Invasions USA Michael Bliss, 2014-07-30 Out of more than 180 science fiction films produced in the United States between 1950 and 1959 twenty were concerned with the notion of an invasion Of these a select number used the invasions as metaphors of issues that were of importance to America at the time such as assaults upon individuality and marriage and debates about the supremacy of the human race The invasion may be real The Day the Earth Stood Still and War of the Worlds dreamed Invaders from Mars or the result of a mental breakdown as seems to be the case in Invasion of the Body Snatchers Real or not all of these massive disturbances to the status quo convey the same anxiety In the 1950s

many Americans felt that things in their world weren't quite right and this sense of unease was expressed in the country's art notably these films In *Invasions USA: The Essential Science Fiction Films of the 1950s* Michael Bliss examines movies that stripped away the veneer of normality during a decade often portrayed as the last innocent period in American history From a boy's nightmares about his alien controlled parents and a young woman's fears that her fiancé has been replaced by an emotionless alien to an extraterrestrial visitor who comes to warn mankind about its self-destructive ways the stories of these films offer a variety of messages both subtle and overt With detailed discussions and analyses of the films in question this book examines a unique group of movies with profound messages By exploring depictions of insecurities whether personal or political Bliss shows how science fiction films spoke to American audiences deeply troubled by their circumstances *Invasions USA* will appeal to science fiction buffs and film aficionados interested in this significant phenomenon in movie and cultural history

Marvel Universe Bruce Wagner, 2024-07-23 The Marvel Universe details the lives and deaths of Wagner's cast of characters: an orphaned billionaire, a black man wrongly convicted of murder, a schizophrenic child obsessed with the comic book character Wolverine, a cancelled TV star, and the love child of Elon Musk. Their intertwining stories take place during the pandemic, a year of tectonic social unrest ushering in a new reality that surpasses anything any Hollywood franchise could hope to imagine.

Apocalypse Then Mike Bogue, 2017-09-14 The United States, the only country to have dropped the bomb, and Japan, the only one to have suffered its devastation, understandably portray the nuclear threat differently on film. American science fiction movies of the 1950s and 1960s generally proclaim that it is possible to put the nuclear genie back in the bottle. Japanese films of the same period assert that once freed, the nuclear genie can never again be imprisoned. This book examines genre films from the two countries released between 1951 and 1967, including *Godzilla* (1954), *The Mysterians* (1957), *The Incredible Shrinking Man* (1957), *On the Beach* (1959), *The Last War* (1961), and *Dr. Strangelove* (1964) to show the view from both sides of the Pacific.

Global Melodrama Carla Marcantonio, 2015-10-07 *Global Melodrama* is the first booklength work to investigate melodrama in a specifically twenty-first century setting across regional and national boundaries, analyzing film texts from a variety of national contexts in the wake of globalization.

Horror and the Holy Kirk Schneider, 2013-12-01 Dr. Schneider draws upon a detailed and telling analysis of eleven well-known horror stories: *Dracula*, *Frankenstein*, *The Phantom of the Opera*, *The Fall of the House of Usher*, *The Invisible Man*, *The Incredible Shrinking Man*, *Dr. Jekyll and Mr. Hyde*, *The Birds*, *Forbidden Planet*, *Vertigo*, and *Alien*. He finds that a spiritual understanding of life can be attained through horror. Classic horror steers a middle path between fanaticism and despair, the path of wonderment. Horror teaches us that the human personality is paradoxical; that revulsion and disgust are the obverse of excitement and freedom, and that both poles are vital to individual, social, and ecological well-being.

Cult Films Allan Havis, 2007-12-14 *Cult Films: Taboo and Transgression* looks at nine decades of cult films history within American culture. By highlighting three films per decade, including a brief summary of the decade's identity and sensibility, the book investigates the quality, ironies, and spirit of cult film evolution. The twenty-seven films selected for this study are analyzed for story content and, in their respective transgressions, regarding social, aesthetic, and political codes. Characteristic of this book is the notion that many exciting genres make up cult films, including horror, sci-fi, fantasy, film noir, and black comedy. Further, the book reaches out to several foreign film directors over the decades in order to view cult films as an intentional art form. Political and ideological controversies are covered, arresting back-story details that lend perspective on a film fill out the analysis, and the historic framework for many film titles. The book, by emphasizing the condensed survey over decades and by choosing outstanding titles, differs from other general studies on cult films.
