Wouter J. Hanegraaff, 2013-02-14 Western esotericism has been a pervasive presence in Western culture from late antiquity to the present day, but until recently it was largely ignored by scholars and surrounded by misconceptions and prejudice. This accessible guide provides readers with the basic knowledge and tools that will allow them to find their way in this bewildering but fascinating field. What is it that unites phenomena as diverse as ancient gnosticism and hermetism, the occult sciences of astrology, alchemy, and magic, Rosicrucianism, as well as Christian theosophy, occultism, spiritualism, and the contemporary New Age spiritualities? What can the study of them teach us about our common cultural and intellectual heritage, and what is it that makes them relevant to contemporary concerns? How do we distinguish reliable historical knowledge from legends and fictions about esoteric traditions? These and many other questions are answered clearly and succinctly so that the reader can find his way into the labyrinth of Western esotericism and out of it again. **Esotericism**

**in Western Culture** Wouter J. Hanegraaff, 2025-05-29 This accessible introduction by the world's leading expert explains why the study of esotericism is not a marginal pursuit but belongs at the center of modern research in the humanities. Reflecting updates in the field since the foundational publication *Western Esotericism: A Guide for the Perplexed* (2013), Wouter J. Hanegraaff demonstrates that the exclusion of rejected knowledge from normative accounts of Western civilization is the reflection of a narrow Eurocentric ideology that became the template for discrediting and ultimately destroying so-called primitive cultures associated with superstition and pagan idolatry during the global colonial age. Rejecting this rejection of rejected knowledge means restoring the suppressed to its legitimate place in history and cultural analysis. Through this approach, Wouter J. Hanegraaff depicts a radically inclusive vision of the Greater West and its forgotten histories from pagan antiquity through Jewish, Christian, and Islamic cultures up to secular modernity and beyond. **Shakespeare's**

**Visual Theatre** Frederick Kiefer, 2003-09-25 In this study of Shakespeare's visual culture, Frederick Kiefer looks at the personified characters created by Shakespeare in his plays: his walking, talking abstractions. These include Rumour in *2 Henry IV*, Time in *The Winter's Tale*, Spring and Winter in *Love's Labour's Lost*, Revenge in *Titus Andronicus*, and the deities in the late plays. All these personae take physical form on the stage: the actors performing the roles wear distinctive attire and carry appropriate props. The book seeks to reconstruct the appearance of Shakespeare's personified characters to explain the symbolism of their costumes and props and to assess the significance of these symbolic characters for the plays in which they appear. To accomplish this reconstruction, Kiefer brings together a wealth of visual and literary evidence, including engravings, woodcuts, paintings, drawings, tapestries, emblems, civic pageants, masques, poetry, and plays. The book contains over forty illustrations of personified characters in Shakespeare's time. **The Dictionary of Demons** Michelle Belanger, 2010-10-08

*The Dictionary of Demons* starts with a simple premise: names have power. In medieval and Renaissance Europe, it was

believed that speaking a demon's true name could summon it, compel it and bind it. Occult scholar Michelle Belanger has compiled the most complete compendium of demonic names available anywhere using both notorious and obscure sources from the Western grimoiric tradition. Presented alphabetically from Ariel to Zynextyur, more than 1,500 demons are introduced, explored and cross-referenced by theme and elemental or planetary correspondence. This meticulously researched reference work features fascinating short articles on demonology and a wealth of woodcuts, etchings and paintings depicting demons through the ages.

**Journal for the Academic Study of Magic 2** Dave Evans, Various, 2004-05. This volume is a multidisciplinary, peer-reviewed print publication covering all areas of magic, witchcraft, paganism and all geographical regions and all historical periods.

The Dictionary of Demons: Expanded & Revised M. Belanger, 2021-05-08. With more than 200 additional entries, the revised and expanded second edition of one of the world's most important books on demonology is now available in paperback. Ever since the publication of the original book more than ten years ago, author M. Belanger has been collecting material for this expanded edition. Filled with additional new articles, spirits, demons, appendices and art, the bestselling *Dictionary of Demons* is now an even more comprehensive resource. You will discover an expanded introduction, extended articles, an update to the Decans of the Zodiac, additional entries and dozens of new illustrations. *The Dictionary of Demons Revised and Expanded* includes more than 1,700 demons as well as short articles on demonology and a wealth of illustrations, making it one of the most valuable reference works in the field. *Writing Witch-Hunt Histories* Marko Nenonen, Raisa Maria Toivo, 2013-10-02. This book gives an analytical review of the history of witch hunt historiography. So far, not much attention has been paid to how the European witch hunts have been studied and explained in some 150 years of academic research on the issue. The history of the approaches and explanations in witch hunt research fundamentally contributes not only to our understanding of the bizarre phenomenon in European history but also contributes to understanding of cultural as well as academic trends which heavily direct any research even when scholars are not cognisant of their underlying premises. How and why the picture of witch hunts has been changing in scholarly works and text books is as illuminating an issue as the proper explanations offered by the research works. Contributors include Rune Blix Hagen, Ronald Hutton, Gunnar W. Knutsen, Marianna G. Muravyeva, Marko Nenonen, Raisa Maria Toivo, Charles Zika.
