonstrates the relationship between Czechs' ideas about gender roles and their attitudes toward democracy. Gradually many Czechs became convinced that protecting a traditionally gendered family ideal was more important to their national survival than adhering to constitutionally prescribed standards of equal citizenship. Through extensive original research, Melissa Feinberg assembles a compelling account of how early Czech progress in women's rights tied to democratic reforms eventually lost momentum in the face of political transformations and the separation of state and domestic issues. Moreover, Feinberg presents a prism through which our understanding of twentieth century democracy is deepened and a cautionary tale for all those who want to make democratic governments work.

Modern Slovak Prose Robert B. Pynsent, 1990-07-23 *Modern Slovak Prose* is a collection of essays based on papers delivered at a symposium at the School of Slavonic and East European Studies. Although few major Slovak writers published during the 1970s normalisation period after the Warsaw Pact intervention, Slovak literature did not stagnate like Czech literature. The essays in this volume cover the whole period from the death throes of socialist realism to the lively sophisticated cosmopolitan fiction of the late 1970s and 1980s. The cut off date is 1988. All the prose writers considered important by the Slovaks themselves and by non-Slovak scholars are covered: Tatarka, Jaros, Johan, Ides, Ballek, Bednr, Dusek and so forth. The volume contains a survey introduction to Slovak fiction from the 1950s to the present. This book is the first to assess an area of east central European culture which has been virtually ignored in the West.
