Magpie's Children R. K. McVeigh, 2014-01-17 The Fickle Hand of Fate Dwelling on its mysteries can fill our hearts with fear When it bestows blessings upon us in an unexpected manner There is always the feeling that they can slip through our fingers Fate has blessed Karen beyond her deepest dreams and she struggles to feel secure within her new found fortunes Life direction is no longer forced upon her by the dictates of daily necessity and now she has to choose which of lifes pathways to follow for the sake of her unusually gifted children Her well founded choices bring her twin childrens extra sensory gifts to ensure that those that seek to misuse them and inexorably lead her from her life of luxury into a web of intrigue and danger that threatens her and her precious twins She is thrust into a state of affairs that forces her find new strengths and she draws upon the resilience moulded in her abusive and poverty stricken past Karen discovers that her twins have inherited their gifts from her and alongside them she cultivates their abilities so that they have the power to confront those who walk in the corridors of the highest authority What lies at the end of this pathway Will Karens family and her fortunes survive

Schooling the Child Helena Austin, Bronwyn Dwyer, Peter Freebody, 2005-08-19 What is a child How is the concept of childhood defined This book aims to explore these perennial and complex questions by looking at the way in which society constructs and understands childhood The authors focus in particular on the school a key location within which social and cultural notions of childhood are defined and performed The book is divided into three major parts Part 1 frames the accepted notions of childhood and schooling and introduces ethnomethodological analysis as a tool to rethink current versions of the child Part 2 focuses on how school students become members of a category within the institution of the classroom The authors explore this idea through transcripts of talk between teachers and students and amongst students themselves in two classroom studies Part 3 looks at the materials of education concentrating specifically on children s texts The authors examine how such texts portray a notion of the child within the story and also assume a notion of the child as reader of the story This important book shows how much is at stake for children in accepting adults deep seated notions of childhood It will be of great interest to educational researchers and policy makers sociologists of childhood teachers and student teachers
