**The Major Powers in Northeast Asian Security** Ralph A. Cossa,1996      **The Major Powers in Northeast Asian Security** Ralph A. Cossa,1996      *Major Powers in Northeast Asian Security* Ralph A. Cossa,1997-02 Addresses the future roles and interests of the four major Asia Pacific powers the U S Japan China and Russia and how their policies will affect security in Northeast Asia more specifically on the Korean Peninsula as we enter the 21st century Each of these powers is undergoing a transition of sorts In the case of of the U S and possibly Japan the changes may be more of style than substance but will impact their respective foreign policy outlooks nevertheless In the case of China and especially Russia the potential for significant change is much greater      *The Major Powers of Northeast Asia* Tae-Hwan Kwak,Edward A. Olsen,1996 The remnants of Cold War politics stand in the way of Northeast Asia s adjustment to the post Cold War era This book examines the security policies of Japan China Russia the US and Australia in the Northeast Asia region with reference to attempts to re unify the two Koreas      *Major Powers and Future Security in Northeast Asia* ,1994      *Mongolia and Northeast Asian Security* Alicia J. Campi,Jagannath Panda,2021-08-26 This book assesses Mongolia s position in the security calculus of Northeast Asia and presents the policy outlooks of major powers vis a vis the region including the United States Japan China Russia and India Ground breaking and modernistic in its approach the book treats the often marginalised and landlocked small power state of Mongolia as a critical regional actor particularly with regards to managing ties with encircling major powers Russia and China and assist in engaging the nuclear state of North Korea through dialogue mechanisms This compilation of chapters by distinguished scholars explores Mongolia in the Northeast Asian geographical space within the context of three major themes nuclear proliferation environmental security and socio economic and civilisational conflicts The book provides a multidisciplinary and multinational approach to Mongolia s role in the region s strategic landscape It moves the regional security discussion beyond major power politics North Korea s denuclearisation and the impasse on the Korean Peninsula to discuss and analyse other underappreciated challenges facing the region Considering Mongolia s role in achieving peace and stability in the neighbourhood the book will be a valuable resource for researchers and readers in International Relations Political Science and Asian Studies      **The Major Powers In Northeast Asian Security... McNair Paper 51... U.S. Department Of Defense** National Defense University,1998\*      *Security Cooperation in Northeast Asia* T.J. Pempel,Chung-Min Lee,2012-06-14 Defining and conceptualizing Northeast Asia s security complex poses unique quandaries The security architecture in Northeast Asia to date has been predominately U S dominated bilateral alliances weak institutional structures and the current Six Party Talks dealing with the North Korean nuclear issue There has been a distinct lack of desire among regional countries as well as the U S to follow in the footsteps of Europe with its robust set of multilateral institutions However since the late 1990s there has been burgeoning interest among regional states towards forming new multilateral institutions as well as reforming and revitalizing existing mechanisms Much of this effort has been

in the economic and political arenas with the creation of bodies such as the East Asian Summit but there have also been important initiatives in the security sphere This book offers detailed examinations about how this potentially tense region of the world is redefining certain longstanding national interests and shows how this shift is the result of changing power relations the desire to protect hard won economic gains as well as growing trust in new processes designed to foster regional cooperation over regional conflict Presenting new and timely research on topics that are vital to the security future of one of the world s most important geographical regions this book will be of great value to students and scholars of Asian politics regionalism international politics and security studies

dynamics of balancing patterns in the Asia Pacific this book makes a convincing contribution to the debate on the US China relationship      Middle Powers and Regional Influence Joshua B. Spero,2018-11-16 In the growing literature on middle powers this book contributes by expanding case study analysis and extending international relations theory in its application to foreign policy decisions Thus this book builds on prominent middle power literature and aims to advance our theoretical understanding for why crucial foreign policies were made by the pivotal middle powers this book examines Poland South Korea and Bolivia For this book s three case studies and their first term leadership s critical junctures from first term post communist Poland post authoritarian post ruling party South Korea and post colonial Bolivia we have the antecedents for contemporary middle powers essential for realizing the regional evolution for cooperative change with greater powers systemically we may then grasp today why those historical foreign policies albeit not so long ago give us crucial antecedents for adapting and trying yet again to resolve seemingly perennial power dilemmas regionally peacefully Here are why middle power impact matters not only regionally for stronger dominant greater power neighbours but also for transformative middle power leaderships which proved pivotal geopolitically for their region s challenges and changes      **Asian Security**

multilateralism in the Asia Pacific led primarily by ASEAN Since the Global Financial Crisis of 2008 however many non ASEAN states have attempted to seize the initiative including the USA Japan China South Korea and Australia Kai He and his contributors debate the reasons for this contested multilateralism and the impacts it will have on the region's security and political challenges Will the Indo Pacific turn be a blessing or a curse for regional stability and prosperity Using a diverse range of theoretical and empirical perspectives these leading scholars contribute views on this question and on the diverse strategies of the great and middle powers in the region This collection will be of great interest to scholars and students of international relations in the Asia Pacific and of great value to policy makers in the region and beyond *The Long Shadow*
