The Manchester Guardian David Ayerst,1971 History of The Manchester Guardian and the people associated with it
Manchester Guardian ,1956 *Debrett's Bibliography of Business History* Stephanie Zarach,1987-06-18

International Bibliography of Business History Francis Goodall,Terry Gourvish,Steven Tolliday,2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook The International Bibliography of Business History brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians *The Manchester Guardian* William Haslam Mills,1922 **Making News** Richard R. John,Jonathan Silberstein-Loeb,2015 This book charts the rise and fall of the newspaper as the primary medium for the conveyance of news The book focuses on two of the most influential media markets in the modern world Great Britain and the United States between 1688 and 1995 In 1688 Parliament created institutional arrangements that would hasten the rise of the newspaper as the dominant medium for the circulation of news In 1995 the National Science Foundation commercialized the Internet encouraging an astonishing proliferation of information on all manner of topics including the news Per capita newspaper circulation had been declining for decades partly due to shifting social norms and partly due to the rise of broadcast news The Internet exacerbated this trend partly because it provided a cheaper news source and partly because it quickly became a superior vehicle for advertising a major source of revenue for newspaper publishers for over two hundred years However only rarely has advertising revenue and direct sales covered costs Almost never has the demand for news generated the revenue necessary for its supply Non market institutional arrangements have ranged from direct government subsidies to organizational forms that enabled news organizations to cooperate From a historical perspective the large profits reaped by a handful of newspaper publishers in the post Second World War era were anomalous and in no sense a baseline for public policy Never again will the newspaper be the dominant news medium To guarantee an informed citizenry in the future it is necessary to understand how the news business worked in the past This book is organized around eight essays each written by a distinguished specialist and each explicitly comparative Its theme is the indispensability in both Great Britain and the United States of non market institutional arrangements in the provisioning of news **The British Press and the Greek Crisis, 1943-1949** Gioula Koutsopanagou,2020-02-01 This book provides the first detailed analysis of how interactions between government policy and Fleet Street affected the political coverage of

the Greek civil war one of the first major confrontations of the Cold War During this period the exponential growth of media influence was an immensely potent weapon of psychological warfare Throughout the 1940s the press maintained its position as the most powerful medium and its influence remained unchallenged The documentary record shows that a British media consensus was more fabricated than spontaneous and the tools of media persuasion and manipulation were extremely important in building acceptance for British foreign policy Gioula Koutsopanagou examines how this media consensus was influenced and molded by the British government and how Foreign Office channels were key to molding public attitudes to British foreign policy These channels included system of briefings given by the News Department to the diplomatic correspondents and the contacts between embassies and the British foreign correspondents **Current Biography** ,1948

The Darkest Days Douglas Newton,2014-08-12 The centenary of the outbreak of the First World War may be commemorated by some as a great moment of national history But the standard history of Britain s choice for war is far from the truth Using a wide range of sources including the personal papers of many of the key figures some for the first time historian Douglas Newton presents a new dramatic narrative He interleaves the story of those pressing for a choice for war with the story of those resisting Britain s descent into calamity He shows how the decision to go to war was rushed in the face of vehement opposition in the Cabinet and Parliament in the Liberal and Labour press and in the streets There was no democratic decision for war The history of this opposition has been largely erased from the record yet it was crucial to what actually happened in August 1914 Two days before the declaration of war four members of the Cabinet resigned in protest at the war party s manipulation of the crisis The government almost disintegrated Meanwhile large crowds gathered in Trafalgar Square to hear the case for neutrality and peace Yet this cry was ignored by the government Meanwhile elements of the press the Foreign Office and the Tory Opposition sought to browbeat the government into a quick decision Belgium had little to do with it The key decision to enter the war was made before Belgium was invaded Those bellowing for hostilities were eager for Britain to enter any war in solidarity with Russia and France for the future safety of the British Empire In particular Newton shows how Prime Minister H H Asquith Foreign Minister Sir Edward Grey and First Lord of the Admiralty Winston Churchill colluded to pre empt the decisions of Cabinet to manipulate the parliament and to hurry the nation toward intervention by any means necessary **A History of the British Sporting Journalist, c.1850-1939** Stephen

Tate,2020-02-24 At the heart of this text strides James Catton less than five feet tall but a giant in the field of sporting journalism It is the story of his career from boy reporter in 1870s Lancashire to editor of the influential Manchester based weekly Athletic News and then grand old man of Fleet Street sports writing in the 1920s and 30s The book also presents the story of others too the first journalists to turn action into news as raw carnivalesque violent pastimes were replaced by codified and commercialised games Detailing the history of their trade the book searches for the roots of sports journalism pushing for the first time the newspaper reporter to the foreground in the shared history of the press and sport Editorial

recruitment training writing styles pay status rivalry and camaraderie technology celebrity the press box the player reporter and drinking culture are all examined as are the values men like Catton claimed sport at its best represented Journalism, Science and Society Martin W. Bauer, Massimiano Bucchi, 2008-07-25 Analyzing the role of journalists in science communication this book presents a perspective on how this is going to evolve in the twenty first century The book takes three distinct perspectives on this interesting subject Firstly science journalists reflect on their operating rules science news values and news making routines Secondly a brief history of science journalism puts things into context characterising the changing output of science writing in newspapers over time Finally the book invites several international journalists or communication scholars to comment on these observations thereby opening the global perspective This unique project will interest a range of readers including science communication students media studies scholars professionals working in science communication and journalists English History, 1914-1945 Alan John Percivale Taylor, 1965 During ten of the 31 years between 1914 and 1945 the English people were involved in world wars for 19 of the years they lived in the shadow of mass unemployment These themes and the politics which sprang from them shape the narrative of this book **The National Union Catalogs, 1963-**, 1964 **The Manchester Guardian** William Haslam Mills, 1922 **Pleasure Wars** Peter Gay, 1998 Whereas Education of the Senses focused on the sexual attitudes and practices of the nineteenth century Bourgeoisie The Tender Passion concentrates on their notions of love No less revisionist than he was in his first volume Gay argues here that the Victorians were able not only to enjoy their sexuality but to know love in its most exalted sense The realities of love for the Victorians he shows came much closer to their ideals than many have thought Gay delves into a huge body of material from philosophical treatises to medical texts from letters and diaries to works of fiction The book is replete with fascinating insights into the lives and works of individual Victorians Dickens Stendhal Wagner Oscar Wilde Beatrice Potter and Sydney Webb among them and his discussions range from the discovery of homosexuality to the ways love was diverted or disguised in music and religion **English History 1914-1945** A. J. P. Taylor, 1965-10-21 During ten of the 31 years between 1914 and 1945 the English people were involved in world wars for 19 of the years they lived in the shadow of mass unemployment These themes and the politics which sprang from them shape the narrative of this book **Modern England, 1901-1984** Alfred F. Havighurst, 2004-07-08 The most comprehensive bibliography of printed books articles and standard texts on twentieth century England **Framing China** Ariane Knüsel, 2016-04-15 Framing China sheds new light on Western relations with and perceptions of China in the first half of the twentieth century In this ground breaking book Ariane Knüsel examines how China was portrayed in political debates and the media in Britain the USA and Switzerland between 1900 and 1950 By focusing on the political economic cultural and social context that led to the construction of the particular images of China in each country the author demonstrates that national interests anxieties and issues influenced the way China was framed and resulted in different portrayals of China in each country The author's meticulous analysis of a

vast amount of newspaper and magazine articles commentaries editorials cartoons and newsreels that have previously not been studied before also focuses on the transnational circulation of images of China While previous publications have dealt with the occurrence of the Yellow Peril and Red Menace in particular countries Framing China reveals that these images were interpreted differently in every nation because they both reflected and contributed to the discursive construction of nationhood in each country and were influenced by domestic issues cultural values pre existing stereotypes pressure groups and geopolitical aspirations

Capitalism's Conscience Des Freedman, 2021-04-20 A lively and well researched history and critique Jonathan Steele former Chief Foreign Correspondent for the Guardian Since its inception in Manchester in 1821 as a response to the 1819 Peterloo Massacre the Guardian has been a key institution in the definition and development of liberalism The stereotype of the Guardianista an environmentally conscious Labour voting progressively minded public sector worker endures in the popular mythology of British press history Yet the title has a complex lineage and occupies an equivocal position between capital and its opponents It has both fiercely defended the need for fearless independent journalism and handed over documents to the authorities it has carved out a niche for itself in the UK media as a progressive voice but has also consistently diminished more radical projects on the left Published to coincide with its 200th anniversary Capitalism's Conscience brings together historians journalists and activists in an appraisal of the Guardian's contribution to British politics society and culture and its distinctive brand of centrism Contextualising some of the main controversies in which the title has been implicated the book offers timely insights into the publication's history loyalties and political values
