Soldiers On The Steppe Army Reform And Social Change In Early Modern Russia

Eric Lohr, Marshall Poe

Soldiers On The Steppe Army Reform And Social Change In Early Modern Russia:

Soldiers on the Steppe Carol Belkin Stevens,1995 Soldiers on the Steppe charts the process of Russian army reform not as reflected in laws and government edicts but rather as it was lived on the southeastern frontier of Europe

Crime and Punishment in Early Modern Russia Nancy Kollmann,2012-10-11 A magisterial account of criminal law in early modern Russia in a wider European and Eurasian context

Russia in the Early Modern World Donald Ostrowski,2022-01-25 A fundamental problem in studying early modern Russian history is determining Russia's historical development in relationship to the rest of the world The focus throughout this book is on the continuity of Russian policies during the early modern period 1450-1800 and that those policies coincided with those of other successful contemporary Eurasian polities The continuities occurred in the midst of constant change but neither one nor the other continuities or changes alone can account for Russia's success Instead Russian rulers from Ivan III to Catherine II with their hub advisors managed to sustain a balance between the two During the early modern period these Russian rulers invited into the country foreign experts to facilitate the transfer of technology and know how mostly from Europe but also from Asia In this respect they were willing to look abroad for solutions to domestic problems Russia looked westward for military weaponry and techniques at the same time it was expanding eastward into the Eurasian heartland The ruling elite and by extension the entire ruling class worked in cooperation with the ruler to implement policies The Church played an active role in supporting the government and in seeking to eliminate opposition to the government

State, Power and Community in Early Modern Russia B. Davies,2004-03-19 State and Community in Early Modern Russia is a vivid reconstruction of life in one of the garrison towns built on Muscovy's southern steppe frontier in the early Seventeenth century to defend against Tatar raids It focuses on how the colonization process shaped power relations in a particular southern garrison community both at the village level within the land commune and at the district level between the general garrison community and the appointed officials representing state authority

The Military and Society in Russia, 1450-1917 Eric Lohr,Marshall Poe,2002-11-01 This book explores the interaction of the Russian military and society in the early modern and modern period In contrast to straightforward military histories the volume is concerned with the myriad political economic and cultural currents that shaped the Russian armed forces from their beginnings in Muscovite times to the end of World War I The book begins with an attempt by the editors to provide a large frame in which to place the various contributions What follows are three topical sections including 22 detailed often archival based monographic articles The first section concerns The Military and Society in Muscovy the second section focuses on The Military and Society in Imperial Russia The third part analyzes Patriotism Nationality Religion and the Military

Reforming the Tsar's Army David Schimmelpenninck van der Oye,Bruce W. Menning,2004-03-18 This volume examines how Imperial Russia's armed forces sought to adapt to the challenges of modern warfare From Peter the Great to Nicholas II rulers always understood the need to maintain an army and navy capable of

preserving the empire's great power status Yet they inevitably faced the dilemma of importing European military and technological innovations while keeping out political ideas that could challenge the autocracy's monopoly on power Within the context of a constant race to avoid oblivion the impulse for military renewal emerges as a fundamental and recurring theme in modern Russian history

Warfare in Eastern Europe, 1500-1800 Brian Davies, 2012-01-05 A comparative examination of military development in early modern Eastern Europe focusing on Russian Polish Lithuanian Ottoman Habsburg Cossack and Western European mercenary practice

For the Common Good and Their Own Well-Being Alison K. Smith, 2014-10-01 Every subject of the Russian Empire had an official legal place in society marked by his or her social estate or *soslovie* This book looks at the many ways that *soslovie* affected individual lives and traces its legislation and administration from the early eighteenth through to the early twentieth century

The Michigan Alumnus, 1994 In volumes 1-8 the final number consists of the Commencement annual

The Oxford Handbook of Early Modern European History, 1350-1750 Hamish Scott, 2015-07-23 This Handbook re-examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350-1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume I examines Peoples and Place assessing structural factors such as climate printing and the revolution in information social and economic developments and religion including chapters on Orthodoxy Judaism and Islam

Russia's First Civil War Chester S. L. Dunning, 2010-11-01 He shows that serfs did not actively participate in the civil war and that the abolition of serfdom was never a rebel goal Instead most rebels were petty gentry professional soldiers townsmen and cossacks who were united in fierce opposition to tsars they believed to be illegitimate usurpers

A History of Russia, Central Asia and Mongolia, Volume II David Christian, 2018-01-08 Provides an all-encompassing look at the history of Russia Central Asia and Mongolia Beginning with the breakup of the Mongol Empire in the mid-thirteenth century Volume II of this comprehensive work covers the remarkable history of Inner Eurasia from 1260 up to modern times completing the story begun in Volume I Volume II describes how agriculture spread through Inner Eurasia providing the foundations for new agricultural states including the Russian Empire It focuses on the idea of mobilization the distinctive ways in which elite groups mobilized resources from their populations and how those methods were shaped by the region's distinctive ecology which differed greatly from that of

Outer Eurasia the southern half of Eurasia and the part of Eurasia most studied by historians This work also examines how fossil fuels created a bonanza of energy that helped shape the history of the Communist world during much of the twentieth century Filled with figures maps and tables to help give readers a fuller understanding of what has transpired over 750 years in this distinctive world region A History of Russia Central Asia and Mongolia Volume II Inner Eurasia from the Mongol Empire to Today 1260 2000 is a magisterial but accessible account of this area s past that will offer readers new insights into the history of an often misunderstood part of the world Situates the histories of Russia Central Asia and Mongolia within the larger narrative of world history Concentrates on the idea of Inner Eurasia as a coherent ecological and geographical zone Focuses on the powerful ways in which the region s geography shaped its history Places great emphasis on how mobilization played a major part in the development of the regions Offers a distinctive interpretation of modernity that highlights the importance of fossil fuels Offers new ways of understanding the Soviet era A History of Russia Central Asia and Mongolia Volume II is an ideal book for general audiences and for use in undergraduate and graduate courses in world history The Blackwell History of the World Series The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past for every curious person in every part of the world It will comprise some two dozen volumes of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change Each provides a systematic account of a very large subject but they are also both imaginative and interpretative The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production **Peter the**

Great Lindsey Hughes,2008-10-01 Peter the Great 1672 1725 tsar of Russia for forty three years was a dramatic appealing and unconventional character This book provides a vivid sense of the dynamics of his life both public and private and his reign Drawing on his letters and papers as well as on other contemporary accounts the book provides new insights into Peter s complex character giving information on his actions deliberations possessions and significant fantasy world his many disguises and pseudonyms his interest in dwarfs his clowning and vandalism It also sheds fresh light on his relationships with individuals such as his second wife Catherine and his favorite Alexander Menshikov The book includes discussions of Peter s image in painting and sculpture and there are two final chapters on his legacy and posthumous reputation up to the present

The Cambridge History of Turkey Kate Fleet,Suraiya N. Faroqhi,Reşat Kasaba,2006-11-02 Volume 3 of The Cambridge History of Turkey covers the period from 1603 to 1839 **Ottoman Wars, 1700-1870** Virginia Aksan,2014-01-14 The Ottoman Empire had reached the peak of its power presenting a very real threat to Western Christendom when in 1683 it suffered its first major defeat at the Siege of Vienna Tracing the empire s conflicts of the next two centuries The Ottoman Wars An Empire Besieged examines the social transformation of the Ottoman military system in an era of global imperialism

Spanning more than a century of conflict the book considers challenges the Ottoman government faced from both neighbouring Catholic Habsburg Austria and Orthodox Romanov Russia as well as arguably more importantly from military intellectual and religious groups within the empire Using close analysis of select campaigns Virginia Aksan first discusses the Ottoman Empire s changing internal military context before addressing the modernized regimental organisation under Sultan Mahmud II after 1826 Featuring illustrations and maps many of which have never been published before *The Ottoman Wars* draws on previously untapped source material to provide an original and compelling account of an empire near financial and societal collapse and the successes and failures of a military system under siege The book is a fascinating study of the decline of an international power raising questions about the influence of culture on warfare *The Military History of Tsarist*

Russia F. Kagan,R. Higham,2016-04-30 *The Military History of Tsarist Russia* examines Russian military history from the rise of the Muscovite state to the present even peeking briefly into the future The volume covers Russia s land forces extensively but also covers the development of the Russian Navy and the creation and development of the Russian Air Force parts of the Russian military machine that are frequently neglected in general writings The historical analysis addresses the development and function of the Russian military whether in peace or in war as well as the impact of war and changes in the military upon Russian society and politics Questions of military organization doctrine and technique are paramount as well as the critical question of the interface between the armed forces and society *Cossacks and the Russian Empire, 1598-1725* Christoph Witzenrath,2007-04-16 Using a wide range sources this book explores the ways in which the Russians governed their empire in Siberia from 1598 to 1725 Paying particular attention to the role of the Siberian Cossaks the author takes a thorough assessment of how the institutions of imperial government functioned in seventeenth century Russia It raises important questions concerning the nature of the Russian autocracy in the early modern period investigating the neglected relations of a vital part of the Empire with the metropolitan centre and examines how the Russian authorities were able to control such a vast and distant frontier given the limited means at its disposal It argues that despite this great physical distance the representations of the Tsar s rule in the symbols texts and gestures that permeated Siberian institutions were close at hand thus allowing the promotion of political stability and favourable terms of trade Investigating the role of the Siberian Cossacks the book explains how the institutions of empire facilitated their position as traders via the sharing of cultural practices attitudes and expectations of behaviour across large distances among the members of organisations or personal networks

A Companion to Russian History Abbott Gleason,2014-01-28 This companion comprises 28 essays by international scholars offering an analytical overview of the development of Russian history from the earliest Slavs through to the present day Includes essays by both prominent and emerging scholars from Russia Great Britain the US and Canada Analyzes the entire sweep of Russian history from debates over how to identify the earliest Slavs through the Yeltsin Era and future prospects for post Soviet Russia Offers an extensive review of the medieval period religion culture and the experiences of

ordinary people Offers a balanced review of both traditional and cutting edge topics demonstrating the range and dynamism of the field

The Northern Wars Robert I. Frost, 2014-09-25 This book provides an accessible study of the neglected but highly important series of wars fought for control of the Baltic and Northeastern Europe during the period 1558-1721. It is the first comprehensive history which considers the revolution in military strategy which took place in the battlefields of Eastern Europe. Robert Frost examines the impact of war on the very different social and political systems of Sweden, Denmark, Poland, Lithuania and Russia and he explains why it was Russia that emerged victorious from these wars. Based on extensive primary and secondary research including much material that is unfamiliar in English, this book makes an important contribution to the debate on military change and political development in early modern Europe.

Eurasian Slavery, Ransom and Abolition in World History, 1200-1860 Christoph Witzentrath, 2016-03-09 Recent research has demonstrated that early modern slavery was much more widespread than the traditional concentration on plantation slavery. In the context of European colonial expansion, it would suggest that slavery and slave trading, though little researched, were common across wide stretches of Eurasia and a slave economy played a vital part in the political and cultural contacts between Russia and its Eurasian neighbours. This volume concentrates on captivity, slavery, ransom and abolition in the vicinity of the Eurasian steppe from the early modern period to recent developments and explores their legacy and relevance down to the modern times. The contributions centre on the Russian Empire while bringing together scholars from various historical traditions of the leading states in this region, including Poland, Lithuania and the Ottoman Empire and their various successor states. At the centre of attention are transfers, transnational fertilizations and the institutions, rituals and representations facilitating enslavement, exchanges and ransoming. The essays in this collection define and quantify slavery covering various regions in the steppe and its vicinity and looking at trans-cultural issues and the implications of slavery and ransom for social, economic and political connections across the steppe. In so doing, the volume provides both a broad overview of the subject and a snapshot of the latest research from leading scholars working in this area.
