**The Secret Pleasure - Anal Sex** Celso Marzano, 2016-03-14 Not long ago doctors started a fieldwork in the area of sexology and there are very few of them who adventure themselves in this field and write about what they know Among them only a smaller number choose the delicate subject that Doctor Celso Marzano has chosen Only after years of clinical work and with confidence on his work and on himself is that he chose to write about this human behavior matter It's already been written that we Brazilians because of the importance that we give

to this subject are sodomites If we are or not there is no doubt we are The question isn't even if we are more or less than other people The question is that in order to be a sodomite we need to act wisely And in this book we have an analysis a guide not with recipes and hygiene advices but with a new light upon the secrets of the myth that surrounds anal sex Being impartial when it comes to delicate issues can challenge creativity and maturity And reading this book the reader will observe that the author owns both characteristics And that's rare among the elite that we have described at the beginning of this preface Taking responsible information free of prejudice to those who are interested in the subject is not an easy task People who are dedicated to sexology know how intensely this matter moves in society Some religions used anal sex practice as an example of typical sinful human behavior Feminists dressed it as the ultimate proof of the desire that sexists have for humiliating women This book studies the subject through the eyes of a constructive and guided sexology not losing sight that the future will give this practice the destiny that the past wasn't bold enough to foresee In spite of this future we have here a study that deserves to be read and analyzed as a new challenge to conquer over prejudices and make people aware of the motivations and consequences of sodomy

The Solitary Vice Mikita Brottman, 2008-02-12 Mikita Brottman wonders just why is reading so great It's a solitary practice one that takes away from time that could be spent developing important social networking skills Reading's not required for health happiness or a loving family And if reading is so important why are catchy slogans like Reading Changes Lives and Champions Read needed to hammer the point home Fearlessly tackling the notion that nonreaders are doomed to lives of despair and mental decay Brottman makes the case that the value of reading lies not in its ability to ward off Alzheimer's or that it's a pleasant hobby Rather she argues that like that other well known solitary vice masturbation reading is ultimately not an act of pleasure but a tool for self exploration one that allows people to see the world through the eyes of others and lets them travel deep into the darkness of the human condition **The Oxford**
