The Manifesto Of Entrepreneurial Democracies

João M. Paraskeva, Thad LaVallee

The Manifesto Of Entrepreneurial Democracies:

The Manifesto of Entrepreneurial Democracies Alexandre Raab, 1989-10-01 **The Manifesto of Entrepreneurial Democracies** Alexandre Raab, 1989 **Comparing New Democracies** Enrique A. Baloyra, 2019-04-09 The transition to democracy has been a significant trend in Mediterranean Europe and Latin America during the last ten years This book presents comparative analyses that offer a theoretical synthesis of the dynamics of recent democratization processes on both sides of the Atlantic The contributors argue that transition is a response to fundamental *Transformative Researchers and Educators for Democracy* João M. Paraskeva, Thad LaVallee, 2015-02-27 The 2012 Critical Transformative Educational Leadership and Policy Annual Conference hosted by the University of Massachusetts Dartmouth met head on with issues of neoliberalism educational democracy cultural politics public education and seeing teachers and administrators as critical transformational leaders This book is a collection of the highlights of that conference that addresses these arenas of debate from the presentations of Deborah Meier Ken Saltman Clyde Barrow and Joao Rosa among others to the works of emerging academics and intellectuals in the field of education The book to serve as an antidote to such ill informed thinking before it becomes a part of the cultural commonsense much the way the manufactured realities of high stakes testing standardization and police guarded schools have become normative It is urgent to learn to accurately read reality in a world in which language and discourse are being resignified to confuse people and turn reality into a board game a world which large corporations and global financial powers play the role of the old mythological gods creators of dogmas and flamboyant realities that they want us to submit and worship This volume is an outcome of an important political critical transformative pedagogical project that challenges the lethal consequences of the impact of neoliberal policies in education We need to welcome Paraskeva and LaVallee's contribution since it offers a crucial tool to help us articulate accurately a critical diagnosis as well as solutions for a more just and democratic public education that cultivates humanity Jurjo Torres Santom University of Corunha Spain This new collection *Transformative Researchers and Educators for Democracy* Dartmouth Dialogues is one of the most impressive outcomes of a critical transformative program at the University of Massachusetts Dartmouth Jo o M Paraskeva and Thad LaVallee provide their readers with a careful selection of chapters that explore the idea of critical and transformative leadership for a democratic conception of education focusing on a range of related themes in understanding the dimensions of cultural and organizational change A crucial volume focusing on aspects of the critique of neoliberal globalization in education and a needed book that insightfully combines critique and robust analysis with a utopian and positive agenda for critical transformation Michael A Peters University of Waikato NZ and University of Illinois Urbana Champaign USA This edited volume is the result of an amazing critical transformative program in educational leadership and policy studies chaired by Jo o M Paraskeva Paraskeva and LaVallee produced an important contribution to a timely topic that provides clear evidences that the free market model of education it is not a hope for good public education This book is not

only important to US educators but it is really crucial for educators all over the world What is analyzed in this book is taking place in Europe Asia Latin America Africa and the Middle East Alvaro Moreira Hypolito University Federal de Pelotas Brasil

The Routledge Handbook of Collective Intelligence for Democracy and Governance Stephen Boucher, Carina Antonia Hallin, Lex Paulson, 2023-06-19 The Routledge Handbook of Collective Intelligence for Democracy and Governance explores the concepts methodologies and implications of collective intelligence for democratic governance in the first comprehensive survey of this field Illustrated by a collection of inspiring case studies and edited by three pioneers in collective intelligence this handbook serves as a unique primer on the science of collective intelligence applied to public challenges and will inspire public actors academics students and activists across the world to apply collective intelligence in policymaking and administration to explore its potential both to foster policy innovations and reinvent democracy The Routledge Handbook of Collective Intelligence for Democracy and Governance is essential reading and an authoritative reference for scholars students researchers and practitioners of public policy public administration governance public management information technology and systems innovation and democracy as well as more broadly for political science psychology management studies public organizations and individual policy practitioners public authorities civil society activists and service providers Visit the handbook's dedicated website Smarter Together for complementary material

Democracy as Problem Solving Xavier De Souza Briggs, 2008-07-18 Case studies from around the world and theoretical discussion show how the capacity to act collectively on local problems can be developed strengthening democracy while changing social and economic outcomes Complexity division mistrust and process paralysis can thwart leaders and others when they tackle local challenges In *Democracy as Problem Solving* Xavier de Souza Briggs shows how civic capacity the capacity to create and sustain smart collective action can be developed and used In an era of sharp debate over the conditions under which democracy can develop while broadening participation and building community Briggs argues that understanding and building civic capacity is crucial for strengthening governance and changing the state of the world in the process More than managing a contest among interest groups or spurring deliberation to reframe issues democracy can be what the public most desires a recipe for significant progress on important problems Briggs examines efforts in six cities in the United States Brazil India and South Africa that face the millennial challenges of rapid urban growth economic restructuring and investing in the next generation These challenges demand the engagement of government business and nongovernmental sectors And the keys to progress include the ability to combine learning and bargaining continuously forge multiple forms of accountability and find ways to leverage the capacity of the grassroots and what Briggs terms the grassroots regardless of who initiates change or who participates over time Civic capacity Briggs shows can and must be developed even in places that lack traditions of cooperative civic action *Dance of Democracy* E Sudhakar, 2023-08-31 This is a general narration of the entire drama of the elections in the largest democracy of the world India Being a slugfest intended to

decide who should sit in the seat of power it attracts a lot of attention within and outside the country and ropes in a number of enthusiastic actors big and small and rakes up a lot of din and dust throwing up money and material in the process The general elections are quinquennial affair in India and every time they are held they create a lot of commotion and hype throughout the country This time around i e in 2019 this battle of ballots provided a colourful intensely absorbing and juicy drama which was not witnessed on previous occasions with some exceptions There were many players in the arena with an ardent desire to seize power including the incumbent prime minister Mr Narendra Modi and others like Mamata Banerjee Mayawati K Chandrashekharao Sharad Pawar Arvind Kejriwal Deve Gowda and of course the Gandhi scion Rahul The array of the political stalwarts everyone having with an axe to grind and everyone exuding fierce instinct and confidence to fight the sworn enemy viz the Bharatiya Janata Party and its top leader and Prime Minister Narendra Modi made it a saga of grand proportions As every election brings some lessons messages and some experiences to guide the political leaders people and the scholars this story of 2019 elections is a piece of brief political history that can guide to assess the past and prove to be an instrument of reality check to the political parties its leaders and the people The Workshop of Democracy James

MacGregor Burns,1985

Eduard Bernstein on Social Democracy and International Politics Eduard

Bernstein,2018-05-04 This book presents three later works by the German social democratic thinker and politician Eduard Bernstein translated into English in full for the first time Social Democracy and International Politics Social Democracy and the European Question League of Nations or League of States and International Law and International Politics The Nature Questions and Future of International Law Written at the height of WW1 they address the abrupt collapse of international socialist cooperation after its outbreak and outline a vision for peace in Europe and beyond Bernstein argues for an ethical democratic approach to international relations governed by a corpus of international law and safeguarded by an international union dedicated to preserving peoples right to self determination He is sceptical of the state centrism of early 20th century liberal proposals for developing strong international institutions while also deeply critical of militarist and imperialist political leaders and thinkers for preventing even these limited proposals from being realised Instead in these works Bernstein urges social democrats to campaign for a system of international economic legal and cultural relations that he calls the republic of peoples and he explores themes of patriotism class struggle diplomacy and free trade that still carry resonance today **Protest and Democracy** Claudius Wagemann,Toma Burean,Dan Mercea,Lorenzo Mosca,Christina

Neumayer,2025-02-11 This book offers an interdisciplinary analysis of the interplay between protest and institutions during an era of multiple crises in Denmark Germany Hungary Italy Romania and the UK Focusing on the interaction between citizens social movements and movement parties and questions of democratic quality related to participation competition and responsiveness it considers the role of traditional and social media when connecting institutional and non institutional arenas Building on insights from political science sociology and communication studies it combines an original cross national survey

interviews media analysis document analysis statistical analytical techniques critical discourse analysis social network analysis and natural language processing in a comparative perspective

Creativity, Innovation and Entrepreneurship Evangelos Markopoulos, Ravindra S. Goonetilleke and Yan Luximon, 2022-07-24 Creativity Innovation and Entrepreneurship Proceedings of the 13th International Conference on Applied Human Factors and Ergonomics AHFE 2022 July 24 28 2022 New York USA

Political Entrepreneurship Josef Lentsch, 2018-11-20 This book demonstrates how political entrepreneurs entrepreneurially minded citizens who launch innovative political start ups can drive political change Building on unique insights rich examples and personal stories of centrist political entrepreneurs distilled from 40 in depth interviews the author guides readers through key stages of political entrepreneurship and shows how to master them By equally highlighting successes and failures the book reveals how political entrepreneurs actually go about producing transformative political change In light of the populist challenge and the decline of traditional political parties the book also offers an entertaining backstage view and first hand insights into the successes of En Marche in France Ciudadanos in Spain NEOS in Austria and other centrist political startups It provides practical advice on how to learn from and replicate their successes Political practitioners and other politically interested readers will find a useful theory of Political Entrepreneurship what it is how it works and what its role is in 21st century democracies Most of all they will find essential reproducible tools and methods You have read a lot about startups in business but if you want to know how Silicon Valley style startups look in politics read this Its author is not only writing about political entrepreneurs he is one of them Ivan Krastev Chairman of the Centre for Liberal Strategies in Sofia and permanent Fellow at the Institute of Human Sciences in Vienna No one understands better what it takes to take a political start up from ideation to the parliament than Josef Lentsch In Political Entrepreneurship he combines first hand experience with a thoughtful review of what we know about entrepreneurship in the interest of society Johanna Mair Professor of Organization Strategy and Leadership at the Hertie School of Governance and Co Director Global Innovation for Impact Lab at Stanford University Josef Lentsch has produced a fascinating commanding guide to the new insurgent players shaking up traditional party systems and reinvigorating liberal politics Political Entrepreneurship is essential reading for anyone who wants to understand today s fragmented and disrupted European politics and the European politics of the future Jeremy Cliffe Charlemagne columnist The Economist The rarest of events has occurred a new political species has appeared in the European eco system the centrist political start up From Macron s En Marche in France to Spain s Ciudadanos a new type of political actor has emerged Few are better positioned to tell this Europe wide story than Josef Lentsch who has had a front seat view on this important political transformation that is shaking Europe A dramatic and important account Daniel Ziblatt Eaton Professor of Government Harvard University and co author of How Democracies Die

Degenerations of Democracy Craig Calhoun, Dilip Parameshwar Gaonkar, Charles Taylor, 2022-05-17 Degenerations of democracy Contradictions and double movements Neoliberalism and the social

foundations of democracy Authenticity and meritocracy Making the demos safe for democracy The structure of democratic degenerations and the imperative of direct action What is to be done **The Internet and Democracy in Global**

Perspective Bernard Grofman, Alexander H. Trechsel, Mark Franklin, 2014-07-08 This volume provides an important update to our current understanding of politics and the internet in a variety of new contexts both geographically and institutionally The subject of e democracy has morphed over the years from speculative and optimistic accounts of a future heightened direct citizen involvement in political decision making and an increasingly withered state apparatus to more prosaic investigations of party and governmental website content and micro level analyses of voters online activities Rather than levelling the communications and participation playing field most studies concluded that existing patterns of bias and power distribution were being repeated online with the one exception of a genuine change in the potential for protest and e activism Across all of these accounts the question remains whether the internet is a levelling communication tool that elevates the profile of marginalised players in the political system or whether it is a medium that simply reinforces existing power and participatory biases While employing case studies from various global perspectives this book investigates the role of digital media and competitive advantage campaigns and the effect of social media online communication as way of fomenting nonviolent revolutions and the undeniable and important role of the internet on democracy around the world **Respect**

and Economic Democracy Luk Bouckaert, Pasquale Arena, 2010 **Democratic Society and Human Needs** Jeff Noonan, 2006-10-25 As anti globalization protests show the public is searching for ways to explain and rethink material inequity between developed democracies and those across the development divide Jeff Noonan provides a strategy for analyzing these issues *The Making and Unmaking of Democracy* Theodore K. Rabb, Ezra N. Suleiman, 2013-11-26 For every citizen of the world there is no more urgent issue than the spread of democracy Democracy is what the WTO protestors are calling for it s the main concern of human rights advocates and it s only long term way to end terrorism But how does democracy spread What can be done to encourage and support This remarkable new collection brings together some of the best minds in variety of fields to discuss the conditions that promote and sustain or undermine and extinguish democratic institutions and ideas Spanning political thought from ancient Athens to contemporary sub Saharan Africa the contributors develop an outline of how democracy develops Several key factors emerge Democratic transitions are always heavily shaped by the ideas and practices of past regimes like tribal traditions in Africa international political and economic pressure to liberalize as in Asia and current economic conditions The quality of democracy is almost always improved by the elimination of religion as the center of the state by the move from democracy as protection of the individual from the state to democracy as enhancer of rights and by the progression from a focus on the individual to a focus on the community Expansive in its coverage and fundamental in its significance *The Making and Unmaking of Democracy* is a volume to learn from argue against and expand upon **Food Democracy** Oliver Vodeb, 2017-08-01 In a world where privatisation and capitalism

dominate the global economy the essays in this book ask how to make socially responsive communication design and art that counters the role of the food industry as a machine of consumption Food Democracy brings together contributions from leading international scholars and activists critical case studies of emancipatory food practices and reflections on possible models for responsive communication design and art A section of visual communication works creative writings and accounts of participatory art for social and environmental change curated by the Memefest Festival of Socially Responsive Communication and Art on the theme of Food Democracy are also included here The beautifully designed book also includes a unique and delicious compilation of socially engaged recipes by the academic artist and activist community Aiming not just to advance scholarship but to push ahead real change in the world Food Democracy is essential reading for scholars and citizens alike

A Democracy of Chameleons Harri Englund, 2002 After thirty years of autocratic rule under Life President Kamuzu Banda Malawians experienced a transition to multi party democracy in 1994 A new constitution and several democratic institutions promised a new dawn in a country ravaged by poverty and injustice This book presents original research on the economic social political and cultural consequences of the new era A new generation of scholars most of them from Malawi cover virtually every issue causing debate in the New Malawi poverty and hunger the plight of civil servants the role of the judiciary political intolerance and hate speech popular music as a form of protest clergy activism voluntary associations and ethnic revival responses to the HIV AIDS pandemic and controversies over women s rights Both chameleon like leaders and the donors of Malawi s foreign aid come under critical scrutiny for supporting superficial democratization The book ends with a rare public statement on the New Malawi by Jack Mapanje Malawi internationally acclaimed writer

Growth, Crisis, Democracy Hideko Magara, Bruno Amable, 2017-07-14 Since the global financial crisis of 2008 advanced economies have been making various efforts to overcome the economic impasse While the contrast between the countries that have escaped from the crisis relatively quickly and those still suffering from serious problems is becoming clearer a new economic crisis stemming from newly emerging economies has again impacted advanced economies In retrospect both leftist and rightist governments in advanced economies pursued expansive macroeconomic and welfare policies from the post WWII period to the oil shocks of the 1970s While we recognise that the particular policy regime in this Golden Decades during which the left and the right implemented similar policies cross nationally were characterised by outstanding economic growth in each country the specific growth patterns varied across countries Different social coalitions underpinned different growth models This book is premised on tentative conclusions that Magara and her research collaborators have reached as a result of three years of study related to our previous project on economic crises and policy regimes Recognising the need to analyse fluid and unstable situations we have set up a new research design in which we emphasise political variables whether political leaders and citizens can overcome the various weaknesses inherent in democracy and escape from an economic crisis by establishing an effective social coalition A new policy regime can be stable

only if it is supported by a sufficiently large coalition of social groups whose most important policy demands are satisfied within the new policy regime
