Matarazzo Ph.D., Toby Pearlstein, 2013-04-23 Learn why special or corporate libraries must align with their parent organizations in order to survive in these difficult economic times and how to foster and demonstrate this critical relationship *Special Libraries A Survival Guide* analyzes what has happened and is still continuing to happen to corporate libraries in order to identify the strategies that must be taken to protect their staff's survival Through a careful examination of a series of case studies of corporate library reductions and closures authors James M Matarazzo and Toby Pearlstein suggest key strategies tactics and survival tools that all types of special library managers can use to minimize their chances of becoming a victim The book underscores the importance of collecting data as a survival tool Additionally it identifies what needs to be taught to students currently enrolled in library and information science LIS programs to give them a leg up in careers This advocacy book is essential reading for staff at special corporate libraries in

The Law Librarian, 1998. Defending Professionalism Bill Crowley, 2012-05-15. This book provides overdue guidance for demonstrating and preserving library information knowledge and archival professionalism in American, British and Canadian communities and organizations. There is no longer any way to deny or to escape the responsibility of marketing services and being an advocate for one's profession. Practitioners also need effective arguments and approaches for combating library and information deprofessionalization. This book offers the antidote for ineptitude in the fight to preserve professionalism in all major library and information environments. Composed of 14 chapters written by contemporary practitioners and practitioners turned theorists, Defending Professionalism: A Resource for Librarians, Information Specialists, Knowledge Managers and Archivists clearly justifies the employment of the professional librarian, information specialist, knowledge manager and archivist. The contributors offer both short-term and long-term political, cultural and other approaches for the ongoing effort to retain and expand professionalism. The book provides managers, funding authorities, educators and practitioners with practical, political and theoretical reasons why it is in their self-interest to employ professionally educated personnel for positions within libraries, information or knowledge management centers and archives. Resources in Education, 1999. **Subject Guide to Books in Print**, 1997. **Resource Sharing Today** Corinne Nyquist, 2014-07-22. Budget constraints challenge collection development in unprecedented ways. Collection development has increasingly become a cooperative effort among libraries in geographic proximity. When their own library

doesn't have certain books or journals users turn to interlibrary loan to obtain the resources they need. However, many library science degree programs don't cover interlibrary loan. *Resource Sharing Today* is a practical guide to resource sharing starting with the library across town and ending with libraries on the other side of the globe. Chapters cover everything from the ALA's interlibrary loan form to successful innovations such as Virginia Tech's ILLiad to New York's IDS Information Delivery Service. Appendices include regional, state, national, and international ILL codes, ALA and IFLA forms, open access agreements, and purchase on demand plans. *Alchemical Libraries Almanack*, 1973 **The One-person Library**, 2005
