worldbuilding performance and genre in contemporary blockbuster entertainment *More Than Meets the Eye* maps the ways in which special effects build consistent storyworlds and transform genres while traveling from one media platform to the next Examining high profile franchises in which special effects have played a constitutive role such as *Star Trek* *Star Wars* *The Matrix* and *The Lord of the Rings* as well as more contemporary franchises like *Pirates of the Caribbean* and *Harry Potter* Bob Rehak analyzes the ways in which production practices developed alongside the cultural work of industry professionals By studying social and cultural factors such as fan interaction this book provides a context for understanding just how much multiplatform storytelling has come to define these megahit franchises *More Than Meets the Eye* explores the larger history of how physical and optical effects in postwar Hollywood laid the foundation for modern transmedia franchises and argues that special effects are not simply an adjunct to blockbuster filmmaking but central agents of an entire mode of production [Film Reboots](#) Daniel Herbert,2020-08-18 No detailed description available for Film Reboots **Popular**
