Jeanne Peterson, 1989-05-22 Physically frail badly educated girls brought up to lead useless lives as idle gentlewomen married to dominant husbands and relegated to separate spheres of life these phrases have often been used to describe Victorian upper middle class women M Jeanne Peterson rejects such formulations and the received wisdom they embody in favor of a careful examination of Victorian ladies and their lives Focusing on a network of urban professional families over three generations this book examines the scope and quality of gentlewomen's education their physical lives their relationship to money their experience of family illness and death and their relationships to men brothers and friends as well as fathers and husbands Peterson also examines the prominent place of work in the lives of these leisured Victorian ladies both single and married Far from idle the mothers wives and daughters of Victorian clergymen doctors lawyers university dons and others were accomplished and productive members of society who made substantial public and private contributions to virtually every sphere of Victorian life **The Law of Sex Determination and Its Practical Application** Laura Annice Davis Calhoun, 1910 **Who's who in the Theatre**, 1926 **Analyzing Oppression** Ann E. Cudd, 2006-04-27 Analyzing Oppression presents a new integrated theory of social oppression which tackles the fundamental question that no theory of oppression has satisfactorily answered if there is no natural hierarchy among humans why are some cases of oppression so persistent Cudd argues that the explanation lies in the coercive co-opting of the oppressed to join in their own oppression This answer sets the stage for analysis throughout the book as it explores the questions of how and why the oppressed join in their oppression Cudd argues that oppression is an institutionally structured harm perpetrated on social groups by other groups using direct and indirect material economic and psychological force Among the most important and insidious of the indirect forces is an economic force that operates through oppressed persons own rational choices This force constitutes the central feature of analysis and the book argues that this force is especially insidious because it conceals the fact of oppression from the oppressed and from others who would be sympathetic to their plight The oppressed come to believe that they suffer personal failings and this belief appears to absolve society from responsibility While on Cudd's view oppression is grounded in material exploitation and physical deprivation it cannot be long sustained without corresponding psychological forces Cudd examines the direct and indirect psychological forces that generate and sustain oppression She discusses strategies that groups have used to resist oppression and argues that all persons have a moral responsibility to resist in some way In the concluding chapter Cudd proposes a concept of freedom that would be possible for humans in a world that is actively opposing oppression arguing that

freedom for each individual is only possible when we achieve freedom for all others      **Same-Sex Marriage and the Constitution** Evan Gerstmann, 2017-06-26 A clearly written and accessible explanation of the Supreme Court's same sex marriage decision its reasoning and the consequences and controversies surrounding it      The Specter of Sex Sally L. Kitch, 2009-08-06 Top Three Finalist for the 2010 John Hope Franklin Publication Prize presented by the American Studies Association Theories of intersectionality have fundamentally transformed how feminists and critical race scholars understand the relationship between race and gender but are often limited in their focus on contemporary experiences of interlocking oppressions In The Specter of Sex Sally L. Kitch explores the backstory of intersectionality theory the historical formation of the racial and gendered hierarchies that continue to structure U.S. culture today Kitch uses a genealogical approach to explore how a world already divided by gender ideology became one simultaneously obsessed with judgmental ideas about race starting in Europe and the English colonies in the late seventeenth century Through an examination of religious political and scientific narratives public policies and testimonies laws court cases and newspaper accounts The Specter of Sex provides a rare comparative study of the racial formation of five groups American Indians African Americans Latinos Asian Americans and European whites and reveals gendered patterns that have served white racial dominance and repeated themselves with variations over a two hundred year period
