**F. Scott Fitzgerald in the Marketplace** Matthew Joseph Bruccoli, Judith Baughman, 2009 As a student in the 1950s Matthew J Bruccoli began collecting books by F Scott Fitzgerald a practice that culminated in the development of the Matthew J and Arlyn Bruccoli Collection of F Scott Fitzgerald at the University of South Carolina an unrivaled research archive of materials by and relating to the now celebrated author In F Scott Fitzgerald in the Marketplace Bruccoli chronicles Fitzgerald's posthumous rise in literary reputation and the corresponding rise in collectibility of all things Fitzgerald as evidenced by listings from auction house and antiguarian bookseller catalogues Of keen interest to bibliophiles and scholars of American literature this volume serves as a thoughtful examination of the revival of interest in Fitzgerald s life and work over the past seven decades Women and Gender in Central and Eastern Europe, Russia, and Eurasia Mary Fleming Zirin, 2007 This text documents the economic development of East Asian countries in order to highlight the beneficial techniques used to increase growth Socialist and capitalist structures are discussed complete with an analysis of the future extent of interaction between East Asian countries **Countering Violent Extremism** Elizabeth Pearson, Emily Winterbotham, Katherine E. Brown, 2021-02-15 This book presents original research on gender and the power dynamics of diverse forms of violent extremism and efforts to counter them Based on focus group and interview research with some 250 participants in Canada France Germany the Netherlands and UK in 2015 and 2016 it offers insights from communities affected by radicalisation and violent extremism It introduces the concept of gendered radicalisation exploring how the multiple factors of paths to violent extremist groups social local individual and global can differ for both men and women and why The book also offers a critical analysis of gender and terrorism a summary of current policy in the five countries of study and some of the core gendered assumptions prevalent in interventions to prevent violent extremism a comparison of Jihadi extremism and the far right and a chapter of recommendations This book is of use to academics policy makers students and the general reader interested in better understanding a phenomenon defining our times East European Accessions Index

,1958 AB Bookman's Weekly ,1993 Creating a Transatlantic Marketplace Michelle P. Egan, 2005-07-22 Looking at the current state of the EU US trade relationship this text studies attempts at economic integration and cooperation arguing that it can provide information about the evolution of new policies and practices to manage the transatlantic economy Air Transportation Industry Handbook Volume 1 Strategic Information and Important Regulations IBP, Inc., 2010-10-27 2011 Updated Reprint Updated Annually US Air Transportation Handbook Regulations and Business Opportunities Routledge Handbook of Transport Economics Jonathan Cowie, Stephen Ison, 2017-08-07 The Routledge Handbook of Transport Economics offers the first state of the art overview of the discipline of transport economics as it stands today reflective of key research and policy Transport is an important area of study and one which is problem rich stimulating a great deal of debate in areas which impact on everyday lives Much of this focuses on the practicalities of the modern day phenomenon of mass movement and all of the issues which surround it The discipline of economics is central to this debate and consequently the study and application of transport economics has a chief role to play in seeking to address subjects relating to major transport issues It can be argued that at the very heart of any transport issue or problem lies the underlying economics of the situation understand that and you alleviate the problem Featuring contributions from world leading scholars and practitioners from across the globe all of the chapters within this book are written from a practical perspective theory is applied and developed using real world examples. The book examines concepts issues ideas and practicalities of transport provision in five key topic areas public transport public transport reform economic development and transport modelling transport and the environment freight transport A real strength of the book is in linking theory to practice and hence the economics that are examined in this text are not the economics of the abstract but rather the economics of everyday living Practical and insightful this volume is an essential reference for any student or researcher working in all areas of transport provision ranging from planning appraisal regulation and freight and for all practitioners looking to develop their professional knowledge and who are seeking professional accreditation East European Accessions List Library of Congress. Anderson, 2024 A Caliphal Daedalus examines connections between science and visual culture during the early Islamic scientific revolution of the caliphal age 650 1250 CE It takes as its point of departure the figure of Abbas Ibn Firnas d 887 the most famous scientist and polymath of early Islamic Spain The book considers his scientific activities as these intersected with design and craft culminating in the aeronautics experiment for which he is best known today as these are recounted in the Muqtabis the chronicle compiled by the Cordoban court historian Ibn Hayyan d 1076 It calls into question notions that medieval Islamic artisans and designers were anonymous individuals working outside elite social and intellectual circles. The key passages from the chronicle are presented in English translation including the oldest and most authoritative source for the aeronautics experiment The Arabic texts are examined in tandem with the earliest Islamic scientific instruments especially astrolabes and illustrated Arabic treatises of astronomy and engineering preserved in museums and libraries around the globe The book argues for a medieval Islamic court culture in which design and making were central to scientific intellectual pursuits and which may have shaped the culture of the Italian Renaissance
