**DADA, Surrealism, and the Cinematic Effect** R. Bruce Elder, 2015-10-15 This book deals with the early intellectual reception of the cinema and the manner in which art theorists philosophers cultural theorists and especially artists of the first decades of the twentieth century responded to its advent While the idea persists that early writers on film were troubled by the cinema's lowly form this work proposes that there was another largely unrecognized strain in the reception of it Far from anxious about film's provenance in popular entertainment some writers and artists proclaimed that the cinema was the most important art for the moderns as it exemplified the vibrancy of contemporary life This view of the cinema was especially common among those whose commitments were to advanced artistic practices Their notions about how to recast the art media or the forms forged from those media's materials and the urgency of doing so formed the principal part of the conceptual core of the artistic programs advanced by the vanguard art movements of the first half of the twentieth century This book a companion to the author's previous *Harmony Dissent* examines the Dada and Surrealist movements as responses to the advent of the cinema

[The Persistence of Masks](#) Joyce Suechun Cheng, 2025-10-07 An examination of surrealism's unofficial ethnography of marginalized subjectivities In interwar Paris the encounter between surrealism and the nascent discipline of ethnology led to an intellectual project now known as ethnographic surrealism In *The Persistence of Masks* Joyce Suechun Cheng considers the ethnographic dimension of the surrealist movement in its formative years through a close look at the reviews Documents 1929 30 and Minotaure 1933 39 as well as the surrealist writer turned ethnographer Michel Leiris's ethnography of possession Analyzing surrealist aesthetic criticism art poetry and field research in terms of a common interest in marginalized modes of subjectivity Cheng argues that the surrealists used the figures of the mask the veil the hand and the hat to radically reconceive the subject as nonhegemonic nonanthropocentric and feminine identified Though ethnographic surrealism usually refers to the collaboration between professional ethnologists at the Institut de l'Ethnologie in Paris and Georges Bataille's so called dissident circle of surrealists Cheng demonstrates that surrealism's unofficial ethnography began long before the founding of the movement Starting with Andr  Breton's wartime text *Subject* 1916 written when he was still a young psychiatric intern treating traumatized soldiers she shows how the future surrealist poet shifted from a clinical to a para ethnographic approach to subjectivity when adopting his patient's first person voice as a

textual mask Revealing surrealism to be always implicitly ethnographic Cheng uncovers deep affinities between archivals Breton and Bataille highlights psychiatry's underacknowledged role in surrealism's lay ethnography and theorizes the surrealists' feminine identification as a means of critiquing power By broadening the scope of ethnographic surrealism The Persistence of Masks offers new insights that challenge longstanding beliefs about this multifaceted movement in poetry the arts and culture

**Concepts of the World** Effie Rentzou, 2022-09-15 How did the avant garde imagine its interconnected world And how does this legacy affect our understanding of the global today The writers and artists of the French avant garde aspired to reach a global audience that would be wholly transformed by their work In this study Effie Rentzou delves deep into their depictions of the interwar world as an international and modern landscape one marked by a varied cosmopolitanism The avant garde's conceptualization of the world paralleled rejected or expanded prevailing notions of the global sphere The historical avant garde which encompassed movements like futurism Dada and surrealism was self consciously international operating across global networks and developed with the whole world as its horizon and its public In the heady period between the end of the Belle époque and the tumult of World War II both individual artists including Guillaume Apollinaire Blaise Cendrars Francis Picabia Louis Aragon Leonora Carrington and Nicolas Calas and collective endeavors such as surrealist magazines and exhibitions grappled with contemporary anxieties about economic growth imperialism and colonialism as well as various universalist cosmopolitan and internationalist visions By probing these works Concepts of the World offers an alternative narrative of globalization one that integrates the avant garde's enthusiasm for as well as resistance to the process Rentzou identifies within the avant garde a powerful political language that expressed the ambivalence of living and creating in an increasingly globalized world a language that profoundly shaped the way the world has been conceptualized and is experienced today

**The Modernist Bestiary** Timothy Mathews, Sarah Kay, 2020-07-08 The Modernist Bestiary centres on *Le Bestiaire ou Cortège d'Orphée* 1911 a multimedia collaborative work by French Polish poet Guillaume Apollinaire and French artist Raoul Dufy and its homonym *The Bestiary or Procession of Orpheus* 1979 by British artist Graham Sutherland Rather than reconstructing the lineage of these two compositions the book uncovers the aesthetic and intellectual processes involved that operate in different times places and media The Apollinaire and Dufy Bestiary is an open ended collaboration a feature that Sutherland develops in his re-visiting and this book shows how these neglected works are caught up in many faceted networks of traditions and genres These include Orphic poetry from the past contemporary musical settings and bestiary writing from its origins to the present The nature of productive dialogue between thought and art and the refracted light they throw on each other are explored in each of the pieces in the book and the aesthetic experience emerges as generative rather than reductive or complacent The contributors' encounters with these works take the form of poetry and essays all moving freely between different disciplines and practices humanistic and posthumanist critical dimensions as well as different animals and art forms They draw on disciplines ranging from music art

history translation Classical poetry and French poetry and are nurtured by approaches including phenomenology cultural studies sound studies and critical animal studies Collectively the book shows that the aesthetic encounter by nature affective is by nature also interdisciplinary and motivating and that it spurs the critical in addressing the complex issues of humananimality

**The Critique of Work in Modern French Thought** Alastair Hemmens, 2019-04-26 What is work Why do we do it Since time immemorial the answer to these questions from both the left and the right has been that work is both a natural necessity and barring exploitation a social good One might criticise its management its compensation and who benefits from it the most but never work itself never work as such In this book Alastair Hemmens seeks to challenge these received ideas Drawing on the new critique of value school of Marxian critical theory Hemmens demonstrates that capitalism and its final crisis cannot be properly understood except in terms of the historically specific and socially destructive character of labour It is from this radical perspective that Hemmens turns to an innovative critical analysis of the rich history of radical French thinkers who over the past two centuries have challenged the labour form head on from the utopian socialist Charles Fourier who called for the abolition of the separation between work and play and Marx s wayward son in law Paul Lafargue who demanded The Right to Laziness 1880 to the father of Surrealism Andr Breton who inaugurated a war on work and of course the French Situationist Guy Debord author of the famous graffito never work Ultimately Hemmens considers normative changes in attitudes to work since the 1960s and the future of anti capitalist social movements today This book will be a crucial point of reference for contemporary debates about labour and the anti work tradition in France
