The Making Of Homeric Verse The Collected Papers Of Milman Parry:

The Making of Homeric Verse Milman Parry, Adam Parry, 1987 This volume collects for the first time the works articles M A thesis dissertations and journal extracts of Milman Parry whose death at thirty three brought to a precipitous end the career of one of the leading classical scholars of our century **The making of Homeric verse** Milman Parry, 1980 *An Oral-Formulaic Study of the Qur'an* Andrew G. Bannister, 2014-04-24 The Qur'an makes extensive use of older religious material stories and traditions that predate the origins of Islam and there has long been a fierce debate about how this material found its way into the Qur'an This unique book argues that this debate has largely been characterized by a failure to fully appreciate the Qur'an as a predominately oral product Using innovative computerized linguistic analysis this study demonstrates that the Qur'an displays many of the signs of oral composition that have been found in other traditional literature When one then combines these computerized results with other clues to the Qur'an's origins such as the demonstrably oral culture that both predated and preceded the Qur'an as well as the folk memory in the Islamic tradition that Muhammad was an oral performer these multiple lines of evidence converge and point to the conclusion that large portions of the Qur'an need to be understood as being constructed live in oral performance Combining historical linguistic and statistical analysis much of it made possible for the first time due to new computerized tools developed specifically for this book Bannister argues that the implications of orality have long been overlooked in studies of the Qur'an By relocating the Islamic scripture firmly back into an oral context one gains both a fresh appreciation of the Qur'an on its own terms as well as a fresh understanding of how Muhammad used early religious traditions retelling old tales afresh for a new audience

Oral Tradition and Synoptic Verbal Agreement T M Derico, 2017-09-28 Synoptic pericopae is a reliable indicator of literary borrowing by the Synoptic Evangelists In *Oral Tradition and Synoptic Verbal Agreement* T M Derico presents a critical assessment of that claim through a consideration of the most recent empirical evidence concerning the kinds and amounts of verbal agreement that can be produced among independent performances of oral traditions Why Homer Matters Adam Nicolson, 2014-11-18 Adam Nicolson writes popular books as popular books used to be a breeze rather than a scholarly sweat but humanely erudite elegantly written passionately felt and his excitement is contagious James Wood The New Yorker Adam Nicolson sees the Iliad and the Odyssey as the foundation myths of Greek and our consciousness collapsing the passage of 4 000 years and making the distant past of the Mediterranean world as immediate to us as the events of our own time Why Homer Matters is a magical journey of discovery across wide stretches of the past sewn together by the poems themselves and their metaphors of life and trouble Homer's poems occupy as Adam Nicolson writes a third space in the way we relate to the past not as memory which lasts no more than three generations nor as the objective accounts of history but as epic invented after memory but before history poetry which aims to bind the wounds that time inflicts The Homeric poems are among the oldest stories we have drawing on deep roots in the Eurasian steppes beyond the

Black Sea but emerging at a time around 2000 B C when the people who would become the Greeks came south and both clashed and fused with the more sophisticated inhabitants of the Eastern Mediterranean The poems which ask the eternal questions about the individual and the community honor and service love and war tell us how we became who we are

Homer and the Poetics of Gesture Alex C. Purves, 2019 This book draws on studies of movement gesture and early film to offer a series of readings on repetition through the body in Homer Each chapter presents an argument based on a specific posture action or gesture falling running leaping standing and crouching through which to rethink epic practices of embodiment and formularity *The Traditional Phrase in Homer* Richard Sacks, 1987 This study attempts to bridge the now classic gap between fixed form and functioning context which continues to limit our understanding of the Homeric phrase The first part of the study uses the presence of Homeric phrases in other Greek poetry especially the notoriously Homeric Theognis 237 254 to help identify potentially significant phrases The second part considers the epithets of Hector in an attempt to re examine Parry s notion of traditional fixed epithets and their importance for understanding the Iliad and the Odyssey The author offers original interpretations of the workings of the traditional phrase in Homer and also of Theognis 237 254 and of the Iliad s much debated characterization of Hector Along the way Sacks suggests how his method may help with other problems including contested emendations in Homer the relationship of the Iliad and the Odyssey and the relationship between epic and other genres The central concern of the book however is the traditional artistry of Homer

Chronology, Dialect, and Style in Early Greek Hexameter Poetry Tom McConnell, 2024-12-20 Early Greek hexameter poetry and its language is the focus of this book and McConnell addresses the question of why the Greek in which this poetry is composed is so special and unique in ancient literature It has long been maintained that various features of the artificial dialect of the poems gradually fell out of use as time went by and therefore that we can use the poems language to date the texts This book takes a deep dive into the linguistic features in question and the wider problems in extrapolating chronology from their distribution all while advocating for the importance of statistical rigour Part I contains five chapters which are devoted to different linguistic phenomena and problems in quantifying them are set out in each Part II argues that chronology is just one part of a much wider picture and that not only dialect but also style is a highly salient factor in understanding language variation throughout the poems This notion of style is linked to the linguistic concept of register and it is argued that the prehistory of different kinds of poetry led to the creation of different registers for different sub genres within the corpus McConnell therefore takes a linguistic approach to understanding the literary history of early Greek hexameter poetry *Narrative Threads* Jeffrey Quilter, Gary Urton, 2010-07-05 The Inka Empire stretched over much of the length and breadth of the South American Andes encompassed elaborately planned cities linked by a complex network of roads and messengers and created astonishing works of architecture and artistry and a compelling mythology all without the aid of a graphic writing system Instead the Inkas records consisted of devices made of knotted and dyed strings called khipu

on which they recorded information pertaining to the organization and history of their empire Despite more than a century of research on these remarkable devices the khipu remain largely undeciphered In this benchmark book twelve international scholars tackle the most vexed question in khipu studies how did the Inkas record and transmit narrative records by means of knotted strings The authors approach the problem from a variety of angles Several essays mine Spanish colonial sources for details about the kinds of narrative encoded in the khipu Others look at the uses to which khipu were put before and after the Conquest as well as their current use in some contemporary Andean communities Still others analyze the formal characteristics of khipu and seek to explain how they encode various kinds of numerical and narrative data *Jesus*

Tradition in the Apostolic Fathers Stephen E. Young, 2011 This dissertation reevaluates the tradition of Jesus sayings in the Apostolic Fathers in light of the growing recognition of the impact of orality upon early Christianity and its writings At the beginning of the last century it was common to hold that the Apostolic Fathers made wide use of the canonical Gospels While a number of studies have since called this view into question many of them simply replace the theory of dependence upon canonical Gospels with one of dependence upon other written sources No full scale study of Jesus tradition in the Apostolic Fathers has been published which takes into account the last four decades of new research into oral tradition in the wake of the pioneering work of Milman Parry and Albert Lord Based on this new research the present dissertation advances the thesis that an oral traditional source best explains the form and content of the explicit appeals to Jesus tradition in the Apostolic Fathers that predate 2 Clement In the course of the discussion attention is drawn to the ways in which the Jesus tradition in the Apostolic Fathers informs our understanding of the use of oral tradition in Christian antiquity *Ancient Greek Dialects and Early Authors* D. Gary Miller, 2013-12-12 Epic is dialectally mixed but Ionic at its core The proper dialect for elegy was Ionic even when composed by Tyrtaeus in Sparta or Theognis in Megara both Doric areas Choral lyric poets represent the major dialect areas Aeolic Sappho Alcaeus Ionic Anacreon Archilochus Simonides and Doric Alcman Ibycus Stesichorus Pindar Most distinctive are the Aeolic poets The rest may have a preference for their own dialect some more than others but in their Lesbian veneer and mixture of Doric and Ionic forms are to some extent dialectally indistinguishable All of the ancient authors use a literary language that is artificial from the point of view of any individual dialect Homer has the most forms that occur in no actual dialect In this volume by means of dialectally and chronologically arranged illustrative texts translated and provided with running commentary some of the early Greek authors are compared against epigraphic records where available from the same period and locality in order to provide an appreciation of the internal history of the Ancient Greek language and its dialects the evolution of the multilectal artificial poetic language that characterizes the main genres of the most ancient Greek literature especially Homer epic with notes on choral lyric and even the literary language of the prose historian Herodotus the formulaic properties of ancient poetry especially epic genres the development of more complex meters colometric structure and poetic conventions and the basis for decisions about text editing and the selection

of a manuscript alternant or emendation that was plausibly used by a given author *Performances of Ancient Jewish Letters* Marvin Lloyd Miller, 2015-09-16 This ambitious and engaging book sets itself the task of combining a wide range of approaches to cast new light on the form and function of several ancient Jewish letters in a variety of languages The focus of *The Performance of Ancient Jewish Letters* is on applying a new emerging field of performance theory to texts and arguing that letters and other documents were not just read in silence as is normal today but were performed especially when they were addressed to a community A distinctive feature of this book consists of being one of the first to apply the approach of performance criticism to ancient Jewish letters Previous treatments of ancient letters have not given enough consideration to their oral context however this book prompts the reader to listen sympathetically with the audience The Performance focuses close attention on the ways in which the engagement of the audience during the performance of a text might be read from traces present in the text itself This book invites the audience to hear a fresh reading of a family letter from Hermopolis concerning ugly tunics and castor oil festal letters about issues surrounding the celebration of Passover Purim and Hanukkah a diaspora letter on how to live in a foreign land and also an official letter concerning the building of the Jerusalem temple These letters will help us understand a text from the Dead Sea Scrolls namely MMT Marvin L Miller argues for the centrality of performance in the life of Jews of the Second Temple period an area of study that has been traditionally neglected The Performance advances the fields of orality and epistolography and supplements other scholars works in those fields

Following the Formula in Beowulf, Örvær-Odds saga, and Tolkien Michael Fox, 2020-09-21 Following the Formula in Beowulf rvar Odds saga and Tolkien proposes that Beowulf was composed according to a formula Michael Fox imagines the process that generated the poem and provides a model for reading it extending this model to investigate formula in a half line a fitt a digression and a story pattern or folktale including the Old Norse Icelandic rvar Odds saga Fox also explores how J R R Tolkien used the same formula to write *Sellic Spell* and *The Hobbit* This investigation uncovers relationships between oral and literate composition between mechanistic composition and author and between listening and reading audiences arguing for a contemporary relevance for Beowulf in thinking about the creative process The Mortal Hero Seth L. Schein, 2023-04-28 From the Preface This book is addressed mainly to non specialist readers who do not know Greek and who read study or teach the Iliad in translation it also is meant for classical scholars whose professional specialization has prevented them from keeping abreast of recent work on Homer It is grounded in technical scholarship to which it constantly refers and is intended to contribute and I hope that even Homeric specialists will find ideas and interpretations to interest them I have tried to present clearly what seem to me the most valuable results of modern research and criticism of the Iliad while setting forth my own views My goal has been to interpret the poem as much as possible on its own mythological religious ethical and artistic terms The topics and problems I focus on are those that have arisen most often and most insistently when I have thought the poem in translation and in the original as I have done every year since 1968 This book is

a literary study of the Iliad I have not discussed historical archaeological or even linguistic questions except where they are directly relevant to literary interpretation Throughout I have emphasized what is thematically ethically and artistically distinctive in the Iliad in contrast to the conventions of the poetic tradition of which it is an end product This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1985 From the Preface This book is addressed mainly to non specialist readers who do not know Greek and who read study or teach the Iliad in translation it also is meant for classical scholars whose professional specialization has prevented them from keeping

Medieval Studies and the Computer Anne Gilmour-Bryson, 2014-05-19 *Medieval Studies and the Computer* focuses on the use of computers in medieval studies and humanities research Topics covered range from encoding and concordancing texts to the use of conceptual glossaries by medievalists as well as the use of computers for compiling Middle English lexicography and the Wisconsin Dictionary of the Old Spanish Language A computer analysis of metrical patterns in the epic Beowulf and of Notker Labeo's Old High German is also presented Comprised of 26 chapters this volume begins by discussing contexts in concordances and the set of conventions employed in text encoding The reader is then introduced to the series of initiatives undertaken in Belgium to study Latin literature and linguistics the use of conceptual glossaries by medieval scholars and the use of the computer to make a word list of the Decretum Gratiani and to study Geoffrey Chaucer's vocabulary Subsequent chapters discuss a computer program called KLIC Key Letter In Context for graphological analysis a set of routines written in SAIL Stanford Artificial Intelligence Language for use by social historians in quantitative analysis or text processing and the use of Mark IV a general purpose file management system to analyze medieval charters This book will be of interest to medievalists social historians students and scholars of humanities and computer scientists

The Poetic Art of Aldhelm Andy Orchard, 1994-04-07 Aldhelm of Malmesbury has been described as the first English man of letters He was the first Germanic author to compose extensively in Latin metrical verse and his Latin works were amongst the most influential in Anglo Saxon England Aldhelm can also be considered the best read of Anglo Saxon poets in both senses of the phrase he read most and was most read In this first book length study of Aldhelm's poetic art Andy Orchard traces the sources and models for Aldhelm's idiosyncratic style as well as the nature and extent of his influence on later Anglo Latin verse Aldhelm's innovations in Latin verse technique are emphasized in particular his special debt to the specific techniques of Old English vernacular verse
