The Ineluctable Sea:

The Ineluctable Sea Edna Meudt, 1975-01-01 **The Sea** Peter N. Miller, 2013-04-24 The Sea brings together a group of noted contributors to evaluate the different ways in which seas have served as subjects in historiography and asks how this has changed and will change the way history is written. The essays in this volume provide exemplary demonstrations of how a sea-based history writing that focuses on connectivity networks and individuals describes the horizons and the potential of thalassography, the study of the world made by individuals embedded in networks of motion. As Peter N. Miller contends in his introduction, writing about the sea today is a way of partaking in the wider historiographical shift toward microhistory, exchange relations networks, and above all, materiality both literally and figuratively. The Sea focuses not on questions of discipline and professionalization as much as on the practice of scholarship, the writing, and therefore the planning and organizing of histories of the sea.

The Sea and Medieval English Literature Sebastian I. Sobecki, 2008 A fresh and invigorating survey of the sea as it appears in medieval English literature from romance to chronicle, hagiography to autobiography. As the first cultural history of the sea in medieval English literature, this book traces premodern myths of insularity from their Old English beginnings to Shakespeare's *Tempest*. Beginning with a discussion of biblical, classical, and pre-Conquest treatments of the sea, it investigates how such works as the Anglo-Norman *Voyage of St. Brendan*, the Tristan romances, the chronicles of Matthew Paris, *King Horn*, *Patience*, *The Book of Margery Kempe*, and *The Libelle of Englyshe Polycye* shape insular ideologies of Englishness. Whether it is Britain's privileged place in the geography of salvation or the political fiction of the idyllic island fortress, medieval English writers' myths of the sea betray their anxieties about their own insular identity; their texts call on maritime motifs to define England geographically and culturally against the presence of the sea. New insights from a range of fields including jurisprudence, theology, the history of cartography, and anthropology are used to provide fresh readings of a wide range of both insular and continental writings.

A Whole, a Fragment Kurt H. Wolff, 2002-01-01 *A Whole, a Fragment* presents a highly personal, experimental work by a great American social theorist, Kurt H. Wolff. In this extended prose poem, a text that reads as much as a work of art as important scholarship, Wolff has created a work of phenomenology that goes far beyond the typical methods of empirical social science to embrace field work as an extraordinary openness to being. Wolff employs a radical hermeneutical method in exploring his own humanity, taking key experiences, dreams, and ideas and continually revisiting them from different perspectives throughout the text in order to describe the self-construction of his life. Including personal letters to Wolff from Hannah Arendt and Hermann Bloch, the book portrays a fertile mind's reckoning with pre-phenomenal being in a way that dances between the realms of intellectual consideration and the surrender of will to the intoxication of lived experience.

The Genealogical Imagination Michael Jackson, 2021-04-05 In *The Genealogical Imagination*, Michael Jackson juxtaposes ethnographic and imaginative writing to explore intergenerational trauma and temporality. Drawing on over fifty years of fieldwork, Jackson recounts the 150-year

history of a Sierra Leone family through its periods of prosperity and powerlessness war and peace jihad and migration Jackson also offers a fictionalized narrative loosely based on his family history and fieldwork in northeastern Australia that traces how the trauma of wartime in one generation can reverberate into the next In both stories Jackson reflects on different modes of being in time demonstrating how genealogical time flows in stops and starts linear at times discontinuous at others as current generations reckon with their relationships to their ancestors Genealogy Jackson demonstrates becomes a powerful model for understanding our experience of being in the world as nobody can escape kinship and the pull of the past Unconventional and evocative The Genealogical Imagination offers a nuanced account of how lives are lived while it pushes the bounds of the forms that scholarship can take

storytelling magic and meditation that enables us to reach beyond the limits of everyday life and forge virtual relationships and imagined communities Although Maurice Blanchot wrote of the impossibility of writing the passion and paradox of literature lies in its attempt to achieve the impossible a leap of faith that calls to mind the mystic's dark night of the soul unrequited love nostalgic or utopian longing and the ethnographer's attempt to know the world from the standpoint of others to put himself or herself in their place Every writer whether of ethnography poetry or fiction imagines that his or her own experiences echo the experiences of others and that despite the need for isolation and silence his or her work consummates a relationship with them

The Masculine Mysteries and the Quest for the Whiteness Bernard X. Bovasso, 2006-07-31 Discover an Abundant Life in your Present Condition Are you tired of living in your past Are you sick and tired of your past coming up every time you try to go up Are you just tired of your past messing with your blessings It may seem like your life is as good as it will get until you discover that there is a better way Many people still live in a past experience that hinders them from living in an abundant future Abundant living comes in different ways depending upon what we feel true abundance means Material abundance is nice to have but spiritual abundance is what we must have One of today's buzz phrases is if it ain't broke break it There are mind sets that haven't yet been broken that need to be broken One in particular God is punishing me and that's why I'm getting what I'm getting This type of mentality is not scriptural and I'm going to deal with it in this book Your past may be uncomfortable but it's not unforgivable The scriptures doesn't tell us in all your getting get things but it does tell us in all your getting get an understanding In knowing this God created us to be abundant in Him but we deviated from being complete in Him Therefore we must seek to understand and we will discover How to get pass our past

Representing Algerian Women Edward John Still, 2019-01-14 This monograph explores the ways in which canonical Francophone Algerian authors writing in the late colonial period 1945-1962 namely Kateb Yacine Mohammed Dib Mouloud Feraoun Mouloud Mammeri and Assia Djébar approached the representation of Algerian women through literature The book initially argues that a masculine domination of public fields of representation in Algeria

contributed to a postcolonial marginalization of women as public agents. However, it crucially also argues that the canonical writers of the period, who were mostly male, both textually acknowledged their inability to articulate the experiences and subjectivity of the feminine Other and deployed a remarkable variety of formal and conceptual innovations in producing evocations of Algerian femininity that subvert the structural imbalance of masculine symbolic hegemony. Though it does not shy from investigating those aspects of its corpus that produce ideologically conditioned masculinist representations, the book chiefly seeks to articulate a shared reluctance concerning representativity, a pessimism regarding the revolution's capacity to deliver change for women, and an omnipresent subversion of masculine subjectivity in its canonical texts. *Latin American Popular Culture* Arthur A. Natella, Jr., 2014-01-10. This book details many aspects of Latin American culture as experienced by millions of people living in Central and South America. The author argues that despite early and considerable European influences on the region, indigenous Latin American traditions still characterize much of the social and artistic heritage of the Latin American countries. Several chapters provide detailed accounts of daily life, including descriptions of contemporary dress, mealtime traditions, transportation, and traditional ways of conducting business. Other chapters focus on the cultural significance of the popular music, art, and literature prevalent in each Latin American country. Instructors considering this book for use in a course may request an examination copy here. *Publications of the Modern Language Association of America*, 1957-03. Vols. for 1921-1969 include annual bibliography; called 1921-1955 American bibliography; 1956-1963 Annual bibliography; 1964-1968 MLA international bibliography. **The Philosophy of Tolkien** Peter Kreeft, 2009-09-03. While nothing can equal or replace the adventure in reading Tolkien's masterwork *The Lord of the Rings*, Peter Kreeft says that the journey into its underlying philosophy can be another exhilarating adventure. Thus Kreeft takes the reader on a voyage of discovery into the philosophical bones of Middle-earth. He organizes the philosophical themes in *The Lord of the Rings* into 50 categories, accompanied by over 1,000 references to the text of *Lord*. Since many of the great questions of philosophy are included in the 50-theme outline, this book can also be read as an engaging introduction to philosophy. For each of the philosophical topics in *Lord*, Kreeft presents tools by which they can be understood. Illustrated. *James Joyce and the Language of History* Robert E. Spoo, 1994. Born into a culture oppressed by its history, Joyce was preoccupied by it. Torn between conflicting images of Ireland's past, he was confronted with the challenge of creating a historical conscience. His art became his political protest, and the belief that individual passion and freely expressed works of fiction defy and subvert dominant discourses is the basis of his historiographic art. **Ecocriticism and Women Writers** J. Kostkowska, 2013-06-17. Virginia Woolf, Jeanette Winterson, and Ali Smith share an ecological philosophy of the world as one highly interconnected entity comprised of multiple and equal human and non-human participants. This study argues that these writers' texts have an ecological significance in fostering respect for and understanding of difference, human and nonhuman.
