## **The Making Of A Missionary:**

The Making of a Missionary J. Herbert Kane, 1975 The Making of a Missionary is a superb orientation to what the Christian missionary will encounter in today's world setting. Although the book candidly presents the obstacles and difficulties that a missionary must overcome, the overall impact is positive. It will spur the recruitment of career missionaries among young people. It will enlighten their thinking as well as fire their enthusiasm. The contents include: 1. The Making of a Missionary: Myths Regarding Missions; What is a Missionary? How Important Is a Call? 2. The Measure of the Man: Hang-ups Regarding Missionary Life; Obstacles to a Missionary Career; Qualifications for Missionary Service. 3. The Magnitude of the Task; Developing Trends; Opposing Forces; Unlimited Opportunities; The Unfinished Task. **The Making of a Missionary** Jay McLaughlin, 2009-12 This book is loaded with knowledge and wisdom that will help make mission work more understandable and successful. There is excitingly detailed mission life events and well categorized need to know mission knowledge. *The Making of a Missionary* H. Drew Johns, 2009\* **Making of a Missionary** Robert D Patton, 2022-11 The goals of Volume V are to assist the missionary in successfully arriving on the mission field and remaining there with an effective ministry. Two major problems in recruitment and deployment of missionaries are the great length of time missionaries are on deputation and the 50% attrition rate for return to the field after the first term of service. This volume addresses both issues. Beginning with the call of the missionary, there is a detailed discussion of deputation and a smaller section on mission boards. Many missionaries are not able to successfully adapt to the foreign field. A substantial section of the book on cultural anthropology outlines many of the adjustments for the missionary as well as the symptoms and treatment of culture shock. There is a short review of the importance of worldview in approaching evangelism and a brief section on the missionary's adaptation upon returning to the USA. **Congregational Missions and the Making of an Imperial Culture in Nineteenth-Century England** Susan Thorne, 1999 This book explores the missionary movement's influence on popular perceptions of empire and race in nineteenth century England The foreign missionary endeavor was one of the most influential of the channels through which nineteenth century Britons encountered the colonies and because of their ties to organized religion foreign missionary societies enjoyed more regular access to a popular audience than any other colonial lobby Focusing on the influential denominational case of English Congregationalism this study shows how the missionary movement's audience in Britain was inundated with propaganda designed to mobilize financial and political support for missionary operations abroad propaganda in which the imperial context and colonized targets of missionary operations figured prominently In her attention to the local social contexts in which missionary propaganda was disseminated the author departs from the predominantly cultural thrust of recent studies of imperialism's popularization She shows how Congregationalists made use of the language and institutional space provided by missions in their struggles to negotiate local relations of power In the process the missionary project was implicated in some of the most important developments in the social history of nineteenth century Britain the popularization of organized religion and its subsequent decline the emergence and evolution of a language of class the gendered making of a middle class and the strange death of British liberalism
