Hollywood's Italian American Filmmakers Jonathan J. Cavallero, 2011-05-01 Hollywood's Italian American Filmmakers explores the different ways in which Italian American directors from the 1920s to the present have responded to their ethnicity. While some directors have used film to declare their ethnic roots and create an Italian American imagined community, others have ignored or even denied their background. Jonathan J. Cavallero examines the films of Frank Capra, Martin Scorsese, Nancy Savoca, Francis Ford Coppola, and Quentin Tarantino with a focus on what the films reveal about each director's view on Italian American identities. Whereas Capra's films highlight similarities between immigrant characters and WASP Americans, Scorsese accepts his ethnic heritage but also sees it as confining. Similarly, many of Coppola's films provide a nostalgic treatment of Italian American identity but with little criticism of the culture's more negative aspects. And while Savoca's movies reveal her artful ability to recognize how ethnic gender and class identities overlap, Tarantino's films exhibit a playfully postmodern engagement with Italian American ethnicity. Cavallero's exploration of the films of Capra, Scorsese, Savoca, Coppola, and Tarantino demonstrates how immigrant Italians fought prejudice, how later generations positioned themselves in relation to their predecessors, and how the American cinema, usually seen as a cultural institution that works to assimilate, has also served as a forum where assimilation was resisted.

The Evolution of Hollywood's Calculated Blockbuster Films Alexander Ross, 2023-04-24 In this book, Alexander Ross highlights how creative entrepreneurs saved the Hollywood studios in the 1970s by establishing the calculated blockbuster, consisting of key replicable markers of success, as Hollywood's preeminent business model. Ross demonstrates how visionary individuals such as Coppola, Spielberg, Lucas, and Zemeckis helped create the modern calculated blockbuster business model (BBM). However, with the rise of streaming giants and the studios struggling to compete, many consumers of entertainment now elect to partake from the comfort of their homes, making the difference between cinema and television anachronistic. Revisiting the history of those 1970s blockbusters and their ongoing impact on contemporary filmmaking, Ross offers distinct analysis on whether the calculated blockbuster can continue to lead or if the streamers will continue to generate their own content and eventually fully control the dissemination process. For scholars and students in film, pop culture, and business, along with aspiring filmmakers, screenwriters, producers, and executives, the book will be a valued resource.

Screening the Mafia George S. Larke-Walsh, 2010-04-20 The post-classic era of American gangster films began in 1967 with the release of *Bonnie and Clyde*, achieving a milestone five years later with the popular and highly influential *The Godfather*. This historical study explores the structure, myths, and intertextual narratives found in the gangster films produced since *The Godfather*. The intense relationship between masculinity and ethnicity in the gangster film, especially within the movie-generated mythology of the Mafia, is carefully analyzed, and the book tracks the trends in the genre up to and including the landmark HBO television series *The Sopranos* (1999–2007). A selected filmography is included. Instructors considering this book for use in a course may
