## **The Major Prose Of Thomas Henry Huxley:**

**The Major Prose of Thomas Henry Huxley** Thomas Henry Huxley, 1997 Thomas Henry Huxley 1825-1895 was one of the intellectual giants of Victorian England. A surgeon by training, he became the principal exponent of Darwinism and popularizer of scientific naturalism. Huxley was a prolific essayist and his writings put him at the center of intellectual debate in England during the later half of the nineteenth century. *The Major Prose of Thomas Henry Huxley* fills a very real and pressing chasm in history of science books, bringing together almost all of Huxley's major nontechnical prose, including *Man's Place in Nature* and both *Evolution in Ethics* and its *Prolegomena*. **Fifty Major Thinkers on Education** Joy Palmer, Liora Bresler, David Cooper, 2002-09-11 In this unique work, some of today's greatest educators present concise, accessible summaries of the great educators of the past. Covering a time span from 500 BC to the early twentieth century, each essay gives key biographical information, an outline of the individual's principal achievements and activities, an assessment of their impact and influence, a list of their major writings, and suggested further reading. Together with *Fifty Modern Thinkers on Education*, this book provides a unique reference guide for all students of education. [Free Will and Determinism in Joseph Conrad's Major Novels](#) Ludwig Schnauder, 2009 Preliminary Material Introduction Free Will and Determinism A Philosophical Introduction Free Will and Determinism in Nineteenth and Early Twentieth Century Britain Conrad and the Problem of Free Will *Heart of Darkness* and the Empire Machine *Nostromo* and the Mechanics of History *The Secret Agent* and the Urban Jungle Conclusion Works Cited *Thomas Henry Huxley* John Vernon Jensen, 1991 This volume presents a fresh view of Huxley's rhetorical experiences and legacy and closely analyzes his battle with orthodox theology. Careful attention is given to his reliance on three confidants: his maiden public lecture in 1852, his debate with Bishop Wilberforce in 1860, and his 1876 lecture tour of the United States. *The Cambridge History of the Gothic: Volume 2, Gothic in the Nineteenth Century* Catherine Spooner, 2020-08-06 This second volume of *The Cambridge History of the Gothic* provides a rigorous account of the Gothic in British, American, and Continental European culture from the Romantic period through to the Victorian fin de siècle. Here, leading scholars in the fields of literature, theatre, architecture, and the history of science and popular entertainment explore the Gothic in its numerous interdisciplinary forms and guises, as well as across a range of different international contexts. As much a cultural history of the Gothic in this period as an account of the ways in which the Gothic mode has participated in the formative historical events of modernity, the volume offers fresh perspectives on familiar themes while also drawing new critical attention to a range of hitherto overlooked concerns. From Romanticism to Penny Bloods, Dickens, and even the railway system, the volume provides a compelling and comprehensive study of nineteenth-century Gothic culture. **Routledge Encyclopaedia of Educational Thinkers** Joy A. Palmer, Cooper, 2016-05-20 The Routledge Encyclopaedia of Educational Thinkers comprises 128 essays by leading scholars analysing the most important, influential, innovative, and interesting thinkers on education of all time. Each of the chronologically arranged entries explores why a particular thinker is

significant for those who study education and explores the social historical and political contexts in which the thinker worked Ranging from Confucius and Montessori to Dewey and Edward de Bono the entries form concise accessible summaries of the greatest or most influential educational thinkers of past and present times Each essay includes the following features concise biographical information on the individual an outline of the individual s key achievements and activities an assessment of their impact and influence a list of their major writings suggested further reading Carefully brought together to present a balance of gender and geographical contexts as well as areas of thought and work in the broad field of education this substantial volume provides a unique history and overview of figures who have shaped education and educational thinking throughout the world Combining and building upon two internationally renowned volumes this collection is deliberately broad in scope crossing centuries boundaries and disciplines The Encyclopaedia therefore provides a perfect introduction to the huge range and diversity of educational thought Offering an accessible means of understanding the emergence and development of what is currently seen in the classroom this Encyclopaedia is an invaluable reference guide for all students of education including undergraduates and post graduates in education or teacher training and students of related disciplines

*Modern Anglophone Drama by Women* Alan P. Barr, 2007 Alan P Barr has brought together eleven world class modern plays by women that show not only their artistry but also their variety and their passion Drawn from nine different countries other than the United States and England that use English as their literary language the plays reflect the concerns of women across the globe The imagery and dramatic conventions may shift and the tones vary but the need to be strong and its difficulty the sense of a world that is anything but nurturing or ideal and the suspect nature of family life and relations are constant themes The struggle over language in countries that are very often ex colonies conveys the frequent overlap between feminist and postcolonial focuses The diversity of Englishes on stages from Singapore to South Africa is a lovely curtain call to this theater festival

*A Handbook of English Renaissance Literary Studies* John Lee, 2017-08-14 Provides a detailed map of contemporary critical theory in Renaissance and Early Modern English literary studies beyond Shakespeare A Handbook of English Renaissance Literary Studies is a groundbreaking guide to the contemporary engagement with critical theory within the larger disciplinary area of Renaissance and Early Modern studies Comprising commissioned contributions from leading international scholars it provides an overview of literary theory beyond Shakespeare focusing on most major figures as well as some lesser known writers of the period This book represents an important first step in bridging the divide between the abundance of titles which explore applications of theory in Shakespeare studies and the relative lack of such texts concerning English Literary Renaissance studies as a whole which includes major figures such as Marlowe Jonson Donne and Milton The tripartite structure offers a map of the critical landscape so that students can appreciate the breadth of the work being done along with an exploration of the ways in which the treatments of or approaches to key issues have changed over time Handbook of English Renaissance Literary Studies is must reading for

undergraduate and postgraduate students of early modern and Renaissance English literature as well as their instructors and advisors Divided into three main sections Conditions of Subjectivity Spaces Places and Forms and Practices and Theories A Handbook of English Renaissance Literary Studies Provides an overview of theoretical work and the theoretical informed competencies which are central to the teaching of English Renaissance literary studies beyond Shakespeare Provides a map of the critical landscape of the field to provide students with an opportunity to appreciate the breadth of the work done Features newly commissioned essays in representative subject areas to offer a clear picture of the contemporary theoretically engaged work in the field Explores the ways in which the treatments of or approaches to key issues have changed over time Offers examples of the ways in which the practice of a theoretically engaged criticism may enrich the personal and professional lives of critics and the culture in which such critical practice takes place

**Darwin and the Bible** Richard H. Robbins, 2015-10-05 For courses in evolution creationism or as a supplemental item in biology and or biological anthropology courses Darwin and the Bible helps readers to understand the nature history and passions behind the debate over scientific and religious versions of creation and human origins Darwin and the Bible The Cultural Confrontation is about the history and nature of the disputes over human origins that arose with the publication of Charles Darwin s book Origin of Species in 1859 The readings in the text provide the historical theological social and political backgrounds of the debate Rather than trying to demonstrate the truth of Darwinian evolution this book seeks to help the reader understand why the debate over Darwin and the Bible remains as contentious as ever The book seeks to examine why Darwin s theory of evolution appears threatening to some people and likewise to help understand why some scientists often react with such emotion to challenges to their views The contributors include biological scientists social scientists social historians and proponents of the importance of God faith and religion in peoples lives

**Nostromo**, 2021-11-15 In the century since its publication in 1904 Nostromo has taken its place among Conrad s masterpieces as a panoramic novel of revolution and a profound meditation on history and the effects of material interests on human destiny The eight new essays brought together in this volume examine the novel from various perspectives as an epic as a study in colonialism and the problem of homecoming as an exploration of free will and determinism as a textual artefact and as a reflection upon earlier works of European literature by Coleridge Pushkin and others

**Alice in Space** Gillian Beer, 2016-11-30 The award winning literary critic takes readers down the rabbit hole of Victorian cultural and intellectual influences on Lewis Carroll s Alice books In Alice s Adventures in Wonderland and Through the Looking Glass Lewis Carroll created fantastic worlds that continue to live in the minds of readers today Carroll conceived his Alice books during the 1860s a time of intense intellectual upheaval as new scientific linguistic educational and mathematical ideas flourished around the world Alice in Space explores these historic currents revealing essential context for Carroll s jokes concerns and hidden references Parody and Punch evolutionary debates philosophical dialogues educational works for children math and logic manners and rituals dream

theory and childhood studies all fueled the fireworks of Carroll's restless imagination. In this lively investigation Gillian Beer convincingly shows him at play in the spaces of Victorian cultural and intellectual life, drawing on then current controversies, reading prodigiously across many fields and writing on multiple levels to please both children and adults in different ways. With a welcome combination of learning and lightness, Beer reminds us that Carroll's books are essentially about the risks and pleasures of curiosity. Along the way, Alice in Space shares Alice's exceptional ability to spark curiosity in us too.

*Science & Society* Peter Daempfle, 2012-12-13 Written for the undergraduate majors and non majors alike taking a foundational course in science, *Science Society: Thought and Education for the 21st Century* helps students become better consumers of science by showing them how to think like a scientist. Scientific principles are infused with case studies, stories, paradoxes, poetry, medical dilemmas, and misconceptions, all through a lens of skepticism. Throughout the book, provocative science examples are provided that guide students to consider facts more critically. The author exposes readers to research methods, science philosophy, critical thinking strategies, mathematics, and history, and urges them to question data and think scientifically. End of chapter questions link to interesting content, stimulates debate and discussion in the classroom, and this engaging interdisciplinary approach to learning science leads student to real truths behind many natural phenomena. End of chapter review questions creatively stimulate discussion and span all levels of Bloom's taxonomy. The text makes science accessible to a broad range of readers and covers all of the key areas needed for a full understanding of science. Questions stimulate debate and discussion and cover science philosophy, history, mathematics, education, research methods, and critical thinking strategies. Provides models of reasoning and guidelines and practice activities for thinking critically. Presents major themes common to all scientific disciplines in a clear and readable manner for undergraduates. **The Blackwell**

**Companion to Philosophy** Nicholas Bunnin, Eric Tsui-James, 2008-04-15 This fully revised and updated edition of Nicholas Bunnin and E. P. Tsui-James' popular introductory philosophy textbook brings together specially commissioned chapters from a prestigious team of scholars writing on each of the key areas, figures, and movements in philosophy. [The Making of the Humanities, Volume III](#)

Rens Bod, Jaap Maat, Thijs Weststeijn, 2025-10-01 This comprehensive history of the humanities focuses on the modern period, 1850-2000. The contributors, including Floris Cohen, Lorraine Daston, and Ingrid Rowland, survey the rise of the humanities in interaction with the natural and social sciences, offering new perspectives on the interaction between disciplines in Europe and Asia, and new insights generated by digital humanities. *The Making of Modern Science*

David Knight, 2013-04-26 Of all the inventions of the nineteenth century, the scientist is one of the most striking. In revolutionary France, the science student taught by men active in research was born, and a generation later, the graduate student doing a PhD emerged in Germany. In 1833, the word scientist was coined; forty years later, science increasingly specialised, was becoming a profession. Men of science rivalled clerics and critics as sages; they were honoured as national treasures and buried in state funerals. Their new ideas invigorated the life of the mind. Peripatetic congresses great

exhibitions museums technical colleges and laboratories blossomed and new industries based on chemistry and electricity brought prosperity and power economic and military Eighteenth century steam engines preceded understanding of the physics underlying them but electric telegraphs and motors were applied science based upon painstaking interpretation of nature The ideas discoveries and inventions of scientists transformed the world lives were longer and healthier cities and empires grew societies became urban rather than agrarian the local became global And by the opening years of the twentieth century science was spreading beyond Europe and North America and women were beginning to be visible in the ranks of scientists Bringing together the people events and discoveries of this exciting period into a lively narrative this book will be essential reading both for students of the history of science and for anyone interested in the foundations of the world as we know it today

**Newman in the Story of Philosophy** D. J. Pratt Morris-Chapman, 2021-07-01 Saint John Henry Newman is widely acknowledged to be an important theologian Despite this Newman commentators believe that his work has received little recognition by philosophers This book explores whether or not Newman s supposed philosophical isolation constitutes a misconception in Newman historiography First of all it does this by examining Newman s general philosophical reception over the last two centuries surveying a wide range of philosophical positions and philosophers from the many different branches of this discipline The book then focuses upon whether or not Newman has made a contribution to one specific philosophical position seldom given attention within Newman scholarship the particularist approach to epistemology In its investigations into this and the other more general dimension of Newman s philosophical reception the book offers an historical re evaluation of Newman s philosophical legacy

**Shapes of Time in British Twenty-First Century Quantum Fiction** Sonia Front, 2015-09-04 This book addresses the notion of time and temporality and its various conceptualizations in the theories of the new physics utilized as a thematic and formal framework in the British novel of the twenty first century As the Newtonian conception of reality does not provide a reliable framework within which to situate human experience and generate meaning fiction writers have recognized quantum mechanics as a potent source from which to draw in search of new metaphors The quantum has become a part of the understanding of reality and its concepts and assumptions have been absorbed into the textual structure and content of literary fiction Shapes of Time in British Twenty First Century Quantum Fiction examines human temporality as mediated by the timeshapes imagined within the context of the new physics and explores the philosophical implications for human temporality and identity of situating an individual within the realm of physical time Its chapters deal with various concepts of the new physics connected with temporality and their appropriation in a selected novel parallel universes in Andrew Crumey s Sputnik Caledonia 2008 eternal recurrence and Poincar s theorem in David Mitchell s Cloud Atlas 2004 chaos theory in Samantha Harvey s The Wilderness 2009 and the end of time in Scarlett Thomas s The End of Mr Y 2006 Each of them corresponds to a different conceptual shape of time tree concertina spiral and snapshot respectively which is enacted on the formal level Analyzing the new time constructs in a narrative this book thus

uncovers passages between scientific and humanistic standpoints and reveals quantum fiction to be an effective tool for visualizing the subjective non homogenous experience of private time

**The Philosophy of Enchantment** R. G. Collingwood, 2005 This is the long awaited publication of a set of writings by the British philosopher historian and archaeologist R G Collingwood on critical anthropological and cultural themes only hinted at in his previously available work At the centre of the book are six chapters of a study of folktale and magic composed by Collingwood in the mid 1930s and intended for development into a book Here Collingwood applies the principles of his philosophy of history to problems in the long term evolution of human society and culture This is preceded in Part I by a range of contextualizing material on such topics as the relations between music and poetry the nature of language the value of Jane Austen's novels the philosophy of art and the relations between aesthetic theory and artistic practice Part III of the volume consists of two essays one on the relationship between art and mechanized civilization and the second written in 1931 on the collapse of human values and civilization leading up to the catastrophe of armed conflict These offer a devastating analysis of the consequences that attend the desertion of liberal principles indeed of all politics as such in the ultimate self annihilation of military conquest The volume opens with three substantial introductory essays by the editors authorities in the fields of critical and literary history social and cultural anthropology and the philosophy of history and the history of ideas they provide their explanatory and contextual notes to guide the reader through the texts The Philosophy of Enchantment brings hitherto unrecognized areas of Collingwood's achievement to light and demonstrates the broad range of Collingwood's intellectual engagements their integration and their relevance to current areas of debate in the fields of philosophy cultural studies social and literary history and anthropology

**Did Darwin Write the Origin Backwards?** Elliott Sober, 2011-03-31 Is it accurate to label Darwin's theory the theory of evolution by natural selection given that the concept of common ancestry is at least as central to Darwin's theory Did Darwin reject the idea that group selection causes characteristics to evolve that are good for the group though bad for the individual How does Darwin's discussion of God in The Origin of Species square with the common view that he is the champion of methodological naturalism These are just some of the intriguing questions raised in this volume of interconnected philosophical essays on Darwin The author's approach is informed by modern issues in evolutionary biology but is sensitive to the ways in which Darwin's outlook differed from that of many biologists today The main topics that are the focus of the book common ancestry group selection sex ratio and naturalism have rarely been discussed in their connection with Darwin in such penetrating detail Author Professor Sober is the 2008 winner of the Prometheus Prize This biennial award established in 2006 through the American Philosophical Association is designed to honor a distinguished philosopher in recognition of his or her lifetime contribution to expanding the frontiers of research in philosophy and science This insightful collection of essays will be of interest to philosophers biologists and laypersons seeking a deeper understanding of one of the most influential scientific theories ever propounded

**The Ashgate Research Companion to**

**Modern Imperial Histories** John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
