Germany's First Ally Charles K. Kliment, Bfietislav Nakládal, 1997 Slovakia split from Czechoslovakia and formed its own state on March 14 1939 The Slovak State was born under the auspices of Hitler's Third Reich and became its first ally on September 1 1939 when it took part in the invasion of Poland The Slovak army inherited its weapons equipment training manuals and its doctrine from the defunct Czechoslovak Army Though hampered by a shortage of specialists in its air force armored units and artillery it managed to field several division sized units and sustain them during the initial three years of combat on the Eastern front Its Mobile division fought its way all the way from the Carpathian Mountains to the Caucasus In the last years of the war the Slovak people became more and more disillusioned with the war and with their own semi fascist government These feelings led to mounting desertions in the fighting units and culminated in the Slovak National Uprising in August 1944 Though the uprising was liquidated after two months of bitter fighting it gave the Slovak nation the right to join the victorious allies and be accepted back into the restored Czechoslovakia Though the Slovak army was by far the smallest of the armies of Germany's allies on the Eastern front it was part of this grandiose clash of titans and deserves thus a place in the history of the Second World War This book describes in detail the composition dislocation and equipment of all branches of the Slovak army infantry artillery armored and air force and its operational history through the war years

Verdun 1916 H. W. Kaufmann, J. E. Kaufmann, 2016-07-31 Wrapped in myth and distortion the Battle of Verdun is one of the most enigmatic battles of the Great War and the controversy continues a century later Before the battle the Germans believed they had selected one of the strongest points in the French defences in the hope that if they smashed through it the French would collapse But Verdun was actually a hollow shell since its forts were largely disarmed and the trench lines were incomplete So why did the Germans fail to take Verdun As well as seeking to answer this fundamental question the authors of this perceptive new study

reconsider other key aspects of the battle the German deployment of stormtroopers the use of artillery and aircraft how the French developed the idea of methodical battle which came to dominate their military thought after the war They look too at how Verdun brought about a renaissance of fortress engineering that resulted in the creation of the Maginot Line and the other fortifications constructed in Europe before the Second World War [American Book Publishing Record](#) ,1997-09
