The Many Faces Of Socialism Comparative Sociology And Politics:

The Many Faces of Socialism Paul Hollander, 1983-01-01 Dealing with topics and perspectives generally neglected by American sociologists Hollander focuses on the nature of socialism and the reasons for Marxism's appeal among Western intellectuals In his new introduction to updated essays never before published in book form he also addresses issues of enduring interest in both socialist and pluralistic societies These include relationships between the private and the public techniques of social and political control the timeless tension between professed value and observed behavior and the way systems struggle for a sense of purpose in the contemporary world

The Grandeur and Twilight of Radical Universalism Agnes Heller, Ferenc Fehér, 1991-01-01 This volume provides theoretical construction to the extraordinary events that resulted in the collapse of communism worldwide The authors attribute a great deal of the problems of totalitarianism to its blind acceptance of a Marxist philosophy of practice With the failure of communist practice the collapse of the Marxist paradigm was quick to follow At its roots this volume is a critique of the idea that we can have scientific knowledge of the social and political future

Socialism as a Secular Creed Andrei Znamenski, 2021-01-29 Andrei Znamenski argues that socialism arose out of activities of secularized apocalyptic sects the Enlightenment tradition and dislocations produced by the Industrial Revolution He examines how by the 1850s Marx and Engels made the socialist creed scientific by linking it to history laws and inventing the proletariat the chosen people that were to redeem the world from oppression Focusing on the fractions between social democracy and communism Znamenski explores why historically socialism became associated with social engineering and centralized planning He explains the rise of the New Left in the 1960s and its role in fostering the cultural left that came to privilege race and identity over class Exploring the global retreat of the left in the 1980s 1990s and the great neoliberalism scare Znamenski also analyzes the subsequent renaissance of socialism in wake of the 2007 2008 crisis

The Soviet Past in the Post-Socialist Present Melanie Ilic, Dalia Leinarte, 2015-07-03 This collection examines practical and ethical issues inherent in the application of oral history and memory studies to research about the Soviet Union and Eastern Europe since the collapse of the Soviet bloc Case studies highlight the importance of ethical good practice including the reflexive interrogation of the interviewer and researcher and aspects of gender and national identity Researchers use oral history to analyze present day recollections of the Soviet past thereby extending our understanding beyond archival records official rhetoric and popular mythology Oral history explores individual life stories but this has sometimes resulted in rather incomplete incoherent inconsistent or illogical narratives Oral history therefore presents the researcher with a number of methodological and ethical dilemmas including the interpretation of silence in biographical accounts This collection links the discussion of oral history ethics with that of memory studies Memories are shaped by factors that may be simultaneously both consecutive and disrupted In written accounts and responses to interview questions respondents sometimes display nostalgia for the Soviet past or conversely may seek to de

mythologize the realities of Soviet rule Case studies explore what to do when interview subjects and memoirists consciously sub consciously or unconsciously forget aspects of their own past or themselves seek to take control of the research process

Problems of Communism, 1991 **The Soviet Union** Aron Katj, si, ienelinboÄgen, Political change in the Soviet Union never seemed more likely than in the period of glasnost and perestroika The Soviet Union 1917 1991 examines some of the less well explored areas of Soviet political and economic life to develop a feasible set of alternatives for future Soviet development and to establish which ones the system is predisposed to select Katsenelinboigen takes on these difficult questions Is it wise to develop glasnost in ways that allow masses to participate in the solution of strategic national problems Can Soviet military expenses be reduced only to direct ones or is the whole Soviet economy military oriented What explains widespread corruption among Soviet officials Can market institutions be introduced into the Soviet economy and if so how is this best accomplished Rather than focusing on a single dimension such as authoritarianism versus democracy his analysis incorporates multidimensional perspectives among them pluralism division of powers and openness participation of competent and responsible people in decision making which permit a more precise understanding of the limits of present options and allow him to develop new policy prospects Although this book is about the Soviet Union the approaches Katsenelinboigen uses have application in other contexts His discussion of inflation for example and why it is found in planned as well as market economies has important implications for many developing countries It will be of interest to those who seek a new perspective on events in the Soviet Union as well as specialists in international relations political science and economics

Two Koreas in Development Byoung-Lo Philo Kim, The startling revolutions of recent years have had as great an impact on Northeast Asia as on Eastern Europe Gorbachev s cautious withdrawal of support for North Korea and his establishment of ties with South Korea have created a need for a new research agenda exploring how communism and capitalism in Asia can be successfully restructured or redirected in a new world order Focused on systemic issues this book is the first study to attempt a comprehensive analysis of social and economic development in modern Korea as a whole As a homogeneous nation artificially divided by the competing ideologies of the Cold War Korea provides a unique laboratory for comparing divergent development processes undertaken by conflicting social systems Current theories of Third World development have advocated either capitalist models of modernization or have called for the establishment of self reliant socialist economies cut off from the world capitalist system While capitalist South Korea has consistently outperformed Communist North Korea since the mid 1970s development has not yet brought a fully evolved West em style democracy in its wake Self reliant North Korea achieved successful growth during its first fifteen years but has since been faced with numerous structural limitations on sustained development including severe restrictions on political freedom and civil liberties In the author s view the experience of the two Koreas suggests that the solution to underdevelopment must be based on the realization that exclusionary theories need modification in the light of special historical and sociological circumstances

Chall,2002 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers *The State, Bureaucracy, And The Cuban Schools* Sheryl L. Lutjens,2019-05-29 In the mid 1980s Cuba began a process of rectification a reform process that has bucked the trends of economic and political liberalization that are reshaping the global order Sustaining an official commitment to socialism in the face of economic crisis and international pressures Cuba s survival seems puzzling indeed Sheryl Lutjens uses the C **Performance Art in the Second Public Sphere** Katalin Cseh-Varga,Adam Czirak,2018-02-01 Performance Art in the Second Public Sphere is the first interdisciplinary analysis of performance art in East Central and Southeast Europe under socialist rule By investigating the specifics of event based art forms in these regions each chapter explores the particular critical roles that this work assumed under censorial circumstances The artistic networks of Yugoslavia Hungary Latvia Lithuania Poland Romania East Germany and Czechoslovakia are discussed with a particular focus on the discourses that shaped artistic practice at the time drawing on the methods of Performance Studies and Media Studies as well as more familiar reference points from art history and area studies **Special Bibliography Series** ,1957 **Air University Library Index to Military Periodicals** ,1986 **Susan Sontag** Leland Poague,Kathy A.
