**The Instant Image** Mark Olshaker,1978      The Camera Does the Rest Peter Buse,2016-05-27 In a world where nearly everyone has a cellphone camera capable of zapping countless instant photos it can be a challenge to remember just how special and transformative Polaroid photography was in its day And yet there s still something magical for those of us who recall waiting for a Polaroid picture to develop Writing in the context of two Polaroid Corporation bankruptcies not to mention the obsolescence of its film Peter Buse argues that Polaroid was and is distinguished by its process by the fact that as the New York Times put it in 1947 the camera does the rest Polaroid was often dismissed as a toy but Buse takes it seriously showing how it encouraged photographic play as well as new forms of artistic practice Drawing on unprecedented access to the archives of the Polaroid Corporation Buse reveals Polaroid as photography at its most intimate where the photographer photograph and subject sit in close proximity in both time and space making Polaroid not only the perfect party camera but also the tool for frankly salacious pictures taking Along the way Buse tells the story of the Polaroid Corporation and its ultimately doomed hard copy wager against the rising tide of digital imaging technology He explores the continuities and the differences between Polaroid and digital reflecting on what Polaroid can tell us about how we snap photos today Richly illustrated The Camera Does the Rest will delight historians art critics analog fanatics photographers and all those who miss the thrill of waiting to see what develops      From Snapshots to Social Media - The Changing Picture of Domestic Photography Risto Sarvas,David M. Frohlich,2011-02-09 From Snapshots to Social Media describes the history and future of domestic photography as mediated by technological change Domestic photography refers to the culture of ordinary people capturing sharing and using photographs and is in a particular state of flux today as photos go digital The book argues that this digital era is the third major chapter in the 170 year history of the area following the portrait and Kodak eras of the past History shows that despite huge changes in photographic technology and the way it has been sold people continue to use photographs to improve memory support communication and reinforce identity The future will involve a shift in the balance of these core activities and a replacement of the family album with various multimedia archives for individuals families and communities This raises a number of issues that should be taken into account when designing new technologies and business services in this area including the ownership and privacy of content multimedia standards home ICT infrastructure and younger and older users of images The book is a must for designers and engineers of imaging technology and social media who want a better understanding of the history of domestic photography in order to shape its future It will also be of value to students and researchers in science and technology studies and visual culture as a fascinating case study of the evolving use of photographs and photographic technology in Western society      **Transient Images** Eric Freedman,2011 Whither the life of online images      **Hearings, Reports and Prints of the Senate Committee on Labor and Human Resources** United States. American U 2 spy plane was shot down over the Soviet Union just weeks before a peace summit between the two nations The CIA concocted a cover story for President Eisenhower to deliver assuring him that no one could have survived a fall from that altitude And even if pilot Francis Gary Powers had survived he had been supplied with a poison pin with which to commit suicide But against all odds Powers emerged from the wreckage and was seized by the KGB He confessed to espionage charges revealing to the world that Eisenhower had just lied to the American people and to the Soviet Premier Infuriated Nikita Khrushchev slammed the door on a rare opening in Cold War relations In A Brotherhood of Spies award winning journalist Monte Reel reveals how the U 2 spy program principally devised by four men working in secret upended the Cold War and carved a new mission for the CIA This secret fraternity made up of Edwin Land best known as the inventor of instant photography and the head of Polaroid Corporation Kelly Johnson a hard charging taskmaster from Lockheed Richard Bissell the secretive and ambitious spymaster and ace Air Force flyer Powers set out to replace yesterday s fallible human spies with tomorrow s undetectable eye in the sky Their clandestine successes and all too public failures make this brilliantly reported account a true life thriller with the highest stakes and tragic repercussions **Ansel Adams and the American**

**Landscape** Jonathan Spaulding, 1995 Spaulding provides a full biography and a critical analysis of the work of the man who introduced the general public to photography as art *Life in the Market Ecosystem* Stuart K. Hayashi, 2014-11-13 Life in the Market Ecosystem the second book in the Nature of Liberty trilogy confronts evolutionary psychology head on It describes the evolutionary psychologists theory of gene culture co evolution which states that although customs and culture are not predetermined by anyone s genetic makeup one s practice of a custom can influence the likelihood of that person having children and grandchildren Therefore according to the theory customs count as evolutionary adaptations Extending that theory further as entire systems of political economy capitalism socialism and hunter gatherer subsistence consist of multiple customs and institutions it follows that an entire political economic system can likewise be classified as an evolutionary adaptation Considering that liberal republican capitalism has insofar as the system has been implemented done more to reduce the mortality rate and secure human fertility than other models of societal structure it stands to reason that liberal republican capitalism is itself a beneficent evolutionary adaptation Moreover as essential tenets of Rand s Objectivism individualism observation based rationality and peaceable self interest have been integral to the development of the capitalist ecosystem important aspects of the Objectivism are worthwhile adaptations as well This book shall uphold that position as well as combat critiques by evolutionary psychologists and environmentalists who denounce capitalism as self destructive Instead capitalism is the most sustainable and fairest political model This book argues that of all the philosophies Objectivism is the one that is most fit for humanity **The Anatomy of Motive** John E. Douglas, Mark Olshaker, 2024-12-17 A marvelous thrilling chilling and riveting Liz Smith New York Post look at the root of crime from FBI profiler John Douglas and Mark Olshaker the authors behind Mindhunter the inspiration of Netflix s original series of the same name Every crime is a

mystery story with a motive With the insight he brought to his revolutionary work inside the FBI's elite serial crime unit John Douglas pieces together motives behind violent criminal behavior He not only takes us into the darkest recesses of the minds of arsonists hijackers bombers poisoners assassins serial killers and mass murderers but also the seemingly ordinary people who suddenly go on a shocking rampage With in depth analysis on real cases and killers such as Lee Harvey Oswald Theodore Kaczynski and Timothy McVeigh *The Anatomy of Motive* sheds light on the surprising similarities and differences among various deadly offenders More importantly it teaches us how to anticipate potential violent behavior before it's too late

**Chasing the Sun** Richard Cohen, 2011-08-04 The Sun is so powerful so much bigger than us that it is a terrifying subject Yet though we depend on it we take it for granted Amazingly the first book of its kind CHASING THE SUN is a cultural and scientific history of our relationship with the star that gives us life Richard Cohen applying the same mix of wide ranging reference and intimate detail that won outstanding reviews for *By the Sword* travels from the ancient Greek astronomers to modern day solar scientists from Stonehenge to Antarctica site of the solar eclipse of 2003 when penguins were said to sing Mexico's Aztecs to the Norwegian city of Tromsø where for two months of the year there is no Sun at all He introduces us to the crucial sunspot cycle in modern economics the religious dances of Indian tribesmen the histories of sundials and calendars the plight of migrating birds the latest theories of global warming and Galileo recording his discoveries in code for fear of persecution And throughout there is the rich Sun literature from the writings of Homer through Dante and Nietzsche to Keats Shelley and beyond Blindingly impressive and hugely readable this is a tour de force of narrative non fiction

*Cambridge on the Charles* Alan Seaburg, Thomas Dahill, Hilma Rose, 2001 [The Cases That Haunt Us](#) John Douglas, Mark Olshaker, 2012-12-25 Certain criminal cases have a life of their own Despite the passage of years they continue their hold on the public imagination either because of the personalities involved the depravity of the crime doubts over whether justice was done or the tantalizing fact that no one was ever caught Now John Douglas the foremost investigative analyst and criminal profiler of our time turns his attention to eight of the greatest mysteries in the history of crime including those of Jack the Ripper The Boston Strangler and JonBenet Ramsey Taking a fresh look at the established facts Douglas and Olshaker dismantle the conventional wisdom regarding these most notorious of crimes and rebuild them with astonishing results

[Shine](#) Krista A. Thompson, 2015-05-09 In Jamaican dancehalls competition for the video camera's light is stiff so much so that dancers sometimes bleach their skin to enhance their visibility In the Bahamas tuxedoed students roll into prom in tricked out sedans staging grand red carpet entrances that are designed to ensure they are seen being photographed Throughout the United States and Jamaica friends pose in front of hand painted backgrounds of Tupac flashy cars or brand name products popularized in hip hop culture in countless makeshift roadside photography studios And visual artists such as Kehinde Wiley remix the aesthetic of Western artists with hip hop culture in their portraiture In *Shine* Krista Thompson examines these and other photographic practices in the Caribbean and United States arguing that

performing for the camera is more important than the final image itself For the members of these African diasporic communities seeking out the camera's light whether from a cell phone Polaroid or video camera provides a means with which to represent themselves in the public sphere The resulting images Thompson argues become their own forms of memory modernity value and social status that allow for cultural formation within and between African diasporic communities
