Collaborative Learning Nordic European and International Views and the workshop Emergent Practices and Material Conditions in Tablet mediated Collaborative Learning and Teaching both of which have been held at the Computer Supported Collaborative Learning conference CSCL This volume brings together inspirational and high quality chapters that raise a range of important ideas and showcase the importance of looking beyond technology enhanced learning Taken together this volume unpacks a variety of everyday situations by engaging with what is really happening with digital technologies rather than what is expected to happen with them in educational settings The take away message is a call for research on learning teaching and digital technologies that enables engagement with the materiality of educational practices and in particular their constitutive relationships that configure the contemporary educational practices of the digital age **Social**

Structure and Forms of Consciousness, Volume 2 István Mészáros, 2011-03-01 In The Dialectic of Structure and History Volume Two of Social Structure and Forms of Consciousness István Mészáros brings the comprehension of our condition and the possibility of emancipatory social action beyond the highest point reached to date Building on the indicatory flashes of conceptual lightning in the Grundrisse and other works of Karl Marx Mészáros sets out the relations of structure and agency individual and society base and superstructure nature and history in a dialectical totality open to the future The project is brought to its conclusion by means of critique an analysis that shows not only the inadequacies of the thought critiqued but at the same time their social historical cause The crucial questions are addressed through critique of the highest point of honest and brilliant thought in capital's ascending phase that of Adam Smith Kant and Hegel as well as the irrationalities and dishonesty of the apologists of the capital system's descending phase such as Hayek and Popper The dead ends of both Lévi Strauss's structuralism and post modernism arising from their denial of history are placed in their context as capital apologetics What Mészáros the leading Marxist philosopher of our times has achieved is of world historical importance He has cleared the philosophical ground to permit the illumination of a path to transcend the destructive death spiral of the capital system **Theatre Symposium, Vol. 32** Keith Byron Kirk, 2025-04-15 A new volume of the longstanding theatre journal

documenting conversations that traverse disciplinary boundaries Theater Symposium Volume 32 delves into the collaborative dynamics and ritualistic exchanges within performance during the collective resurgence into a hopeful post COVID world This volume's contributors embark on a journey through the vibrant realm of material performance with puppetry at the forefront guiding readers into an expansive landscape of object performance styles and structures As they navigate this terrain they pose critical questions that unravel the complexities of object performance analysis and its impact on audiences Bringing together perspectives from designers creators and performers this volume explores how object performances serve as a medium to engage with the world fostering synchrony and positive outcomes across a diverse array of artistic practices Theater Symposium Volume 32 invites readers to expand their understanding of collaborative practices and the object world whether it be through the lens of labor or entertainment Contributors Ashley Bellet Francesca Marie Chilcote Elisabeth

Hostetter Rebecca Johnson Kyla Kazuschyk Keith Byron Kirk Jesse Njus Claudia Orenstein Paulette Richards Dory Sibley Echo Sunyata Sibley Skye Strauss **The Ethnography of Reading at Thirty** Matthew Rosen, 2023-11-23 This edited volume examines what the classic text *The Ethnography of Reading* Boyarin ed 1993 and the diverse ethnographies of reading it helped inspire can offer contemporary scholars interested in understanding the place of reading in social life *The Ethnography of Reading at Thirty* brings together new research and critical reflections from an international and interdisciplinary group of scholars who have kept their ears tuned to the voices in and around the texts they encountered and constructed in the process of bringing the ethnography of reading into the twenty first century Rather than operating from universalist assumptions about how people interact with and make meaning from written texts each of the present contributors draw in one way or another on the theoretical methodological and creative legacies of *The Ethnography of Reading* Under the broad umbrella of ethnographic reader studies they collectively explore new relations between texts social imagination and social action *Puppet and Spirit: Ritual, Religion, and Performing Objects* Claudia Orenstein, Tim Cusack, 2023-07-31 This anthology of essays aims to explore the many types of relationships that exist between puppets broadly speaking and the immaterial world The allure of the puppet goes beyond its material presence as historically and throughout the globe many uses of puppets and related objects have expressed and capitalized on their posited connections to other realms or ability to serve as vessels or conduits for immaterial presence The flip side of the puppet's troubling uncanniness is precisely the possibilities it represents for connecting to discarnate realities Where do we see such connections How do we describe analyze and theorize these relationships The first of two volumes this book focuses on these questions in relation to long established traditional practices using puppets devotional objects and related items with sacred aspects to them or that perform ritual roles Looking at performance traditions and artifacts from China Indonesia Korea Mali Brazil Iran Germany and elsewhere the essays from scholars and practitioners provide a range of useful models and critical vocabularies for addressing the ritual and spiritual aspects of puppet performance further expanding the growing understanding and appreciation of puppetry generally This book along with its companion volume offers for the first time robust coverage of this subject from a diversity of voices examples and perspectives *The Political Force of Musical Beauty* Barry Shank, 2014-03-17 In *The Political Force of Musical Beauty* Barry Shank shows how musical acts and performances generate their own aesthetic and political force creating however fleetingly a shared sense of the world among otherwise diverse listeners Rather than focusing on the ways in which music enables the circulation of political messages he argues that communities grounded in the act and experience of listening can give rise to new political ideas and expression Analyzing a wide range of beautiful music within popular and avant garde genres including the Japanese traditions in the music of Takemitsu Toru and Yoko Ono the drone of the Velvet Underground and the insistence of hardcore punk and Riot grrrl post punk Shank finds that when it fulfills the promise of combining sonic and lyrical differences into a cohesive whole

musical beauty has the power to reorganize the basis of social relations and produce communities that recognize meaningful difference

With These Rings, Volume 1 Stephen Frueh, 2007 WITH THESE RINGS offers a surprising contribution to the marriage conversation Dr Frueh sees three marriages within marriage each a journey each legitimate in its own right These journeys create one of the three foundations for recreating vital stimulating and long lasting marriages Additionally he invites us into a method for embracing conflict which he says can become a pathway to intimacy With these Rings explains why so many marriages are marginal and many fail and offers a new paradigm that will absolutely change the way you look at and live in marriage *Discourse, Conversation and Argumentation: Theoretical Perspectives and Innovative Empirical Studies - Volume I* Antonio Bova, Carlo Galimberti, Lise Haddouk, Francesco Arcidiacono, 2021-12-06

Materiality and Consumption in the Bronze Age Mediterranean Louise Steel, 2013 The importance of cultural contacts in the East Mediterranean has long been recognized and is the focus of ongoing international research Fieldwork in the Aegean Egypt Cyprus and the Levant continues to add to our understanding of the nature of this contact and its social and economic significance particularly to the cultures of the Aegean Despite sophisticated discussion of the archaeological evidence in particular on the part of Aegean and Mediterranean archaeologists there has been little systematic attempt to incorporate anthropological perspectives on materiality and exchange into archaeological narratives of this material This book addresses that gap and integrates anthropological discourse on contact examining exchange systems the gift notions of geographical distance and power colonization and hybridization Furthermore it develops a social narrative of culture contact in the Mediterranean context illustrating the reasons communities chose to engage in international exchange and how this impacted the construction of identities throughout the region While traditional archaeologies in the East Mediterranean have tended to be reductive in their approach to material culture and how it was produced used and exchanged this book reviews current research on material culture focusing on issues such as the biography of objects inalienable possessions and hybridization exploring how these issues can further illuminate the material world of the communities of the Bronze Age Mediterranean

Rethinking Materiality Elizabeth DeMarrais, Chris Gosden, Colin Renfrew, 2004 What is the relationship between mind and ideas on the one hand and the material things of the world on the other In recent years researchers have rejected the old debate about the primacy of the mind or material and have sought to establish more nuanced understandings of the ways humans interact with their material worlds In this volume alternative approaches are presented deriving from a wide variety of theoretical perspectives Contributors debate the significance of key thresholds in the human past including sedentism domestication and the emergence of social inequality and their impact on changing patterns of human cognition symbolic expression and technological innovation In its global coverage and its broad theoretical scope this landmark volume offers an innovative and comprehensive assessment of current thinking and future directions
