Straight Lick J. Ronald Green, 2000-09-22 A critical examination of the films of Oscar Micheaux One of the most original and successful filmmakers of all time Oscar Micheaux was born into a rural working class African American family in mid America in 1884 yet he created an impressive legacy in commercial cinema Between 1913 and 1951 he wrote directed and distributed some forty three feature films more than any other black filmmaker in the world a record of production that is likely to stand for a very long time Micheaux's work was founded upon the concern for class mobility or uplift for African Americans Uplift provided the context for Micheaux's extensive commentary on racist cinema such as D W Griffith's 1915 blockbuster *The Birth of a Nation* which Micheaux answered with his very early films *Within Our Gates* and *Symbol of the Unconquered* Uplift explains Micheaux's use of negative images of African Americans as well as his multi pronged campaign against stereotype and caricature in American culture His campaign produced a body of films saturated with a nuanced intertextual signifying boldly and repeatedly treating controversial topics that face white censorship time after time topics

ranging from white mob and Klan violence to light skin color fetish to white financing of black cultural productions

Blackface, White Noise Michael Rogin, 1996-06-01 The tangled connections that have bound Jews to African Americans in popular culture and liberal politics are at the heart of Michael Rogin's arresting and unnerving book. Looking at films from *Birth of a Nation* to *Forrest Gump*, Rogin explores blackface in Hollywood films as an aperture to broader issues: the nature of white identity in America, the role of race in transforming immigrants into Americans, the common experiences of Jews and African Americans that made Jews key supporters in the fight for racial equality, and the social importance of popular culture. Rogin's forcefully argued study challenges us to confront the harsh truths behind the popularity of racial masquerade.

The Black Female Body in American Literature and Art Caroline Brown, 2013-02-28 This book examines how African American writers and visual artists interweave icon and inscription in order to represent the black female body traditionally rendered alien and inarticulate within Western discursive and visual systems. Brown considers how the writings of Toni Morrison, Gayl Jones, Paule Marshall, Edwidge Danticat, Jamaica Kincaid, Andrea Lee, Gloria Naylor, and Martha Southgate are bound to such contemporary postmodern visual artists as Lorna Simpson, Carrie Mae Weems, Kara Walker, Betye Saar, and Faith Ringgold. While the artists and authors rely on radically different media—photos, collage, video, and assembled objects—as opposed to words and rhythm, both sets of intellectual activists insist on the primacy of the black aesthetic. Both assert artistic agency and cultural continuity in the face of the oppression, social transformation, and cultural multiplicity of the late twentieth and early twenty-first centuries. This book examines how African American performative practices mediate the tension between the ostensibly de-racialized body politic and the hyper-racialized black female body, reimagining the cultural and political ground that guides various articulations of American national belonging. Brown shows how and why black women writers and artists matter as agents of change, how and why the form and content of their works must be recognized and reconsidered in the increasingly frenzied arena of cultural production and political debate.

The Modern Playmate John George Wood, 1875 Charting the Afrofuturist Imaginary in African American Art Elizabeth Carmel Hamilton, 2022-08-12 This book examines Afrofuturism in African American art, focusing specifically on images of black women and how those images expand the discourse of representation in visual culture of the United States. This volume defines a visual language of Afrofuturism that includes materiality, temporality, and black liberation. Elizabeth Hamilton discusses the visual progenitors of Afrofuturism in the artworks of Pierre Bennu, Sanford Biggers, Alison Saar, Mequitta Ahuja, Robert Pruitt, Renee Cox, Dawolu Jabari, Anderson Alma Thomas, and Harriet Powers. The fantastic narratives of Afrofuturism are uncovered through in-depth case studies. These case studies engage with Afrofuturism as a black feminist visual theory that helps to unburden the images of black women from the stereotypical visual scripts that are so common in contemporary visual culture of the United States. The book will be of interest to scholars working in art history, visual studies, American literature, gender studies, popular culture, and African American studies.

origins of her public image and its substantial influence on politics entertainment and popular opinion Contributors address praise from her many supporters and weigh criticisms from her detractors Winfrey s ability to create a feeling of intimacy with her audience has long been cited as one of the foundations of her popularity She has repeatedly made national headlines by engaging and informing her audience with respect to her personal relationships to race gender feminism and New Age culture The Oprah Phenomenon explores these relationships in detail At the root of Winfrey s message to her vast audience is her assertion that anyone can be a success regardless of background or upbringing The contributors scrutinize this message What does this success entail Is the motivation behind self actualization in fact merely the hope of replicating Winfrey s purchasing power Is it just a prescription to buy the products she recommends and heed the advice of people she admires or is it a lifestyle change of meaningful spiritual benefit The Oprah Phenomenon asks these and many other difficult questions to promote a greater understanding of Winfrey s influence on the American consciousness Beyond The Chinese Connection Crystal S. Anderson, 2013-06 Examines the rise of post 1970s Afro Asian cultural production that embodied the aspirations and contradictions entailed in forging Black Asian identification and solidarity
