### **Private Households and Public Politics in 3rd-5th**

**Century Jewish Palestine** Alexei Sivertsev, 2002 Alexei Sivertsev examines the nature of the Jewish aristocratic households and their public functions during the later Roman and Byzantine periods third to fifth centuries C E The author first discusses the nature of the Jewish patriarchate during the third century C E He argues that the family of patriarchs nesi im is best understood as a local city based aristocratic clan It emerged along with other contemporary clans as a result of the gradual conversion of the national aristocracy of the once independent Judean state into the municipal aristocracy of the Roman province of Palaestina in the course of the first to second centuries C E In the second part of this book Alexei Sivertsev addresses the specific public functions performed by Jewish aristocratic clans such as judicial religious administrative and legislative He also demonstrates the continuity that existed in this respect between the Second Commonwealth aristocratic clans and those of the rabbinic period Finally the third part of this study deals with the process leading to the integration of the local native aristocracies of the Roman Near East into the centralized administrative system created by the Emperors starting with Constantine the Great This process is analyzed specifically regarding the example of the Jewish ruling elite The main question in this section is the degree to which the local administrative apparatus of the newly created Byzantine bureaucracy developed out of the traditional and clan based public institutions which had existed locally throughout the Roman period

Lignereux, 2023-03-28 This book explores imperial entanglements to reassess the Napoleonic Empire as a missing link or at least an important chain in the global and longue dur e history of Empires In recent years Napoleonic studies have belatedly but resolutely embraced the transnational historiographical turn vastly expanding the field's geographical scope Its canonical chronological boundaries on the other hand appear increasingly narrow against this wider backdrop giving the impression of a parenthetical almost anachronistic aside from 1799 to 1815 What connects and what doesn't connect the Napoleonic Empire to the Age of Empire remains by and large an open question Put another way this book attempts to locate the Napoleonic empire in World History *The Empire And the Khanate* L. J. Newby, 2005 Drawing on Qing archival sources from the Qianlong era to the mid 19th century this study charts the changes in Qing policy that characterized the empire's relations with the Central Asian khanate of Khoqand and shows how these developments impacted on the northwestern frontier of Xinjiang *Edgar Julius Jung, Right-wing Enemy of the Nazis* Roshan Magub, 2017 Fills a serious gap in German historical literature by providing the first political biography of Jung a leading figure of the anti Nazi Right By the time of his death Edgar Julius Jung 1894 1934 was well known in Germany and Europe as one of the foremost ideologues of the political movement that called itself the Conservative Revolution and as a right wing opponent of the Nazis He was speechwriter for and confidant of Franz von Papen first Hitler's predecessor as chancellor then Hitler's vice chancellor which put him at the center of political events right up until the Nazi seizure of power Considered by Baldur von Schirach and Goebbels to be one of the worst enemies of the Nazis Jung was assassinated by the Nazi regime in June 1934 The eleven years of Nazi rule that followed contributed to Jung's neglect by historians as did distaste since the war's end and the founding of the Federal Republic on democratic principles for his strongly antidemocratic stance Although there have been several studies on Jung's

political thought there has been until now no biography in German or English Roshan Magub's book therefore fills a serious gap in German historical literature It shows that Jung's opposition to National Socialism dates from the earliest days and that he had a very close relationship with the Ruhr industry which supported him financially and enabled him to reach a nationwide audience Magub uses for the first time all the available material from the archives in Munich Koblenz Cologne and Berlin and the whole of Jung's Nachlass Her book sheds new light on Jung and demonstrates his importance in Germany's political history Roshan Magub holds a PhD from Birkbeck College University of London

### **The Centrality of Slavery**

John Craig Hammond, 2025-11-11 How French and American colonizers created systems of enslavement in the Middle Mississippi Valley The Centrality of Slavery examines how French and American colonizers used the powers of various imperial regimes to create slave societies in present day Missouri and Illinois from the 1720s through the 1820s The first book length study of slavery and empire in both Illinois and Missouri it begins with the origins of Native American and African American enslavement in the region It then traces how successive French Spanish British and American regimes shaped the development of slavery over the course of a century examines the significance of the Northwest Ordinance's ban on slavery in Illinois and then analyzes the diverging histories of slavery in Illinois and Missouri in the early 1800s The book concludes with an analysis of the Missouri Crisis and the compromise of 1820 along with the Middle Mississippi Valley's significance in the road towards disunion and civil war in the late 1850s More broadly The Centrality of Slavery argues that the Middle Mississippi Valley sat astride the crossroads of imperial North America The practices of empire and enslavement forged and fought over there exerted an outsized influence on the history of slavery in North America and the United States Rather than treating the region's eighteenth century past as a prologue to the rise of the United States John Craig Hammond analyzes the colonial history of the region on its own terms through the European colonizers American settlers and enslaved people of Indigenous and African descent who shaped the development of slavery in the Middle Mississippi Valley

**Picturing American Modernity** Kristen Whissel, 2008-10-03 Study of the relationship between modernity and cinema with an emphasis on how early 20th century films represented technology and urbanization *Intimate Empire* Alexa von Winning, 2022 *Intimate Empire* tells the story of the Mansurovs a small noble family who played a momentous role in the Russian Empire as they struggled to reassert the country's importance on the global stage after their defeat in the Crimean War showing how three generations of a family advanced the intertwined causes of the Russian Empire and Orthodoxy

**The Diachrony of Ditransitives** Chiara Fedriani, Maria Napoli, 2020-10-26 While ample studies exist on ditransitives in various languages notably from a typological perspective more work needs to be done on identifying the main processes and factors that trigger and constrain the changes they undergo over time The goal of this volume is to help fill this gap by bringing together data and information on individual languages that have thus far been left out of the discussion and by expanding our knowledge of already studied linguistic traditions so as to achieve a broader diachronic description Since one

of the distinctive features of ditransitives is their synchronic variability in terms of structural alternation and alignment split diachronic research can throw up new insights into developmental dynamics that are eminently complementary namely on the one hand the emergence development and loss of construction alternation and on the other the acquisition of new functions over time The analyses offered in the book yield different and interconnected answers to the general question of how ditransitives change by drawing on different functional principles that play a role in the diachronic reorganization of this dynamic domain and by providing a number of original theoretical suggestions The Krytos Trap: Star Wars Legends

**of Late Medieval Kyoto** Suzanne Gay, 2001-09-30 The Moneylenders of Late Medieval Kyoto examines the large community of sake brewer moneylenders in Japan's capital city focusing on their rise to prominence from the mid 1300s to 1550 Their guild tie to overlords notably the great monastery Enryakuji was forged early in the medieval period giving them a protected monopoly and allowing them to flourish Demand for credit was strong in medieval Kyoto and brewers profitably recirculated capital for loans As the medieval period progressed the brewer lenders came into their own While maintaining overlord ties they engaged in activities that brought them into close contact with every segment of Kyoto's population The more socially prominent brewers served as tax agents for religious institutions the shogunate and the imperial court and were actively involved in a range of cultural pursuits including tea and linked verse Although the merchants themselves left only the faintest record Suzanne Gay has fully and convincingly depicted this important group of medieval commoners **Planet**
