Colonialism, 1945-1962 José Pedro Monteiro, 2022-11-22 This volume addresses the ways the native labour question in the Portuguese late colonial empire in Africa became a recurrent topic of international and transnational debate and regulation after the Second World War. As other European colonial empires were tentatively transforming their labour and social policies in the aftermath of the war, the Portuguese Empire in Africa resisted significant changes in this domain, preserving a strict dual labour regime. As a result, a growing number of individuals, networks and institutions abroad engaged with labour and social realities in Portuguese African colonies, giving origin to a series of instances of denunciation of labour related abuses. Portuguese authorities responded to these initiatives by selectively engaging with international norms, languages and mechanisms. However, as global decolonisation gained momentum, international and transnational events and processes would significantly constrain Portuguese imperial and colonial decision making procedures, with the aim of retaining the empire. Therefore, the native labour question became in its own right a crucial political and diplomatic element of the broader struggles over the meaning of Portuguese imperial legitimacy. As this volume argues, these historical processes are critical to properly understanding the history of Portuguese late colonialism and its protracted trajectory of decolonisation.

The Law and Slavery Jean Allain, 2015-05-19 The Law and Slavery sets out the articles, book reviews and case notes by Professor Jean Allain, which led to pioneering exploration of forced labour, servitudes, slavery, the slave trade and trafficking in his 2013 *Slavery in International Law: Of Human Exploitation and Trafficking* (MNP). This collection brings together Professor Allain's considerations of the evolution of legal abolition internationally, his critique of the then status quo in the area of slavery and the law, and goes on to develop the foundations of a legal understanding of various servitudes and slavery based on his archival research and legal analysis. Professor Allain's research has transformed the landscape of how we understand contemporary slavery and those other servitudes which constitute human exploitation.
