Surrealism Politics And Culture Studies In European Cultural Transition S:

French Primitivism and the Ends of Empire, 1945-1975 Daniel J. Sherman, 2011-11-15 For over a century the idea of primitivism has motivated artistic modernism Focusing on the three decades after World War II known in France as les trentes glorieuses despite the loss of most of the country's colonial empire this probing and expansive book argues that primitivism played a key role in a French society marked by both economic growth and political turmoil In a series of chapters that consider significant aspects of French culture including the creation of new museums of French folklore and of African and Oceanic arts and the development of tourism against the backdrop of nuclear testing in French Polynesia Daniel J Sherman shows how primitivism a collective fantasy born of the colonial encounter proved adaptable to a postcolonial inward looking age of mass consumption Following the likes of Claude Lévi Strauss André Putnam and Jean Dubuffet through decorating magazines museum galleries and Tahiti's pristine lagoons this interdisciplinary study provides a new perspective on primitivism as a cultural phenomenon and offers fresh insights into the eccentric edges of contemporary French history
