Victorian Skin Pamela K. Gilbert, 2019-03-15 In *Victorian Skin* Pamela K. Gilbert uses literary philosophical medical and scientific discourses about skin to trace the development of a broader discussion of what it meant to be human in the nineteenth century Where is subjectivity located How do we communicate with and understand each other's feelings How does our surface which contains us and presents us to others function and what does it signify As Gilbert shows for Victorians the skin was a text to be read Nineteenth century scientific and philosophical perspectives had reconfigured the purpose and meaning of this organ as more than a wrapping and instead a membrane integral to the generation of the self Victorian writers embraced this complex perspective on skin even as sanitary writings focused on the surface of the body as a dangerous point of contact between self and others Drawing on novels and stories by Dickens Collins Hardy and Wilde among others along with their French contemporaries and precursors among the eighteenth century Scottish thinkers and German idealists Gilbert examines the understandings and representations of skin in four categories as a surface for the sensing and expressive self as a permeable boundary as an alienable substance and as the site of inherent and inscribed properties At the same time Gilbert connects the ways in which

Victorians read skin to the way in which Victorian readers and subsequent literary critics read works of literature and historical events especially the French Revolution From blushing and flaying to scarring and tattooing Victorian Skin tracks the fraught relationship between ourselves and our skin Written Under the Skin Carli Coetzee,2019 In this book the author argues that a younger generation of South Africans is developing important and innovative ways of understanding South African pasts and that challenge the narratives that have over the last decades been informed by notions of forgiveness and reconciliation The author uses the image of history rich blood to explore these approaches to intergenerational memory Blood under the skin is a carrier of embodied and gendered histories and using this image the chapters revisit older archives as well as analyse contemporary South African cultural and literary forms The emphasis on blood challenges the privileged status skin has had as explanatory category in thinking about identity and instead emphasises intergenerational transfer and continuity The argument is that a younger generation is disputing and debating the terms through which to understand contemporary South Africa as well as for interpreting the legacies of the past that remain under the visible layer of skin The chapters each concern blood Mandela s prison cell as laboratory for producing bloodless freedom the kinship relations created and resisted in accounts of Eugene de Kock in prison Ruth First s concern with information leaks in her accounts of her time in prison the first human to human heart transplant and its relation to racialised attempts to salvage white identity the Fallist moment Abantu book festival and activist scholarship and creative art works that use blood as trope for thinking about change and continuity Carli Coetzee is Editor of the Journal of African Cultural Studies Her publications include *Accented Futures Language Activism and the Ending of Apartheid* Wits University Press 2013 and the edited collection *Afropolitanism Reboot* Routledge 2017 She co edited *The Handbook of African Literature* Routledge 2019 with Moradewun Adejunmobi and *Negotiating the Past The Making of Memory in South Africa* Oxford University Press 1998 with Sarah Nuttall Southern Africa South Africa Namibia Lesotho Zimbabwe and Swaziland Wits University Press

Wild Animal Skins in Victorian Britain Ann C. Colley, 2016-02-11 What did the 13th Earl of Derby his twenty two year old niece Manchester's Belle Vue Zoo and even some ordinary laborers all have in common All were avid collectors and exhibitors of exotic and frequently unruly specimens In her study of Britain's craze for natural history collecting Ann C Colley makes extensive use of archival materials to examine the challenges preoccupations and disordered circumstances that attended the amassing of specimens from faraway places only vaguely known to the British public As scientific institutions sent collectors to bring back exotic animals and birds for study and classification by anatomists and zoologists it soon became apparent that collecting skins rather than live animals or birds was a relatively more manageable endeavor Colley looks at the collecting exhibiting and portraying of animal skins to show their importance as trophies of empire and representations of identity While a zoo might display skins to promote and glorify Britain's colonial achievements Colley suggests that the reality of collecting was characterized more by chaos than imperial order For example Edward Lear's commissioned illustrations of the Earl of Derby's extensive collection challenge the colonial's or collector's commanding gaze while the Victorian public demonstrated a yearning to connect with their own wildness by touching the skins of animals Colley concludes with a discussion of the metaphorical uses of wild skins by Gerard Manley Hopkins and other writers exploring the idea of skin as a locus of memory and touch where one's past can be traced in the same way that nineteenth century mapmakers charted a landscape Throughout the book Colley calls upon recent theories about the nature and function of skin and touch to structure her discussion of the Victorian fascination with wild animal skins *Robert Burton and the*

Transformative Powers of Melancholy Stephanie Shirilan, 2016-03-03 Few English books are as widely known underread and underappreciated as Robert Burton's *The Anatomy of Melancholy* Stephanie Shirilan laments that modern scholars often treat the *Anatomy* as an unmediated repository of early modern views on melancholy overlooking the fact that Burton is writing a cento an ancient form of satire that quotes and misquotes authoritative texts in often subversive ways and that his express intent in so doing is to offer his readers literary therapy for melancholy This book explores the ways in which the *Anatomy* dispenses both direct physic and more systemic medicine by encouraging readers to think of melancholy as a privileged mental and spiritual acuity that requires cultivation and management rather than cure Refuting the prevailing historiography of anxious early modern embodiment that cites Burton as a key witness Shirilan submits that the *Anatomy* rejects contemporary Neostoic and Puritan approaches to melancholy She reads Burton's erraticism opacity and theatricality as modes of resistance against demands for constancy transparency and plainness in the popular literature of spiritual and moral hygiene of his day She shows how Burton draws on rhetorical theological and philosophical traditions that privilege the
