Sketches Of Life In Chile 1841 1851:

Sketches of Life in Chile, 1841-1851 José Joaquín Vallejo, 2002-10-17 Writing under the pseudonym Jotabeche José Joaquín Vallejo wrote forty one short articles on Chilean life and society in the early republic. Known for their caustic wit his writings were an instant success when they were first published in Chilean magazines and newspapers. This volume presents these vivid essays for the first time in English. Vallejo made famous the style of writing termed costumbrista sketches and vignettes of society and local customs. He focused on the Norte Chico or the mining zone of Copiapó where he was born and where he lived most of his later life. His essays include vivid studies of mineworkers, the advancement of modernity in the steamships at Caldera, the religiously intensely cultural province of Copiapó and the general atmosphere of liberalism beginning to pervade the country of Chile during that time. Considered the founder of his country's genuinely national literature, he is the first creative writer of stature to emerge in Chile after the country's wars of independence. A provincial northerner, his writings give a sense of what these parts of Chile looked and felt like during the years of the early Chilean republic and are consequently of ultimate value.

Latin America and the Origins of Its Twenty-First Century Michael Monteón, 2009-12-30 Latin American societies were created as pre industrial colonies that is peoples whose cultures and racial makeup were largely determined by having been conquered by Spain or Portugal. In all these societies a colonial heritage created political and social attitudes that were not conducive to the construction of democratic civil societies. And yet Latin America has a public life not merely governments but citizens who are actively involved in trying to improve the lives and welfare of their populations. Monteón focuses on the relation of people's lifestyles to the evolving pattern of power relations in the region. Much more than a basic description of how people lived, this book melds social history, politics and economics into one, creating a full picture of Latin American life. There are two poles or markers in the narrative about people's lives: the cities and the countryside. Cities have usually been the political and cultural

centers of life from the conquest to the present Monteon concentrates on cities in each chronological period allowing the narrative to explain the change from a religiously centered life to the secular customs of today from an urban form organized about a central plaza and based on walking to one dominated by the automobile and its traffic Each chapter relates the connections between the city and its countryside and explains the realities of rural life Also discussed are customs diets games and sports courting and marriage and how people work Recollections of a Provincial Past Domingo Faustino Sarmiento,2005 Domingo Faustino Sarmiento 1811 1888 was Argentina s leading writer educator and politician of the nineteenth century and served as President from 1868 to 1874 Of his several autobiographies the best known Recollections of a Provincial Past is one of the indisputable classics of Spanish American literature as well as one of the earliest autobiographies written in the Americas in Spanish Written in exile in 1850 the memoirs describe his childhood and adolescence in an Andean province whose customs were still those of a colony Sarmiento presents his life as the triumph of civilization over barbarism looking back on his youth he measures his wealth and strength by the accumulation of enriching personal and political experiences He compares himself to the newly independent Argentina claiming to be a historically representative individual whose trajectory seves to illuminate contemporary South America **The Cambridge**
