**New Religious Movements in Modern Asian History** David W. Kim, 2020-09-30. This book provides evidence that the emergence of Asian new religious movements (NRMs) was predominantly the result of anti-colonial ideology from local religious groups or individuals. The contributors argue that when traditional religions were powerless to maintain their cultural heritage, the leadership of NRMs adduced alternative principles and the new teachings of each NRM attracted the local people enough for them to change their beliefs. The contributors argue that as a whole, the Asian new religious movements overall were very ardent and progressive in transmitting their new ideologies. The varied viewpoints in this volume attest to the consistent development of Asian NRMs from domestic and international dimensions by replacing old traditional religions.

**The Culture of Leadership in Contemporary China** Paul Michael Linehan, 2017-12-06. The resurgence of Confucianism, Daoism, and Buddhism in the context of Chinese leadership values has emerged as a foundation for a new generation of leaders. The once-in-a-decade transition of China's leadership witnessed the ascendancy of a consensus-oriented fifth generation of leaders supporting a central authoritative figure whose priority will likely include the reconciliation of a waning communist ideology juxtaposed with its ostensible embrace of capitalism. How will Chinese Communist Party authority, ideology, and control address the encroachment of Western values that are centered on Roman law, Greek philosophy, and Christian religion, which prioritizes individual freedom and democracy? This book examines the role of traditional Chinese values, ideology, and philosophy as a key determinant in modern China's leadership succession. The author asserts that as communist ideology wanes, Chinese leaders will turn to their own traditional values found in Confucianism, Daoism, and Buddhism to establish legitimacy to rule as they seek to promote Chinese prominence and greatness in the world. The author's research assesses China's promotion of its own traditional values in rejecting foreign value influence. Since the inception of modern China at the beginning of the 20th century, China's leadership transition has evolved from an authoritarian cult-like dictatorship to a consensus-oriented process. In researching this metamorphosis, this book offers social, political, cultural, and historical perspectives to demonstrate that Chinese human values and character factors have risen in prominence as key elements in the mandate of Chinese governance and leadership. The author concludes that Chinese leadership values and its study and diffusion across sectors of Chinese leadership, including business,

organizations and government have become a means to accentuate Chinese values as a viable alternative to Western claims of absolute and universally accepted values

**Holy Confucius! Some Observations in Translating "sheng(ren)" in The Analects** Thorsten J. Pattberg, 2018-10-13 The Chinese term sheng simplified appears eight times in six paragraphs in the Analects of Confucius Lun Yu The all time champion of English translations for sheng ren is the sage In most English and French writings on the Chinese tradition one will come across the translation the sages les sages eventually but not so in the majority of German writings The all favored German translation based on Schott Grube Wilhelm Haas Biallas Conrady and many others is the biblical die Heiligen saints or holy men This is rather surprising at first Sages and saints are two very different archetypes of wisdom In this paper I will showcase the most important German French Latin and English translations of sheng ren in the Analects ranging from 1649 to 2009 I will discuss some of the odd translators choices made and why saints philosophers geniuses Berufene appointees Kulturheroen cultural heroes Great Men G ttliche the god like and more
