has given life to a vibrant field of academic research since the 1990s Yet the Western origins of the field have tended to limit its cross cultural scope Howard Chiang proposes a new paradigm for doing transgender history in which geopolitics assumes central importance Defined as the antidote to transphobia transtopia challenges a minoritarian view of transgender experience and makes room for the variability of transness on a historical continuum Against the backdrop of the Sinophone Pacific Chiang argues that the concept of transgender identity must be rethought beyond a purely Western frame At the same time he challenges China centrism in the study of East Asian gender and sexual configurations Chiang brings Sinophone studies to bear on trans theory to deconstruct the ways in which sexual normativity and Chinese imperialism have been produced through one another Grounded in an eclectic range of sources from the archives of sexology to press reports of intersexuality films about castration and records of social activism this book reorients anti transphobic inquiry at the crossroads of area studies medical humanities and queer theory Timely and provocative Transtopia in the Sinophone Pacific highlights the urgency of interdisciplinary knowledge in debates over the promise and future of human diversity

Scott,2013-10-28 A collection of work by leading feminist scholars engaging with the question of the political status of poststructuralism within feminism and affirming the contemporary debate over theory as politically rich and consequential **The Gender Binary and the Invention of Race** Sally Markowitz,2024-05-28 The Gender Binary and the Invention of Race explores a fundamental and often overlooked connection between modern European conceptions of gender and race Starting in the eighteenth century these conceptions have intermeshed through a racialized gender binary ideal for the male female couple that supposedly only Europeans embody Through an exploration of various expressions of this racial gender binary ideal this book illuminates the deep connections between categories of race sex gender and sexuality and the social hierarchies they support This book also explores how the racial gender binary ideal has both shaped fin de si cle arguments for the respectability of male homosexuality and informed the mid twentieth century feminist analysis of Simone de Beauvoir s The Second Sex Finally this book compares its approach to understanding the race gender connection to that of intersectional theorist Kimberle Crenshaw The Gender Binary and the Invention of Race is an accessibly written book that will be of interest both to undergraduate and graduate students of Gender Studies as well as to a general audience wishing to learn more about the relationship between the categories of race gender and sexuality
