## **The Idea Of The Renaissance:**

**The Idea of the Renaissance** William Kerrigan, Gordon Braden, 1989 Awarded the Roland H Bainton Book Prize of the Sixteenth Century Studies Conference The writing draws on a considerable reserve of erudition and grace the stylistic kind so skillfully exhibited in each author's past work Their familiar audience will not be disappointed by this impressively readable collaboration Christopher Martin Sixteenth Century Journal *Renaissance Ideas and the Idea of the Renaissance* Charles Edward Trinkaus, 1990 **The Idea of the Renaissance and the Rise of Science** Herbert Weisinger, 1946

**The Idea of Progress** John Bagnell Bury, 1928 *Capitalism and Freedom in African Political Philosophy* Grivas Muchineripi Kayange, 2020-05-05 This book investigates capitalism and freedom the guiding forces of many political systems in African philosophy It builds on classical and neoliberal capitalism rooted in private property and freedom and argues for the presence of these elements in the traditional and modern African political systems The author argues that while these elements are partly imported from Western capitalists they are equally traceable in African traditional political systems Kayange argues that African politics is marred by a conflict between embracing capitalism and freedom individualism on the one hand and socialism founded on African communitarianism and communist ideas on the other This conflict has affected policy development and implementation and has significantly contributed towards the socio economic and ethical crises that are recurrent in most of the African countries Michael Dahl and the Contemporary Swedish School of Painting in England Wilhelm Nisser, 1927 *Renaissance Thought* Robert Black, 2001 Renaissance Thought is a fascinating collection of essays on the Renaissance focusing on humanism and thought The concept of the Renaissance has always been challenging to define and this book enables a deeper understanding of the essential features of the Renaissance and humanism Knowledge of Renaissance thought illuminates other key aspects of Renaissance culture such as philology political thought and scholastic and platonic philosophy Renaissance Thought explores all the important themes and influential figures including humanism and scholasticism the scholarship of Politician printers and readers in Italy Ptolemy of Lucca Petrarch Florentine constitutionalism and Medici ascendancy the humanist challenge to medieval German culture This collection of articles is essential reading for students of the Renaissance The book will allow readers to contribute to the debate on the Renaissance a theme which has never ceased to stimulate intellectual interest since the earliest days of the Renaissance itself **The Concept Standard** Anne Mary Nicholson, 1910 *The Shattering of the Self* Cynthia Marshall, 2003-05-22 In The Shattering of the Self Violence Subjectivity and Early Modern Texts Cynthia Marshall reconceptualizes the place and function of violence in Renaissance literature During the Renaissance an emerging concept of the autonomous self within art politics religion commerce and other areas existed in tandem with an established popular sense of the self as fluid unstable and volatile Marshall examines an early modern fascination with erotically charged violence to show how texts of various kinds allowed temporary release from an individualism that was constraining Scenes such as Gloucester's blinding and Cordelia's

death in King Lear or the dismemberment and sexual violence depicted in Titus Andronicus allowed audience members not only a release but a shattering as opposed to an affirmation of the self Marshall draws upon close readings of Shakespearean plays Petrarchan sonnets John Foxe's Acts and Monuments of the Christian Martyrs and John Ford's The Broken Heart to successfully address questions of subjectivity psychoanalytic theory and identity via a cultural response to art Timely in its offering of an account that is both historically and psychoanalytically informed The Shattering of the Self argues for a renewed attention to the place of fantasy in this literature and will be of interest to scholars working in Renaissance and early modern studies literary theory gender studies and film theory **The Westminster Review**, 1898 *The Absolute Artist* Catherine M.
