*The Voice of Misery* Gert-Jan van der Heiden, 2020-01-01 A systematic study of testimony rooted in contemporary continental philosophy and drawing on literary case studies From analytic epistemology to gender theory testimony is a major topic in philosophy today Yet one distinctive approach to testimony has not been fully appreciated the recent history of contemporary continental philosophy offers a rich source for another approach to testimony In this book Gert Jan van der Heiden argues that a continental philosophy of testimony can be developed that is guided by those forms of bearing witness that attest to limit experiences of human existence in which the human is rendered mute speechless or robbed of a common understanding In the first part Van der Heiden explores this sense of testimony in a reading of several literary texts ranging from Plato s literary inventions to those of Kierkegaard Melville Soucy and Mortier In the second part based on the orientation offered by the literary experiments Van der Heiden offers a more systematic account of testimony in which he distinguishes and analyzes four basic elements of testimony In the third part he shows what this analysis implies for the question of the truth and the truthfulness of testimony In his discussion with philosophers such as Heidegger Derrida Lyotard Agamben Foucault Ricoeur and Badiou Van der Heiden also provides an overview of how the problem of testimony emerges in a number of thinkers pivotal to twentieth and twenty first century thought The Voice of Misery is a special book Van der Heiden has presented an argument that is poised to challenge discourse in analytic philosophy reshape approaches in continental philosophy and give new orientation to interdisciplinary research in continental philosophy and literary theory The book will find a large readership across the discipline of philosophy and in several areas of the humanities Theodore George author of Tragedies of Spirit
