Deflecting Immigration Ivan Light, 2006-05-25 As international travel became cheaper and national economies grew more connected over the past thirty years millions of people from the Third World emigrated to richer countries A tenth of the population of Mexico relocated to the United States between 1980 and 2000 Globalization theorists claimed that reception cities could do nothing about this trend since nations make immigration policy not cities In *Deflecting Immigration* sociologist Ivan Light shows how Los Angeles reduced the sustained high volume influx of poor Latinos who settled there by deflecting a portion of the migration to other cities in the United States In this manner Los Angeles tamed globalization's local impact and helped to nationalize what had been a regional immigration issue Los Angeles deflected immigration elsewhere in two ways First the protracted network driven settlement of Mexicans naturally drove up rents in Mexican neighborhoods while reducing immigrants wages rendering Los Angeles a less attractive place to settle Second as migration outstripped the city's capacity to absorb newcomers Los Angeles gradually became poverty intolerant By enforcing existing

industrial occupational and housing ordinances Los Angeles shut down some unwanted sweatshops and reduced slums Their loss reduced the metropolitan region s accessibility to poor immigrants without reducing its attractiveness to wealthier immigrants Additionally ordinances mandating that homes be built on minimum sized plots of land with attached garages made home ownership in L A s suburbs unaffordable for poor immigrants and prevented low cost rental housing from being built Local rules concerning home occupancy and yard maintenance also prevented poor immigrants from crowding together to share housing costs Unable to find affordable housing or low wage jobs approximately one million Latinos were deflected from Los Angeles between 1980 and 2000 The realities of a new global economy are still unfolding with uncertain consequences for the future of advanced societies but mass migration from the Third World is unlikely to stop in the next generation Deflecting Immigration offers a shrewd analysis of how America s largest immigrant destination independently managed the challenges posed by millions of poor immigrants and in the process helped focus attention on immigration as an issue of national importance

Jukebox Empire David Rabinovitch,2023-10-15 An aspiring tycoon partners with a racketeer to build a jukebox that makes millions then takes the fall for the largest money laundering scheme in history Caught between the Mob and the feds in a plot to save the casinos in Havana from Castro s revolution Wolfe Rabin pulls the biggest money laundering scheme in history but his hubris leads to the conspiracy unraveling in a sensational trial At a time when there was a jukebox in every restaurant diner bar barracks arcade and canteen Rabin s trajectory from inventor to promoter to outlaw is set against the Mob s growing infiltration of the jukebox industry In a world of music machines and money popular culture and organized crime collide in an epic drama of invention and greed David Rabinovitch s investigation into his own family history pieces together an epic puzzle that begins in Chicago with the invention of a jukebox and spans the casinos of Havana and the financial giants of Europe leading to what the FBI called the biggest bank robbery in the world
